CONTINUED INSIDE

AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

The six-month trial period ended August 6. The program is being continued on a voluntary basis (see OFR notice, 41 FR 32914, August 6, 1976). The following agencies have agreed to remain in the program:

Monday	Tuesday	Wednesday	Thursday	Friday
DOT/COAST GUARD	USDA/ASCS		DOT/COAST GUARD	USDA/ASCS
DOT/NHTSA	USDA/APHIS		DOT/NHTSA	USDA/APHIS
DOT/FAA	USDA/FNS		DOT/FAA	USDA/FNS
DOT/OHMO	USDA/REA		DOT/OHMO	USDA/FSQS
DOT/OPSO	USDA/FSQS		DOT/OPSO	USDA/REA
	CSC			CSC
	LABOR			LABOR
	HEW/ADAMHA			HEW/ADAMHA
	HEW/CDC			HEW/CDC
	HEW/FDA			HEW/FDA
	HEW/HRA			HEW/HRA
	HEW/HSA			HEW/HSA
	HEW/NIH			HEW/NIH
	HEW/PHS			HEW/PHS

Documents normally scheduled on a day that will be a Federal holiday will be published the next work day following the holiday.

Comments on this program are still invited. Comments should be submitted to the Day-of-the-Week Program Coordinator, Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408.

Note: As of Nov. 3, 1977, Food Safety and Quality Service (USDA) documents are being assigned to the Tuesday/Friday schedule.

ATTENTION: For questions, corrections, or requests for information please see the list of telephone numbers appearing on opposite page.

federal register

Phone 523-5240
Area Code 202

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for \$5.00 per month or \$50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

Title 3—The President

Executive Order 12017

November 3, 1977

Amending the Code of Conduct for Members of the Armed Forces of the United States

The Code of Conduct has been an established standard of behavior for all members of the Armed Forces of the United States for more than twenty years. It has helped individuals in captivity to sustain their moral and physical strength and to survive extreme torture and abuse. However, experience indicates that certain words of the Code have, on occasion, caused confusion resulting in training divergencies.

NOW, THEREFORE, by virtue of the authority vested in me as President of the United States of America, and as Commander-in-Chief of the Armed Forces of the United States, in order to clarify the meaning of certain words, Article V of the Code of Conduct for Members of the Armed Forces of the United States, attached to and made a part of Executive Order No. 10631 of August 17, 1955, is hereby amended to read as follows:

"When questioned, should I become a prisoner of war, I am required to give name, rank, service number and date of birth. I will evade answering further questions to the utmost of my ability. I will make no oral or written statements disloyal to my country and its allies or harmful to their cause."

THE WHITE HOUSE,

Executive Order 12018

November 3, 1977

Amending the Manual for Courts-Martial, United States, 1969 (Revised Edition)

Members of the Armed Forces of the United States who are captured and held prisoner by a hostile armed force are effectively outside the direct operational control of United States military authorities. Recent conflicts involving members of the Armed Forces indicate a need for establishing and maintaining a chain of command among prisoners of war or detained personnel. The senior member of all Services must be provided the necessary command authority over all members of the Armed Forces with whom he is imprisoned or detained. The present wording in the Manual for Courts-Martial should be amended to provide such authority.

NOW, THEREFORE, by virtue of the authority vested in me by the Uniform Code of Military Justice (Chapter 47 of Title 10 of the United States Code) and as President of the United States of America, the Manual for Courts-Martial, United States, 1969 (Revised Edition), prescribed by Executive Order No. 11476 and amended by Executive Order No. 11835, is hereby further amended as follows:

SECTION 1. The third paragraph within paragraph 168 is amended by striking out the third sentence and inserting the following in place thereof:

"A commissioned officer of one armed force is not 'his superior commissioned officer' with respect to a member of another armed force merely because of higher rank. However, a commissioned officer of one armed force is, within the meaning of Article 89, 'his superior commissioned officer' with respect to a member of another armed force if duly placed in the chain of command over that person. In addition, when members of more than one armed force are prisoners of war or otherwise detained by a hostile entity so that circumstances prevent resort to the normal chain of command, a commissioned officer of one armed force who is not a medical officer or chaplain is 'his superior commissioned officer' with respect to a member of another armed force who is his junior in rank."

SEC. 2. The first paragraph within paragraph 170a is amended by inserting the following after the second sentence:

"A warrant officer, noncommissioned officer, or petty officer of one armed force who is senior in rank to a member of another armed force is senior to that member under the same circumstances that a commissioned officer of one armed force is the superior commissioned officer of a member of another armed force for the purpose of Article 89 and 90. See 168."

THE PRESIDENT

SEC. 3. The first paragraph within paragraph 171*b* is amended by inserting the following after "See 138*b*":

"A member of one armed force who is senior in rank to a member of another armed force is the superior of that member with authority to issue orders which that member has a duty to obey under the same circumstances as a commissioned officer of one armed force is the superior commissioned officer of a member of another armed force for the purposes of Articles 89 and 90. See 168."

THE WHITE HOUSE,
November 3, 1977.

[3195-01]

Executive Order 12019

November 3, 1977

Establishing the Defense Meritorious Service Medal

By virtue of the authority vested in me as President of the United States of America, and as Commander in Chief of the Armed Forces, it is hereby ordered as follows:

SECTION 1. There is hereby established a Defense Meritorious Service Medal, with accompanying ribbons and appurtenances, for award by the Secretary of Defense to any member of the Armed Forces of the United States who has rendered outstanding non-combat meritorious achievement or service while assigned to the Office of the Secretary of Defense, the Organization of the Joint Chiefs of Staff, a specified or unified command, a Defense agency, or other such joint activity as may be designated by the Secretary of Defense.

SEC. 2. The Defense Meritorious Service Medal, with accompanying ribbons and appurtenances, shall be of appropriate design approved by the Secretary of Defense and shall be awarded under such regulations as the Secretary of Defense may prescribe. These regulations shall place the Defense Meritorious Service Medal in an order of precedence after the Medal of Honor, the Distinguished Service Cross, the Defense Distinguished Service Medal, the Distinguished Service Medal, the Silver Star Medal, the Defense Superior Service Medal, the Legion of Merit Medal, and the Bronze Star Medal, but before the Meritorious Service Medal.

SEC. 3. No more than one Defense Meritorious Service Medal shall be awarded to any one person, but for each succeeding outstanding meritorious achievement or service justifying such an award a suitable device to be worn with that medal may be awarded under such regulations as the Secretary of Defense may prescribe.

SEC. 4. The Defense Meritorious Service Medal or device may be awarded posthumously and, when so awarded, may be presented to such representative of the deceased as may be deemed appropriate by the Secretary of Defense.

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

[3410-02]

Title 7—Agriculture

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Orange, Grapefruit, Tangerine, and Tangelo Reg. 1]

PART 905—ORANGES, GRAPEFRUIT, TANGERINES, AND TANGLOS GROWN IN FLORIDA

[Grapefruit Reg. 1]

PART 944—FRUITS; IMPORT REGULATIONS

Grade and Size Regulations

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: These regulations continue through September 24, 1978, current minimum grade and size requirements for Florida oranges, grapefruit, tangerines, and tangelos and imported grapefruit. The regulations will expire on November 13, 1977, unless extended. The action is necessary to assure shipment of ample supplies of fruit of acceptable grades and sizes in the interest of growers and consumers.

EFFECTIVE DATE: November 14, 1977, through September 24, 1978.

FOR FURTHER INFORMATION CONTACT:

Charles R. Brader, 202-447-3545.

SUPPLEMENTARY INFORMATION: Notice was published in the FEDERAL REGISTER on October 12, 1977 (42 FR 54949), that the Department was considering extension of the regulations currently in effect through November 13, 1977, which are effective under the marketing agreement, and Order No. 905 (7 CFR Part 905), regulating handling of oranges, grapefruit, tangerines, and tangelos grown in Florida, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and to a conforming extension of the regulation for imported grapefruit, effective pursuant to section 8e of the act. The notice provided that all written comments in connection with the proposed regulations be submitted by October 25, 1977. None were received.

The action of the specified citrus fruit grown in Florida is based upon recommendations of the Growers Administrative Committee and Shippers Advisory Committee, established under the marketing order. The action is designed to assure shipment of ample supplies of fruit of acceptable grades and sizes in the interest of growers and consumers.

The action for imported grapefruit is consistent with the aforesaid section of the act. This section requires that whenever specified commodities, including grapefruit, are regulated under a federal marketing order, imports of that commodity must meet the same or comparable grade, size, quality, or maturity requirements as those in effect for the domestically produced commodity.

After consideration of all matters presented, including the proposals in the aforesaid notice and other information, it is found that the regulations, as set forth herein, are in accordance with said marketing order and will tend to effectuate the declared policy of the act.

It is further found that good cause exists for not postponing the effective date of these regulations until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that (1) notice of rule-making concerning the regulations, with an effective date of November 14, 1977, was published in the FEDERAL REGISTER, and no objection to those regulations or such effective date was received; (2) the recommendation and information for regulation of the aforesaid fruits was developed at an open meeting at which interested persons were afforded an opportunity to submit their views; and (3) the

regulations will not require any special preparation on the part of the persons subject thereto which cannot be completed by the effective time.

Accordingly, it is found that the provisions of the proposed regulations contained in the Notice of Proposed Rule-making published in the FEDERAL REGISTER on October 12, 1977 (42 FR 54949), typesetting, or obvious errors, shall be and are the terms and provisions of these regulations, and are set forth in full herein.

7 CFR Parts 905 and 944 are amended as follows:

1. A new § 905.301 is added as follows:

§ 905.301 Orange, Grapefruit, Tangerine, and Tangelo Regulation 1.

Order. (a) During the period specified in Column (2) of Table I no handler shall ship between the production area and any point outside thereof in continental United States, Canada, or Mexico, any variety of fruit listed in Column (1) of such table unless such variety meets the applicable minimum grade and size (with tolerances for size as specified in paragraph (c) hereof) specified for such variety in Column (3) and (4) of such table.

TABLE I

Variety	Regulation period	Minimum grade	Minimum size (diameter)
(1)	(2)	(3)	(4)
Oranges:			
Early and midseason	Sept. 26, 1977 to Sept. 24, 1978	U.S. No. 1	2 3/4
Navel	do	U.S. No. 1 Golden	2 3/4
Valencia and other late type	do	U.S. No. 1	2 3/4
Temple	do	do	2 3/4
Murcott honey	do	Florida No. 1	2 1/4
Grapefruit:			
Seeded, except pink	do	U.S. No. 1	3 1/4
Seeded, pink	do	do	3 1/4
Seedless, except pink	do	Improved No. 2	3 1/4
Seedless, pink	do	do	3 1/4
Tangerines: Dancy and similar, including Robinson	do	U.S. No. 1	2 3/4
Tangolos: Tangelos	do	do	2 3/4

(b) During the period specified in Column (2) of Table II no handler shall ship to any destination outside the continental United States, other than Canada or Mexico, any variety of fruit listed in Column (1) of such table unless such variety meets the applicable minimum grade and size (with tolerances for size as specified in paragraph (c) hereof) specified for such variety in Columns (3) and (4) of such table.

TABLE II

Variety	Regulation period	Minimum grade	Minimum size (diameter)
(1)	(2)	(3)	(4)
Oranges:			
Early and midseason	Sept. 26, 1977 to Sept. 24, 1978	U.S. No. 1	2 3/4
Navel	do	U.S. No. 1 Golden	2 3/4
Valencia and other late type	do	U.S. No. 1	2 3/4
Temple	do	do	2 3/4
Murcott honey	do	Florida No. 1	2 1/4
Grapefruit:			
Seeded, except pink	do	U.S. No. 1	3 1/4
Seeded, pink	do	do	3 1/4
Seedless, except pink	do	Improved No. 2	3 1/4
Seedless, pink	do	do	3 1/4
Tangerines: Dancy and similar, including Robinson	do	U.S. No. 1	2 3/4
Tangolos: Tangelos	do	do	2 3/4

(c) *Size Tolerances*: In the determination of minimum size as prescribed in Tables I and II, the following tolerances are permitted (1) for oranges, as set forth in § 51.1152 of the U.S. Standards for Grades of Florida Oranges and Tangelos, except that for early and mid-season type and Valencia oranges shipped interstate in bulk a tolerance of 10 percent, by count, based on oranges $2\frac{1}{16}$ inches in diameter and smaller shall apply, and the tolerance for Murcott Honey oranges shall be as specified in § 51.1818 of the U.S. Standards for Grades of Florida Tangerines; (2) for grapefruit, as specified in § 51.761 of the U.S. Standards for Grades of Florida Grapefruit; (3) for tangerines, as specified in § 51.1818 of the U.S. Standards for Grades of Florida Tangerines; and (4) for tangelos, as set forth in § 51.1152 of the U.S. Standards for Grades of Florida Oranges and Tangelos.

(d) Terms used in the marketing order, including Improved No. 2 grade for grapefruit, when used herein, mean the same as is given to the terms in the order; Florida No. 1 grade for murcotts means the same as provided in Rule No. 20-35.03 of the Regulations of the Florida Department of Citrus, and terms relating to grade, except Improved No. 2 grade for grapefruit, and diameter shall mean the same as is given to the terms in the revised U.S. Standards for Grades of Florida Oranges and Tangelos (7 CFR 51.1140-51.1180), the revised U.S. Standards for Florida Tangerines (7 CFR 51.1810-51.1835), or the revised U.S. Standards for Grades of Florida Grapefruit (7 CFR 51.750-51.784).

2. In Part 944, § 944.114 is redesignated as § 944.101, and paragraph (a) of that new section is revised as follows:

§ 944.101 Grapefruit Regulation 1.

(a) *Applicability to imports*. Pursuant to section 8e of the act and Part 944—Fruits; Import Regulations, during the period specified in Column (2) of Table I, specified in § 905.301, the importation into the United States of any variety of grapefruit listed in Column (1) of said table is prohibited unless such variety meets the applicable minimum grade and size specified for such variety in Columns (3) and (4) of said table. In the determination of minimum size as prescribed in Table I, a tolerance is permitted as specified in paragraph (c) of § 905.301.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674.)

Dated: November 2, 1977, to become effective November 14, 1977.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service

[FR Doc.77-32165 Filed 11-4-77;8:45 am]

[3410-02]

PART 984—WALNUTS GROWN IN CALIFORNIA, OREGON, AND WASHINGTON

Expenses and Rate of Assessment

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This regulation authorizes expenses and a rate of assessment for the 1977-78 marketing year, to be collected from handlers to support activities of the Walnut Marketing Board which locally administers the Federal marketing order covering California walnuts.

EFFECTIVE DATES: August 1, 1977, through July 31, 1978.

FOR FURTHER INFORMATION CONTACT:

Charles R. Brader, 202-447-6393.

SUPPLEMENTARY INFORMATION: On October 19, 1977, notice was published in the FEDERAL REGISTER (42 FR 55821) inviting written comments, not later than October 31, 1977, on proposed expenses and a rate of assessment under the marketing agreement, and Order No. 984, both as amended (7 CFR Part 984), regulating the handling of walnuts grown in California. This program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674).

After consideration of all relevant matter presented, including the proposals in the notice, it is found that:

§ 984.329 Expenses of the Walnut Marketing Board and rate of assessment for the 1977-78 marketing year.

(a) Expenses that are reasonable and likely to be incurred by the Walnut Marketing Board during the period August 1, 1977, through July 31, 1978, will amount to \$265,400.

(b) The rate of assessment for said period, payable by each handler in accordance with § 984.69 is fixed at 0.25 cent per kernel-weight pound for certified merchantable walnuts.

It is further found that good cause exists for not postponing the effective time until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553). The order requires that the rate of assessment for the marketing year shall apply to all assessable walnuts from the beginning of the year.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674.)

Dated: November 2, 1977.

CHARLES R. BRADER,
Deputy Director,
Fruit and Vegetable Division.

CHAPTER XIV—COMMODITY CREDIT CORPORATION, DEPARTMENT OF AGRICULTURE

SUBCHAPTER B—LOANS, PURCHASES, AND OTHER OPERATIONS

[Amdt. 1]

PART 1435—SUGAR

Subpart—Price Support Payment Program for 1977-Crop Sugarbeets and Sugarcane

MISCELLANEOUS AMENDMENTS

AGENCY: Commodity Credit Corporation, USDA.

ACTION: Final rule.

SUMMARY: The price support payment regulations are amended to (1) provide program coverage to producers whose sugarcane is processed into cane syrup or edible molasses; (2) place limitations on sugar contracted and committed for future delivery which shall be deemed to have been marketed during the marketing period; (3) provide program coverage on that portion of 1977-crop sugar marketed prior to September 15, 1977; (4) permit the processor to select either the "first-in first-out" or "last-in first-out" method of inventory accounting for program purposes; (5) extend the date for submitted certain reports from October 20, 1977, to November 10, 1977; and (6) omit from the computation of the national average market price certain processors other than just those in Louisiana who are also refiners.

For the reasons hereinafter set forth in Supplementary Information, these changes are necessary and desirable in order that the program may be more effective in providing price support to producers.

EFFECTIVE DATE: November 3, 1977.

FOR FURTHER INFORMATION CONTACT:

Robert R. Stansberry, Jr., ASCS, 202-447-7561 or 202-447-3517, P.O. Box 2415, Washington, D.C. 20013.

SUPPLEMENTARY INFORMATION: On October 7, 1977, the final regulations governing the Price Support Payment Program for 1977-Crop Sugarbeets and Sugarcane were published in the FEDERAL REGISTER (42 FR 54556). Since publication of the final rule, it was brought to the Department's attention that the exclusion of cane syrup mills from the program would cause inequitable treatment to some sugarcane producers. Therefore, this amendment revises all pertinent provisions so that prices to producers whose sugarcane is purchased for commercial processing into cane syrup or edible molasses can be supported equally with those of producers whose sugarcane is processed into raw sugar. It was also brought to the Department's atten-

tion that to deem all sugar contracted and committed for future delivery as being considered as "marketed" for the purpose of eligibility to receive payments under this program provided the opportunity for serious program abuse. To eliminate this potential problem area, this amendment limits the future delivery period of such sugar.

The Department of Justice concluded on October 11, 1977, that payments under this type of price support program may be made on that portion of 1977-crop sugar marketed prior to the September 15 effective date of the program provided the sugar was marketed under contracts which provide that the price paid by processors to producers is not fixed until all the processor's 1977-crop sugar is marketed and the average price received by such processor is determined. In view of the fact that all 1977-crop sugar marketed prior to September 15, 1977, was covered by such contracts, this amendment by revising the definition of "marketing period" makes all 1977-crop sugar marketed prior to September 15, 1977, eligible for payments under the program.

It was further pointed out to the Department of Agriculture that the requirement that the processor identify sugar on the basis of his normal and traditional method of accounting would cause obvious inequities among the various processors and their producers as a result of the required use of different methods of accounting. This amendment removes those inequities by permitting the processor to select a method of inventory accounting for purposes of the price support program.

In view of the fact that the price support payment program for sugarbeet and sugarcane has already been placed in operation, it is essential that this amendment to the regulations be implemented immediately. Accordingly, it is hereby determined that compliance with the proposed rulemaking requirements of 5 U.S.C. 553 is impracticable and contrary to the public interest.

Accordingly, 7 CFR Part 1435 is amended as follows:

1. Section 1435.3 is amended by revising paragraphs (c), (d), and (e) to read as follows:

§ 1435.3 Definitions.

(c) "Processor" means a person who commercially processes sugarbeets into refined sugar or sugarcane into raw sugar, cane syrup, or edible molasses.

(d) "Quantity of sugar marketed" means the pounds of refined beet sugar or cane sugar, raw value, including the cane sugar, raw value, equivalent contained in cane syrup and edible molasses, marketed from the 1977 crop during the marketing period as defined in paragraph (e) of this section. Refined beet sugar or raw cane sugar shall be deemed to have been marketed during the marketing period when (i) delivered to the purchaser, or (ii) delivered to a carrier for delivery to the purchaser, or (iii) title otherwise passes to the purchaser

and the sugar is committed for delivery, within a period not to exceed 30 days following the end of the marketing period, under a written contract fixing both the quantity and price of sugar to be delivered within such 30-day period; but, in each of the preceding cases, only to the extent that gross proceeds are accounted to the seller within the marketing period: *Provided*, That where raw cane sugar processors market their sugar through a cooperatively-owned refiner, marketing shall not be deemed to have occurred until the raw sugar or refined sugar produced therefrom is marketed by the cooperative.

(e) "Marketing period" means the period commencing when 1977-crop sugar was first marketed and ending when all 1977-crop sugar has been marketed or when the program provided for in this subpart is superseded by another price support program for 1977-crop sugar, whichever occurs first.

2. Section 1435.5 is amended by revising paragraph (b) to read as follows:

§ 1435.5 Method of support.

(b) *Coverage.* Payments will be made on the quantity of sugar marketed from the 1977 crop during the marketing period: *Provided*, That in the case of cane syrup which was produced from 1977 crop sugarcane by the open kettle process and marketed during the marketing period, payments will be made to the processor on a basis comparable to that received by raw cane sugar processors within the same producing area. The processor may select either the "first-in first-out" or "last-in first-out" method of inventory accounting for the purpose of identifying sugar of the 1977 crop. Once a method of inventory accounting has been selected by the processor, no change may be made therein.

3. Section 1435.6 is amended as follows:

(a) By changing the date "October 20, 1977" to "November 10, 1977" in paragraph (b);

(b) By revising paragraphs (c) and (d) to read as follows:

§ 1435.6 Eligibility for payment.

(c) Processor shall submit a report no later than November 10, 1977, showing the quantity of refined beet sugar or cane sugar, raw value, in inventory at the beginning of the 1977 crop marketing period.

(d) Processor shall submit a report, within 15 days after the end of the marketing period, showing the quantity of sugar marketed from the 1977 crop and the gross proceeds received therefrom.

4. Section 1435.8 is amended by revising paragraph (a) to read as follows:

§ 1435.8 Computation of national average market price.

(a) The quantity of sugar marketed and the gross proceeds received therefrom during the 12-month period ending

June 30, 1977, as submitted by processors in accordance with § 1435.6(b), will provide the basis for converting gross proceeds received for refined beet sugar to a raw sugar price equivalent basis, except that those processors in Florida and Louisiana who are also refiners of raw cane sugar or specialty sugars or who process sugarcane into cane syrup under the open kettle method will be omitted in the calculation of the national average market price. The percentage by which the average market price received for refined beet sugar exceeds the average market price received for cane sugar, raw value, will be computed.

(Secs. 301-303 and 401 et seq. of the Agricultural Act of 1949, as amended (7 U.S.C. 1447 et seq., 1421 et seq.))

Signed at Washington, D.C., on November 3, 1977.

BOB BERGLAND,
Secretary.

SUBCHAPTER C—EXPORT PROGRAMS

[Amdt. 3]

PART 1488—FINANCING OF SALES OF AGRICULTURAL COMMODITIES

Subpart A—Financing of Export Sales of Agricultural Commodities From Private Stocks Under CCC Export Credit Sales Program (GSM-5)

MISCELLANEOUS AMENDMENTS

AGENCY: Commodity Credit Corporation, Department of Agriculture.

ACTION: Final rule.

SUMMARY: This amendment will permit CCC, under the CCC Export Credit Sales Program, to finance exports of U.S. agricultural commodities loaded on foreign flag vessels that have called at a Cuban port on or after January 1, 1963. Such financing was previously prohibited by the National Security Council Action Memorandum No. 220, dated February 5, 1963. This memorandum was rescinded by the National Security Council effective June 10, 1977.

EFFECTIVE DATE: November 7, 1977.

FOR FURTHER INFORMATION CONTACT:

L. T. McElvain, Commercial Export Programs, Office of the General Sales Manager, U.S. Department of Agriculture, 14th Street and Independence Avenue, SW., Washington, D.C. 20250, telephone 202-447-3224.

SUPPLEMENTARY INFORMATION: Since the amendment is being made to comply with the action taken by the National Security Council, it is hereby found and determined that compliance with the procedure for notice of proposed rulemaking and public participation is unnecessary. Therefore, this amendment is issued without compliance with such procedure.

RULE

Accordingly, the heading and text of § 1488.19 are amended to read as follows:

§ 1488.19 Shipment of commodities on vessels calling at North Vietnamese ports.

Any commodity exported under a financing agreement shall not be shipped from the United States, or transshipped through Canada via ports on the Great Lakes or on the St. Lawrence River, on a vessel which has called at a North Vietnamese port on or after January 25, 1966, unless a special waiver is granted by the Maritime Administration. Commodities shipped on such vessel shall not be considered to have been exported under the financing agreement.

(Sec. 5(f), 62 Stat. 1072 (15 U.S.C. 714c); Sec. 4, 80 Stat. 1538 (7 U.S.C. 1707a).)

Signed at Washington, D.C. on October 31, 1977.

KELLY HARRISON,
Vice President, Commodity
Credit Corporation and Gen-
eral Sales Manager, Office of
the General Sales Manager.

Title 12—Banks and Banking

CHAPTER II—FEDERAL RESERVE SYSTEM

SUBCHAPTER A—BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM

[Reg. Q; Docket No. R-0126]

PART 217—INTEREST ON DEPOSITS

Penalty for Early Withdrawals

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Final rule.

SUMMARY: The Board of Governors of the Federal Reserve System has approved an amendment to its regulations for interest on deposits. That sentence currently provides that any amendment of a time deposit contract that results in either an increase in the rate of interest paid or a change in the maturity of the deposit constitutes a payment of the time deposit before maturity subject to the early withdrawal penalty rule contained in § 217.4(d). As amended, that sentence provides that an amendment of a time deposit contract that results in an increase in the rate of interest paid on the deposit or a reduction in the maturity of the deposit constitutes a payment of the time deposit before maturity. The amendment enables member banks, at the request or upon permission of their depositors, to extend the maturity of an outstanding time deposit without treating such extension of maturity as a withdrawal before maturity so long as the rate of interest paid on the time deposit is not increased.

EFFECTIVE DATE: December 1, 1977.

FOR FURTHER INFORMATION CONTACT:

Allen L. Raiken, Assistant General Counsel, Legal Division, Board of Gov-

ernors of the Federal Reserve System, Washington, D.C. 20551, 202-452-3625.

SUPPLEMENTARY INFORMATION: The fourth sentence of § 217.4(d) of Regulation Q treats an amendment of a time deposit contract that results in either an increase in the rate of interest paid or a change in the maturity of the deposit as a payment before maturity subject to the early withdrawal penalty. This provision was adopted in the summer of 1973 in response to volatile money market conditions. On July 5, 1973, the Board, in conjunction with the Federal Deposit Insurance Corporation ("FDIC") and the Federal Home Loan Bank Board, announced an increase in the prescribed maximum rates of interest payable on deposits by financial institutions subject to Federal regulation. As a result of this action, many banks moved to convert outstanding time deposits to deposits earning interest at the new higher prescribed maximum rates. The massive conversion of outstanding deposits, accomplished in many instances by extensions of maturity, created severe upward pressure on the cost of funds and threatened substantial disintermediation among depository institutions. As a result of this general credit situation, the Board acted to eliminate the conversion privilege by adopting the current provision contained in § 217.4(d) of Regulation Q.

The Board believes that the pressures on the general credit situation that necessitated the adoption of the conversion penalty rule in 1973 have now been substantially moderated. Accordingly, the Board believes that it is appropriate to restore to member banks the option of extending the maturity of outstanding time deposits without imposition of the early withdrawal penalty. The amendment adopted today permits member banks, at the request or upon permission of the depositor, to extend the maturity of an outstanding time deposit without the usually required penalty as long as the rate of interest paid on the time deposit is not increased. Under the provision, any amendment of a time deposit contract that results in a reduction in the maturity of the deposit will continue to be treated as a payment of the time deposit before maturity. The Board notes that this action conforms the Board's regulation with the provision contained in § 329.4(e) of the FDIC's regulations and will, in certain circumstances, enable member banks to consolidate multiple outstanding certificates of deposit held by one customer. In addition, pursuant to longstanding Board policy, in the situation in which a member bank agrees to extend the maturity of an outstanding time deposit subsequent to a reduction in the maximum prescribed rate of interest payable on such time deposit, the rate of interest that may be paid on the time deposit from the date of conversion must not exceed the maximum rate permitted under the new rate schedule.

In view of the substantial public benefits that will immediately result from the adoption of this amendment, which

relieves an existing regulatory restriction and permits member banks to extend the maturity of an outstanding time deposit, the Board has determined that notice and public participation with respect to this amendment are unnecessary and contrary to the public interest. Therefore, pursuant to section 19(j) of the Federal Reserve Act (12 U.S.C. 371b), the fourth sentence of § 217.4(d) of Regulation Q (12 C.F.R. Part 217), effective December 1, 1977, is amended to read as follows:

§ 217.4 Payment of time deposits before maturity.

(d) *Penalty for early withdrawals.*
* * * Any amendment of a time deposit contract that results in an increase in the rate of interest paid or in a reduction in the maturity of the deposit constitutes a payment of the time deposit before maturity. * * *

Board of Governors of the Federal Reserve System, October 31, 1977.

THEODORE E. ALLISON,
Secretary of the Board.

[Reg. Q; Docket No. R-0126]

PART 217—INTEREST ON DEPOSITS

Payment of Time Deposits Before Maturity

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Final rule.

SUMMARY: This rule amends the provision concerning the payment of time deposits before maturity in the event of the death of any person whose name appears on the time deposit passbook or certificate, is permitted to pay such time deposit before maturity without imposition of the usual early withdrawal interest forfeiture penalty. Under the regulation as amended, member banks will be permitted to pay a time deposit without imposition of the early withdrawal interest forfeiture penalty upon the death of any owner of the time deposit funds regardless of whether such person is named on the deposit instrument.

EFFECTIVE DATE: December 1, 1977.

FOR FURTHER INFORMATION CONTACT:

Allen L. Raiken, Assistant General Counsel, Legal Division, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, 202-452-3625.

SUPPLEMENTARY INFORMATION: Effective June 5, 1975, the Board amended § 217.4(d) of Regulation Q to permit member banks to pay a time deposit prior to maturity without imposition of the normal early withdrawal pen-

ality upon the death of any person whose name appears on the deposit instrument.¹ The amendment was adopted to facilitate the administration and settlement of estates. In adopting the amendment, the Board determined that for matters of administrative convenience the amendment should be limited to those instances involving the death of persons named on the deposit instrument. The Board believed that such a limited exception would minimize potential problems associated with determining true ownership of deposits. However, since adoption of this exception, the Board has received a number of requests that it amend its current death exception to include any owner whether or not named on the deposit instrument. Those requesting this change note that similar exceptions adopted by the Federal Deposit Insurance Corporation ("FDIC") and the Federal Home Loan Bank Board ("FHLBB") are applicable upon the death of any owner of a time deposit and urge the Board to amend its rule in order to permit uniform application of the death exception rule. Moreover, the Board has considered the experience of both the FDIC and the FHLBB under their broader exceptions, and has determined that the potential confusion and added administrative burden anticipated if the death exception were not limited to individuals named on the deposit instrument have not posed a substantial problem. Accordingly, the Board believes that it is appropriate to amend its death exception rule to permit member banks to pay a time deposit prior to maturity without imposition of the early withdrawal penalty upon the death of any owner of the time deposit, whether or not named on the deposit instrument. The Board believes that this amendment, which will liberalize the Board's death exception, will more fully effectuate the intent of the original rule to facilitate the administration of estates and will not increase the administrative burden on member banks in determining the owner of a time deposit instrument.

In view of the substantial public benefits that will immediately result from adoption of the amendment, which relieves an existing regulatory restriction and broadens the present Board rule regarding penalty-free payment of a time deposit prior to maturity in the event of a depositor's death, and in view of the extensive comments received at the time the present rule was adopted in June 1975, the Board has determined that notice and public participation with respect to this amendment are unnecessary and contrary to the public interest. Therefore, pursuant to section 19(j) of the Federal Reserve Act (12 U.S.C. 371b), effective December 1, 1977, § 217.4(d)

¹ Section 217.4(d) of Regulation Q provides that where a time deposit, or any portion thereof, is paid before maturity, a member bank must assess an interest forfeiture penalty equivalent to a reduction of the rate of interest paid on the amount withdrawn to a rate not to exceed the rate prescribed for a savings deposit plus forfeiture of three months interest payable at such rate.

(1) of Regulation Q (12 CFR Part 217) is amended to read as follows:

§ 217.4 Payment of time deposits before maturity.

- (d) *Penalty for early withdrawals.* (1) Where a member bank pays all or a portion of a time deposit upon the death of any owner of the time deposit funds;^{11a}

Board of Governors of the Federal Reserve System, October 31, 1977.

THEODORE E. ALLISON,
Secretary of the Board.

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 15130, Amdt. 39-3072]

PART 39—AIRWORTHINESS DIRECTIVES

Hawker Siddeley Aviation, Ltd., Model H.S. 748 Series 2A Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This Amendment adopts a new airworthiness directive (AD) which requires installation of an electrical back-up to the primary manual feathering system on Hawker Siddeley Aviation, Ltd., Model H.S. 748 Series 2A airplanes. The AD is prompted by reports of non-contained engine failures which could result in inflight engine fires that are worsened by windmilling propellers.

DATE: Effective December 7, 1977. Compliance required within the next 300 hours time in service after the effective date of this AD, unless already accomplished.

ADDRESSES: The applicable service bulletin may be obtained from Hawker Siddeley Aviation, Ltd., Hatfield Hertfordshire, England AL109TL, Attn: Technical Manuals Distribution Center. A copy of the service bulletin is contained in the Rules Docket, Room 916, 800 Independence Avenue SW., Washington, D.C. 20591.

FOR FURTHER INFORMATION CONTACT:

Mr. D. C. Jacobsen, Chief, Aircraft Certification Staff, AEU-100, Europe, Africa, and Middle East Region, Federal Aviation Administration, c/o American Embassy, Brussels, Belgium, telephone: 512.38.30.

SUPPLEMENTARY INFORMATION: A proposal to amend Part 39 of the Fed-

^{11a} For the purposes of this provision, an "owner" of time deposit funds is any individual who at the time of his or her death has full legal and beneficial title to all or a portion of such funds or, at the time of his or her death, has beneficial title to all or a portion of such funds and full power of disposition and alienation with respect thereto.

eral Aviation Regulations to include an airworthiness directive requiring installation of an electrical back-up system to the manual propeller feathering system on Hawker Siddeley Aviation, Ltd., Model H.S. 748, Series 2A airplanes was published in the FEDERAL REGISTER at 40 FR 51202. The proposal was prompted by reports of noncontained engine failures which could result in in-flight engine fires and disrupt mechanical feathering controls. The British CAA advises that there have been no reports of engine overspeeding in this situation; however, an inability to feather causes a windmilling propeller which worsens the fire condition.

Interested persons have been afforded an opportunity to participate in the making of the amendment. Although no objections were received, the FAA has re-evaluated the need for the proposed amendment and determined that it should be adopted.

The principal authors of this document are R. E. Follensbee, Europe, Africa, and Middle East Region, F. H. Kelley, Flight Standards Service, and P. Lynch, Office of the Chief Counsel.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of the Federal Aviation Regulations (14 CFR 39.13) is amended by adding the following airworthiness directive:

HAWKER SIDDELEY AVIATION, LIMITED. Applies to Hawker Siddeley Aviation Limited H.S. 748 Series 2A airplanes certificated in all categories.

Compliance is required within the next 300 hours time in service after the effective date of this AD, unless already accomplished.

To prevent failure of propeller feathering, install an electrical back-up to the primary manual feathering system in accordance with the instructions continued in Hawker Siddeley Aviation Service Bulletin No. 61/18, Modification 4609, as revised April 11, 1974, or an equivalent approved by the Chief, Aircraft Certification Staff, AEU-100, Europe, Africa, and Middle East Region, FAA, c/o American Embassy, APO New York, N.Y. 09667.

This amendment becomes effective December 7, 1977.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, as amended, (49 U.S.C. 1354(a), 1421, 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); 14 CFR 11.39.)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Washington, D.C., on October 28, 1977.

J. A. FERRARESE,
Acting Director,
Flight Standards Service.

[4910-13]

[Airspace Docket No. 77-WE-23]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS**Designation of Transition Area; Ukiah, Calif.**

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment designates a 700-foot transition area at Ukiah, California, to provide protection for aircraft executing a new instrument approach procedure (RNAV-B) to the Ukiah Municipal Airport.

EFFECTIVE DATE: December 1, 1977.

ADDRESSES: Copies of this final rule may be obtained from: Federal Aviation Administration, Air Traffic Division, Chief, Airspace and Procedures Branch, 15000 Aviation Blvd., Lawndale, Calif. 90261.

FOR FURTHER INFORMATION CONTACT:

Thomas W. Binczak, Airspace and Procedures Branch, Air Traffic Division, Federal Aviation Administration, 15000 Aviation Blvd., Lawndale, Calif. 90261, telephone 213-536-6182.

SUPPLEMENTARY INFORMATION: The purpose of this amendment to Subpart G of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) is to designate a 700-foot transition area at Ukiah, California.

On September 8, 1977, a Notice of Proposed Rulemaking (NPRM) was published in the FEDERAL REGISTER (42 FR 45008) stating that the Federal Aviation Administration proposed to designate a 700-foot transition area at Ukiah, California, to provide controlled airspace for aircraft executing the RNAV-B instrument approach procedure to the Ukiah Municipal Airport.

Interested persons were afforded an opportunity to participate in the rule-making through submission of comments. All comments received were favorable.

DRAFTING INFORMATION

The principal authors of this document are Thomas W. Binczak, Air Traffic Division and DeWitte T. Lawson, Jr. Esquire, Regional Counsel.

ADOPTION OF THE AMENDMENT

Accordingly, pursuant to the authority delegated to me by the Administrator, Subpart G of Part 71 of the Federal Aviation

Regulations (14 CFR Part 71) is amended, effective 0901 GMT, December 1, 1977.

1. By amending 71.181 (42 FR 440) of Part 71 of the Federal Aviation Regulations by adding a 700-foot transition area as follows:

UKIAH, CALIFORNIA

That airspace extending upward from 700 feet above the surface within a five-mile radius of the Ukiah Municipal Airport (latitude 39°07'36" N., longitude 123°12'00" W.)

(Sec. 307(a) of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1348(a)) and Sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Los Angeles, California on October 20, 1977.

M. C. BEARD,
Acting Director, Western Region.

[4910-13]

[Docket No. 17332; Amdt. No. 95-275]

SUBCHAPTER F—AIR TRAFFIC AND GENERAL OPERATING RULES**PART 95—IFR ALTITUDES****Miscellaneous Amendments**

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts miscellaneous amendments to the required IFR (instrument flight rule) altitudes and changeover points for certain Federal airways, jet routes, or direct routes for which a minimum or maximum en route authorized IFR altitude is prescribed. These regulatory actions are needed because of changes occurring in the National Airspace System. These changes are designed to provide for the safe and efficient use of the navigable airspace under instrument conditions in the affected areas.

EFFECTIVE DATE: December 1, 1977.

FOR FURTHER INFORMATION CONTACT:

William L. Bersch, Flight Procedures and Airspace Branch (AFS-730), Aircraft Programs Division, Flight Standards Service, Federal Aviation Administration, 800 Independence Avenue SW., Washington, D.C. 20591, telephone 202-426-8277.

SUPPLEMENTARY INFORMATION: This amendment to Part 95 of the Federal Aviation Regulations (14 CFR Part 95) prescribe new, amended, suspended, or revoked IFR altitudes governing the operation of all aircraft in IFR flight over a specified route or any portion of that route, as well as the changeover points (COPs) for Federal airways, jet routes, or direct routes as prescribed in Part 95. The specified IFR altitudes, when used in conjunction with the prescribed changeover points for those routes, ensure navigation aid coverage that is adequate for safe flight operations and free of frequency interference.

The reasons and circumstances which create the need for this amendment involve matters of flight safety, operational efficiency in the National Airspace System, and are related to published aeronautical charts that are essential to the user and provides for the safe and efficient use of the navigable airspace. In addition, those various reasons or circumstances require making this amendment effective before the next scheduled charting and publication date of the flight information to assure its timely availability to the user. The effective date of this amendment reflects those considerations. In view of the close and immediate relationship between these regulatory changes and safety in air commerce, I find that notice and public procedure before adopting this amendment is unnecessary, impracticable, or contrary to the public interest and that good cause exists for making the amendment effective in less than 30 days.

The principal authors of this document are Rudolph L. Fioretti, Flight Standards Service, and Richard W. Danforth, Office of the Chief Counsel.

ADOPTION OF THE AMENDMENT

Accordingly and pursuant to the authority delegated to me by the Administrator, Part 95 of the Federal Aviation Regulations (14 CFR Part 95) is amended as follows effective: December 1, 1977.

(Secs. 307, 1110, Federal Aviation Act of 1958 (49 U.S.C. 1348 and 1510); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655 (c)); 25 FR 6489 and Paragraph 802 of Order FSP 1100.1, as amended March 9, 1973.)

NOTE.—The Federal Aviation Administration has determined that this amendment does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Washington, D.C., on October 28, 1977.

JAMES M. VINES,
Chief, Aircraft Programs Division.

Title 16—Commercial Practices

CHAPTER II—CONSUMER PRODUCT SAFETY COMMISSION

SUBCHAPTER D—FLAMMABLE FABRICS ACT REGULATIONS

PART 1607—PROCEDURES FOR THE DEVELOPMENT OF FLAMMABILITY STANDARDS

Revision of Regulations

AGENCY: Consumer Product Safety Commission.

ACTION: Revision of regulations.

SUMMARY: The Commission hereby revises its regulations concerning the development of flammability standards to provide for oral presentations in accordance with the amendments in the Consumer Product Safety Commission Improvements Act of 1976. The notice also corrects the address for the Commission's Office of the Secretary.

DATES: The revisions are effective immediately.

FOR FURTHER INFORMATION CONTACT:

Philip Bechtel, Office of the General Counsel, Consumer Product Safety Commission, Washington, D.C. 20207, 202-634-7770.

SUPPLEMENTARY INFORMATION: The Consumer Product Safety Commission Improvements Act of 1976 (Pub. L. 94-284; 90 Stat. 503) amended subsection (d) of section 4 of the Flammable Fabrics Act (15 U.S.C. 1193(d)) to provide interested persons an opportunity for the oral presentation of data, views, or arguments in proceedings to establish flammability standards, regulations or amendments thereto. This notice revises the Commission's regulations, concerning procedures for the development of flammability standards, 16 CFR Part 1607, to reflect this statutory amendment. This notice also corrects the address for the Commission's Office of the Secretary which is given in Part 1607. Since these revisions apply to rules of agency procedure or practice, the notice and public procedure provisions of the Administrative Procedure Act (5 U.S.C. 553) are inapplicable. In addition, as a result of the need to conform the regulations to the statutory amendments, the Commission, for good cause, finds that the revisions should be effective immediately.

AMENDMENT

Accordingly, under the provisions of section 4(d) of the Flammable Fabrics Act (15 U.S.C. 1193(d)), as amended by section 20 of the Consumer Product Safety Commission Improvements Act of 1976, Pub. L. 94-284, 90 Stat. 515, the Commission hereby amends Title 16, Chapter II, Subchapter D, of the Code of Federal Regulations by amending Part 1607 as follows:

1. Section 1607.4 is revised to read as follows:

§ 1607.4 Records of proceedings.

Records of the Commission relating to rulemaking proceedings are available for

public inspection and copying in accordance with 5 U.S.C. 552 or other applicable laws or regulations, including the Commission's procedures for disclosure or production of information under the Freedom of Information Act, 16 CFR Part 1015. Such records may be obtained at the Office of the Secretary, Consumer Product Safety Commission, Third Floor, 1111 18th Street NW., Washington, D.C. 20207.

2. In § 1607.9, paragraph (b) is revised to read as follows:

§ 1607.9 Participation of interested persons in rulemaking proceedings.

(b) The Commission may solicit comments from local, State, and Federal agencies and shall give interested persons an opportunity for an oral presentation of data, views, and arguments, as provided in 5 U.S.C. 553 and 15 U.S.C. 1193(d), to assure development of an appropriate standard and to protect the public interest.

3. In § 1607.10, paragraph (a) is revised to read as follows:

§ 1607.10 Informal public oral hearings.

(a) The Commission shall include in the notice of proposed flammability standard, published in the FEDERAL REGISTER under § 1607.6 of this chapter, an invitation to interested persons to participate in an informal oral presentation under 5 U.S.C. 553 and 15 U.S.C. 1193(d). These oral presentations shall be conducted in accordance with the Commission's procedural regulations for oral presentations at 16 CFR Part 1109.

4. In § 1607.14 paragraph (b) (1) is corrected as follows:

§ 1607.14 Petition for rulemaking.

(b) Each petition filed under this section shall:

(1) Be submitted, preferably in five copies, to the Consumer Product Safety Commission, Office of the Secretary, Washington, D.C. 20207.

Effective date. These revisions become effective November 7, 1977.

Dated: November 2, 1977.

SADYE E. DUNN,
Deputy Secretary, Consumer
Product Safety Commission.

Title 33—Navigation and Navigable Waters

CHAPTER II—CORPS OF ENGINEERS, DEPARTMENT OF THE ARMY

PART 207—NAVIGATION REGULATIONS

Correction—Transfer of Certain Navigation Regulations to the Coast Guard

AGENCY: U.S. Army Corps of Engineers, DOD.

ACTION: Correction.

SUMMARY: The Corps of Engineers and U.S. Coast Guard published regulations in the FEDERAL REGISTER on September 29, 1977 (42 FR 51773) transferring certain navigation regulations to the Coast Guard. Several omissions were made in those documents which are hereby corrected and clarified.

EFFECTIVE DATE: November 7, 1977.

FOR FURTHER INFORMATION CONTACT:

Mr. Ralph T. Eppard, 202-693-5070, or write: Office of the Chief of Engineers, Forrestal Building, Washington, D.C. 20314. Attn: DAEN-CWO-N.

SUPPLEMENTARY INFORMATION:

Those regulations being transferred to the Coast Guard are listed below with the corresponding Coast Guard section numbers. The following paragraphs have been purposely excluded from the list of regulations transferred, even though they are shown on the list published by the Coast Guard on September 29, 1977, because they define geographical areas within the regulations. Accordingly, these paragraphs will remain in 33 CFR Part 207 and will be duplicated in 33 CFR Part 162.

Secs.

CHAPTER I—FEDERAL
COMMUNICATIONS COMMISSION

[Docket No. 21343; RM-2782]

PART 73—RADIO BROADCAST SERVICES

Television Broadcast Stations in Anchorage and Seward, Alaska; Changes Made in Table of Assignments

AGENCY: Federal Communications Commission.

See footnotes at end of article.

ACTION: Report and Order.

SUMMARY: FCC assigns Channel 4 to Anchorage, Alaska, and substitutes TV Channel 3 for the existing Channel 4 assignment in Seward, Alaska. This action brings a fourth commercial television station to Anchorage and results from a petition filed by Consolidated Amusement Co., Ltd.

EFFECTIVE DATE: December 9, 1977.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

Freda Lippert Thyden, Broadcast Bureau, 202-632-7792.

SUPPLEMENTARY INFORMATION: In the matter of amendment of § 73.606(b), Table of Assignments, Television Broadcast Stations (Anchorage and Seward, Alaska); report and order proceeding terminated (42 FR 38195).

Adopted: October 24, 1977.

Released: October 28, 1977.

By the Chief, Broadcast Bureau: 1. The Commission has before it the Notice of Proposed Rule Making adopted July 15, 1977, 42 FR 38195, inviting comments on a proposal to assign TV Channel 4 to Anchorage, Alaska, and to substitute Channel 3 for the existing Channel 4 assignment in Seward, Alaska.¹ The proceeding was instituted on the basis of a petition filed by Consolidated Amusement Co., Ltd. ("Consolidated"). Sup-

porting comments were filed by petitioner and an opposition was submitted by James R. Hendershot ("Hendershot"). Consolidated also filed a reply pleading in this proceeding.

2. As was stated in the Notice of Proposed Rule Making and emphasized by petitioner in its comments, Anchorage (pop. 48,081; census division pop. 126,385),² has emerged as the population center of Alaska (pop. 302,173). Yet, it has only four television channels assigned, all of which are occupied—three are commercial operations³ and one is an educational station.⁴ In contrast, petitioner notes that Fairbanks (pop. 14,771; census division pop. 45,864) which is a much smaller city, not only has more channels assigned to it (five commercial and one educational), but three of those channels are unoccupied. Consolidated reiterates its call for a more equitable distribution of television channels among the Alaskan communities and asserts that the assignment of Channel 4 to Anchorage will partially redress this imbalance in assignments. Although a change in the Channel 4 assignment at Seward would be required, as indicated in the Notice, Seward would not be deprived of its complement of assigned channels as Channel 3 could be assigned to Seward in lieu of Channel 4. And, as previously stated, the instant proposal would facilitate the potential use of Channel 4 at Kodiak, Alaska, in that it would afford greater flexibility in the choice of transmitter site.

3. Petitioner originally indicated its desire to use Channel 4, if assigned, for subscription television ("STV") purposes. In the Notice, we raised a number of questions in this regard since Anchorage has only three commercial broadcast stations operating at present, and § 73.642(a)(3) of the Commission's Rules⁵ requires that there be four such stations operating before an STV authorization may be granted. Thus, if Channel 4 were assigned to Anchorage, the petitioner would have to seek a waiver of that rule to use the assigned channel for STV. Therefore, petitioner was asked whether it would be interested in operating a conventional commercial broadcast television station if its request for waiver of Rule 73.642(a)(3) were not granted. In answer to this question, Consolidated clearly indicated, in both its comments and reply pleading that in the event it does not receive STV authority, it will construct an operate a conventional television station in Anchorage. In view of this response, the other questions relating to STV raised in the Notice, are moot. So, too, is the argument made by James R. Hendershot, in opposition to the assignment proposed in the Notice, that it is unnecessary and improper to grant the proposed assignment solely to accommodate the use of the channel for STV purposes when that is inconsistent with the Commission's rules. Since Consolidated has indicated that it would use the channel for a conventional station, Hendershot's position, as noted in petitioner's reply,⁶ is not an obstacle to the proposed assignment.

4. As indicated in the Notice, the proposed assignment and substitution meets

the Commission's separation requirements and other technical criteria. Any preclusion resulting from the assignment of Channel 4 to Anchorage would be minimal. As to the assignment of Channel 3 at Seward, other channels remain available for assignment to the communities in the precluded areas. Although Seward's Channel 4 is presently occupied by a VHF television broadcast translator station, KO4HC, this is no impediment to assigning Channel 4 to Anchorage as translator stations are licensed subject to the Commission's rules which indicates they are not afforded protection against full-fledged television broadcast stations.¹ Further, we note that no objection was made to assigning Channel 4 to Anchorage on this basis. In order to notify the translator station of the substitution of channels at Seward,² we are sending it a copy of this Report and Order by certified mail.

5. We believe that the public interest would be served by the assignment of Channel 4 to Anchorage, Alaska, and the substitution of Channel 3 for the existing Channel 4 assignment in Seward, Alaska. In view of Anchorage's substantial growth in the last few decades and the likelihood of this continuing as well as the fact that all of Anchorage's present television allocations are being utilized, it is appropriate to assign another television channel to this city. As to Seward, it will still have two allocations and thus in no way is harmed. Nor has any objection been made in this regard.

6. In view of the foregoing and pursuant to authority contained in Sections 4(i), 5(d)(1), 303 (g) and (r) and 307 (b) of the Communications Act of 1934, as amended, and Section 0.281 of the Commission's Rules, *It is ordered*, That effective December 9, 1977, the Television Table of Assignments contained in § 73.606(b) of the Commission's Rules and Regulations is amended with respect to the following cities as follows:

City:	Channel No.
Anchorage, Alaska.....	2-, 4-, *7-, 11, 13-
Seward, Alaska.....	3-, 9-

7. *It is further ordered*, That the Secretary of the Commission is directed to send a copy of this Report and Order by certified mail, return receipt requested, to Central Alaska Broadcasting, Inc., Station KO4HC, 3910 Seward Highway, Anchorage, Alaska 99502.

8. *It is further ordered*, That this proceeding is terminated.

(Secs. 4, 5, 303, 48 Stat., as amended, 1066, 1068, 1082; 47 U.S.C. 154, 155, 303.)

FEDERAL COMMUNICATIONS
COMMISSION,
WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

FOOTNOTES

¹ Since Seward and Anchorage are only 124 kilometers (77 miles) from each other instead of the required separation of 306 kilometers (190 miles) the same television channel cannot be assigned to both communities.

² All population figures are taken from the 1970 U.S. Census, with census divisions being the equivalent of counties.

³ The commercial stations are KENI-TV on Channel 2, KTVA on Channel 11 and KIMO on Channel 13.

⁴ The educational station is KAKM on Channel *7.

⁵ Rule 73.642(a)(3) provides that an authorization to use a channel for subscription television service * * * will be issued only for a station the principal community of which is located entirely within the Grade A contours of five or more commercial television broadcast stations (including the station of the applicant), whether the principal community each station is authorized to serve is the same as that of the applicant, or is a nearby community. Only one such authorization will be granted in any community. No such authorization will be granted unless, not counting the station of the applicant, at least four of the stations which include the community of the applicant within their Grade A contours are operating nonsubscription stations.

⁶ According to petitioner, Hendershot is the holder of a Multipoint Distribution Service ("MDS") authorization for Anchorage and seeks to avoid competition by preventing the establishment of any new television station in the city. MDS operates as an over-the-air microwave transmission medium which can carry data communications, conversations or video signals.

⁷ Rule 74.702(c)(3) provides that changes in the Television Table of Assignments may be made without regard to existing television broadcast translator stations; and where such changes affect VHF channels, existing VHF television broadcast translator stations causing interference to reception of VHF broadcast channels shall eliminate the interference or file an application for a change in channel assignment.

⁸ Unless interference develops, no change in the translator station will be required since low power VHF translators, such as Station KO4HC, are not required to operate on assigned channels. See Rules 74.702 and 74.735.

[Docket No. 21240; RM-2833; FCC 77-734]

PART 83—STATIONS ON SHIPBOARD IN THE MARITIME SERVICES

Equipment Required for Ship Radio Stations Operating on Frequencies in the 1605-3500 kHz Band

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: The order will amend a section of Part 83 of the rules concerning ship radio equipment so that stations on ships operating only on the Mississippi River and its connecting inland waterways may be equipped with more high frequencies in the bands above 3500 kHz, instead of lower frequencies that may not be needed.

EFFECTIVE DATE: December 12, 1977.

ADDRESSES: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

Sherman W. Pratt, Safety and Special Radio Services Bureau, 202-632-7197.

SUPPLEMENTARY INFORMATION: In the matter of amendment of Part 83 of the rules concerning equipment required for ship radio stations operating on frequencies in the 1605-3500 kHz band; Report and Order; Proceeding Terminated (42 FR 25879).

Adopted: October 27, 1977.

Released: November 3, 1977.

By the Commission: 1. On May 18, 1977, we released a Notice of Proposed Rule Making in this Docket (42 FR 25879, May 20, 1977). That notice proposed to amend Section 83.106 concerning ship radio station equipment so that stations on board vessel operating exclusively on the Mississippi River and its connecting waterways may be equipped with only one working frequency instead of two in the 1605-3500 kHz band, provided they also operate on high frequencies above 3500 kHz. The notice provided for the filing of comments, the time for which has expired.

2. The subject rule change was proposed by WJG, Inc., which operates a public coast station at Memphis, Tennessee. WJG asserted as set forth in more detail in our NPRM, that many ship stations are equipped with six channel radios; they are operated mostly on high frequencies and that the change would permit, in essence, the use of an additional high frequency channel.

3. AMCOM, Inc., filed a comment stating it agrees the rule change will serve the public interest and no comments in opposition were filed. We find, based on the information contained in the Notice of Proposed Rule Making and set forth herein, that the public interest would be served by the rule changes proposed.

4. Accordingly, *it is ordered*, Pursuant to authority contained in Sections 4(i) and 303(r) of the Communications Act of 1934, as amended, that the Commission's rules are amended, as set below, effective December 12, 1977.

5. *It is further ordered*, That this proceeding is terminated.

(Secs. 4, 303, 48 Stat., as 1066, 1082; 47 U.S.C. 154, 303.)

FEDERAL COMMUNICATIONS
COMMISSION,
WILLIAM J. TRICARICO,
Acting Secretary.

Part 83 of Chapter I of Title 47 of the Code of Federal Regulations is amended as follows:

The footnotes (1 through 4) in § 83.106 are deleted, and paragraph (a) is amended to read as follows:

§ 83.106 Required frequencies for radiotelephony.

(a) Each ship radiotelephone station licensed to operate in the band 1605 to 3500 kHz shall be able to receive and transmit the emission A3H on the carrier frequency 2182 kHz, and, if the station is used for other than safety communications, it shall be capable also of receiving and transmitting the emission A3A and A3J on at least two other frequencies in that band; Provided, however, that for ship stations on vessels operating (1) exclusively on the Mississippi River and its connecting waterways, and (2) also on high frequency bands above 3500 kHz, such stations may be equipped with only one, instead of two, other frequencies within the band 1605-3500 kHz in addition to the frequency 2182 kHz.

PART 91—INDUSTRIAL RADIO SERVICES

Assigning Frequencies in the Business Radio Service in the Houston, Texas, Metropolitan Area in the 470-512 MHz Band; Correction

AGENCY: Federal Communications Commission.

ACTION: Errata to Order.

SUMMARY: In the Order adopted September 30 and released October 3, 1977, designating a new starting point for assigning frequencies in the Business Radio Service in the Houston, Texas in the 470-512 MHz band the effective date was incorrectly given as October 17, 1977. The correct date is November 10, 1977.

EFFECTIVE DATE: November 10, 1977.

ADDRESSES: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

A. C. King, Safety and Special Radio Services Bureau, Industrial and Public Safety Rules Division, 202-632-6497.

In the matter of The designation of 489.6625 MHz as a new starting point for assigning frequencies in the Business Radio Service in the Houston, Texas, metropolitan area in the 470-512 MHz band; ERRATA (42 FR 54827).

Adopted: October 31, 1977.

Released: November 2, 1977.

By the Chief, Safety and Special Radio Services Bureau: 1. In the Order adopted on September 30, 1977, and released on October 3, 1977, in the above-captioned matter, the effective date was incorrectly given as October 17, 1977. The correct effective date is November 10, 1977.

CHARLES A. HIGGINBOTHAM,
Chief, Safety and Special
Radio Services Bureau.

Title 49—Transportation**CHAPTER I—MATERIALS TRANSPORTATION BUREAU, DEPARTMENT OF TRANSPORTATION**

[Docket No. HM-139; Amdt. Nos. 172-38, 173-110, 176-3]

PACKAGING AND SHIPPING**Conversions of Individual Exemptions To Regulations of General Applicability**

AGENCY: Materials Transportation Bureau, DOT.

ACTION: Final rule.

SUMMARY: This action is being taken to incorporate into the Department's Hazardous Materials Regulations a number of changes based on the data and analysis supplied in selected exemption applications, or from existing special permits and exemptions. The need for this action has been created by the public demand to make available new pack-

aging and shipping alternatives that have proven themselves safe under the Department's special permit and exemption programs. The intended effect of these amendments is to provide wider access to the benefits of transportation innovations recognized and shown to be effective and safe.

EFFECTIVE DATE: November 7, 1977.

FOR FURTHER INFORMATION CONTACT:

Alan I. Roberts, Director, Office of Hazardous Materials Operations, 2100 2nd Street, SW., Washington, D.C. 20590, 202-426-0656.

SUPPLEMENTARY INFORMATION: On August 8, 1977, the Materials Transportation Bureau (MTB) published a Notice of Proposed Rule Making, Docket HM-139; Notice 77-7 (42 FR 40003) which proposed these amendments. The background and the basis for incorporating these exemptions into the regulations were discussed in that notice. Interested persons were invited to give their views prior to the closing date of September 6, 1977. Primary drafters of this document are Darrell L. Raines and John C. Allen of the Office of Hazardous Materials Operations, Exemptions Branch, and George W. Tenley, Jr. of the Office of the Assistant General Counsel for Materials Transportation Law.

One commenter requested a change in the location and wording of the proposed change to § 176.800(a). The proposed change to that section is based on DOT-E 7782 which authorizes an exception to the segregation requirements for corrosive materials on cargo vessels when the corrosive materials are packaged in limited quantities and further packed in freight containers or transport vehicles. The commenter argues that such an exception to segregation requirements was authorized for all hazardous materials shipped by water prior to the consolidation of the hazardous materials regulations under Docket HM-103/112. Therefore, it is argued that this exception from segregation requirements should not be limited to corrosive materials shipped by water. Commenter suggests the amendment of § 176.80(b) to accommodate this. Based on a further evaluation of the proposed change and upon recommendations from the U.S. Coast Guard, the Bureau agrees with the commenter.

The amendment has been changed to § 176.80(b) to allow a general exception from the segregation requirements when any hazardous material is shipped by cargo vessel and the materials are packaged in limited quantities and further packed inside freight containers or highway vehicles.

Several changes from Notice 77-7 were initiated by the Bureau. The proposed amendment to § 173.65(a) failed to include the requirement for a 0.003-inch thick polyethylene liner to be inside the 17H and 37A drums for shipments of ammonium perchlorate. A sentence has been added requiring such a liner in the amendment to § 173.65(a).

The amendment to § 173.154(a) (4) includes authorization for certain tank motor vehicles to be used for certain

oxidizers. However, the notice of proposed rule making failed to include the stipulation that only the MC 304 and MC 307 tank motor vehicles are authorized for carriage of these commodities by cargo vessel and this provision has been incorporated into the amendment to that paragraph.

An error was published in Notice 77-7 concerning the proposed amendment to eliminate DOT-E 6682 to authorize shipments of lithium metal foil in DOT-21C fiber drums. The notice cited the regulation affected to be § 173.308(a). The actual regulation affected and amended by this rule making is § 173.206(a) (13).

In addition to the substantive changes discussed above, an editorial change has been made to paragraph (b) of § 176.80 to delete the reference to ORM-D materials. That reference is not necessary in light of the same provision in § 176.11(e).

Analysis of these amendments and comments thereon indicate that the costs of regulatory enforcement will not be significantly affected, nor will additional costs be imposed on the private sector, consumers, or Federal, State or local governments, since these amendments will authorize the general use of shipping alternatives previously available to only a few users under the exemptions. The safety record or analysis of shipments under the exemptions identified in Notice 77-7 demonstrate that significant environmental impacts will not result from any of these amendments. Since these amendments are relaxations of existing rules, and place no additional burden on any person, they are being made effective in less than 30 days after publication in the FEDERAL REGISTER.

In consideration of the foregoing, 49 CFR Parts 172, 173 and 176 are amended as follows:

PART 172—HAZARDOUS MATERIALS TABLE AND HAZARDOUS MATERIALS COMMUNICATIONS REGULATIONS

1. § 172.100 paragraph (g) (3) is revised to read as follows:

§ 172.100 Purpose and use of the table.

(g) * * *

(3) For flammable liquids, the net quantity limitation for carriage aboard a passenger-carrying aircraft or railcar is one gallon per package, and for cargo-only aircraft is 55 gallons per package, if:

- (i) The material has a flash point of 73° F. or higher;
- (ii) The material does not meet the definition of any other hazard class as defined in this part, and
- (iii) The flash point, or an indication that the flash point is 73° F. or higher, is marked on the outside package.

* * *

§ 172.101 [Amended]

2. In § 172.101 the Hazardous Materials Table is amended by adding, in alphabetical sequence, entries for Ammunition for cannon with tear gas projectiles, Class A and B, to read as follows:

(1) *U/A	(2) Hazardous materials descriptions and proper shipping names	(3) Hazard class	(4) Label(s) required (if not excepted)	(5) Packaging		(6) Maximum net quantity in one package		(7) Water shipments		
				(a) Exceptions	(b) Specific requirements	(a) Passenger carrying aircraft or rail car	(b) Cargo only aircraft	(a) Cargo vessel	(b) Passenger vessel	(c) Other requirements
(Add)	Ammunition for cannon with tear gas projectile	Class A Explosive	Explosive A	None	173.54	Forbidden	Forbidden	6	5	
	Ammunition for cannon with tear gas projectile	Class B Explosive	Explosive B	None	173.89	Forbidden	Forbidden	1,2	5	

PART 173—SHIPPERS—GENERAL REQUIREMENTS FOR SHIPMENTS AND PACKAGINGS

3. In § 173.54 paragraphs (a) and (b) are revised to read as follows:

§ 173.54 Ammunition for cannon.

(a) Ammunition for cannon with explosive projectiles, gas projectiles, smoke projectiles, incendiary projectiles, illuminating projectiles, or tear gas projectiles must be packed and properly secured in strong wooden or metal containers, or in plastic containers of approved military specifications complying with § 173.7 (a).

(b) Each outside package must be plainly marked "AMMUNITION FOR CANNON WITH EXPLOSIVE PROJECTILES," "AMMUNITION FOR CANNON WITH GAS PROJECTILES," "AMMUNITION FOR CANNON WITH SMOKE PROJECTILES," "AMMUNITION FOR CANNON WITH INCENDIARY PROJECTILES," "AMMUNITION FOR CANNON WITH ILLUMINATING PROJECTILES," OR "AMMUNITION FOR CANNON WITH TEAR GAS PROJECTILES, CLASS A EXPLOSIVES," as appropriate.

4. In § 173.65 paragraph (a) (3) is added and paragraph (d) is revised to read as follows:

§ 173.65 High explosives with no liquid explosive ingredient nor any chlorate.

(a) * * *

(3) Specification 17H or 37A (§§ 178.118 and 178.131 of this subchapter). Metal drums (single-trip) having a

minimum 0.003-inch thick polyethylene liner. Authorized only for ammonium perchlorate with particle size of 5 to 15 microns. Maximum capacity is 30 gallons.

(d) The following materials may be shipped dry as drugs, n.o.s., or medicines, n.o.s., by rail freight or highway if the amount in one outside package does not exceed 4 ounces, and the materials are packed in securely closed bottles or jars that are cushioned to prevent breakage:

- (1) Ammonium picrate.
- (2) Dipicrylamine.
- (3) Dipicryl sulfide.
- (4) Dinitrophenylhydrazine.
- (5) Nitroguanidine.
- (6) Picramide.
- (7) Picric acid.
- (8) Picryl chloride.
- (9) Trinitroanisole.
- (10) Trinitrobenzene.
- (11) Trinitrobenzoic acid.
- (12) Trinitro-m-cresol.
- (13) Trinitronaphthalene.
- (14) Trinitroresorcinol.
- (15) Trinitrotoluene.
- (16) Urea nitrate.
- (17) Triaminotrinitrobenzene.
- (18) Trichlorotrinitrobenzene.
- (19) Hexanitrostilbene.

5. In § 173.89 the heading and paragraphs (a) and (b) are revised to read as follows:

§ 173.89 Ammunition for cannon with empty projectiles, inertloaded projectiles, solid projectiles, tear gas projectiles, or without projectiles.

(a) Ammunition for cannon with empty projectiles, inert-loaded projectiles, solid projectiles, tear gas projectiles, or without projectiles must be well packed and properly secured in strong wooden or metal containers, or in plastic containers of approved military specifications complying with § 173.7 (a).

(b) Each outside package must be plainly marked "AMMUNITION FOR CANNON WITH EMPTY PROJECTILES," "AMMUNITION FOR CANNON WITH INERT-LOADED PROJECTILES," "AMMUNITION FOR CANNON WITH SOLID PROJECTILES," "AMMUNITION FOR CANNON WITHOUT PROJECTILES," OR "AMMUNITION FOR CANNON WITH TEAR GAS PROJECTILES, CLASS B EXPLOSIVES," as appropriate.

6. In § 173.107 paragraph (d) (2) is added to read as follows:

§ 173.107 Primers, percussion caps, grenades, empty, primed, and cartridge cases, empty, primed.

(d) * * *

(2) Specification 12B (§ 178.205 of this subchapter). Fiberboard box. Caps must be packed in inside plastic cans containing not more than 100 caps each. Cans must then be packed in a chipboard box with not more than 8 such chipboard boxes packed tightly in the 12B fiberboard box. The completed package must be such that the explosion of part of the caps will not cause the explosion of all of the caps.

7. In § 173.119 paragraphs (m) (2) and (m) (8) are revised to read as follows:

§ 173.119 Flammable liquids not specifically provided for.

(m) * * *

(2) Specification 15A, 15B, 15C, 16A, or 19A (§§ 178.168, 178.169, 178.170, 178.185, and 178.190 of this subchapter). Wooden boxes with inside containers which must be glass, earthenware, or polyethylene, not over 1-gallon capacity each. Inside containers must be cushioned with noncombustible packaging material in sufficient quantity to absorb the contents of the inner container.

(8) Specification 12P (§ 178.211 of this subchapter). Fiberboard boxes with inside specification 2U (§ 178.24 of this subchapter) polyethylene containers not over 6-gallon capacity each. Authorized only for material which will not react dangerously with or cause decomposition of polyethylene. Not authorized for transportation by air.

8. In § 173.154 paragraphs (a) (3) and (a) (4) are added to read as follows:

§ 173.154 Flammable solids, organic peroxide solids and oxidizers not specifically provided for.

(a) * * *

(3) Specification 57 (§ 178.253 of this subchapter). Portable tanks. Tanks must have a fusible plug having a fusing temperature between 70° C and 90° C. Authorized only for dicumyl peroxide, dry and a, a'-bis(t-butylperoxy) diisopropylbenzene, solid.

(4) Specification MC 303, MC 304, MC 306, MC 307, MC 311 or MC 312 (§§ 178.341, 178.342, 178.343 of this subchapter). Tank motor vehicles. Tanks must comply with § 178.340-8. Discharge valves must be located inside the tank or at a point outside the tank where the line enters or leaves the tank. The valve seat must be located inside the tank or within the welded flange, its companion flange, nozzle, or coupling. Each product discharge opening shall have a secondary closing means, remote from tank filling or discharge openings, for operation in event of fire or other accident. Tanks may have heating coils if an inorganic heating medium is used. Authorized only for sodium perchlorate or magnesium perchlorate, wet, with 10 percent or more of water, equally distributed within the cargo tank. Only specification MC 304 and MC 307 are authorized for shipment by water.

9. In § 173.157, paragraph (b) (3) is revised to read as follows:

§ 173.157 Benzoyl peroxide, chlorobenzoyl peroxide (para), cyclohexanone peroxide, dimethylhexane dihydroperoxide, lauroyl peroxide, or succinic acid peroxide, wet.

(b) * * *

(3) Specification 12B (§ 178.205 of this subchapter). Fiberboard box with

securely closed inside plastic containers made of polyethylene film at least 0.004 inch thick. Net weight (dry weight) in each inside container may not exceed 10 pounds. Each inside container must be surrounded by asbestos or an equivalent fire-resistant cushioning material. Net weight (dry weight) in each outside box may not exceed 50 pounds.

10. In § 173.182 paragraph (c) (4) is revised to read as follows:

§ 173.182 Nitrates.

(c) * * *

(4) Specification 23G (§ 178.218 of this subchapter). Cylindrical fiberboard box. Maximum net weight not over 65 pounds.

11. In § 173.206 paragraph (a) (13) is added to read as follows:

§ 173.206 Sodium or potassium, metallic; sodium amide; sodium potassium alloys; sodium aluminum hydride; lithium metal; lithium silicon; lithium ferro silicon; lithium hydride; lithium borohydride; lithium aluminum hydride; lithium acetylide-ethylene diamine complex; aluminum hydride; cesium metal; rubidium metal; zirconium hydride, powdered.

(a) * * *

(13) Specification 21C (§ 178.224 of this subchapter). Fiber drums with inside hermetically sealed tin-coated steel cans with a minimum wall thickness of 0.015 inch. Not more than four spools made of non-sparking material may be packed in each inside container with not more than 2½ pounds net weight of product in each inside container. Each metal can shall be individually separated with double-faced corrugated partitions and noncombustible packaging material. Authorized only for lithium metal in ribbons.

12. In § 173.217 paragraph (a) (8) is added to read as follows:

§ 173.217 Calcium hypochlorite mixture, dry; lithium chlorite mixture, dry; mono-(trichloro) tetra-(monopotassium dichloro)-penta-s-triazinetri- one, dry; potassium dichloro-s-triazinetri- one, dry; sodium dichloro-s-triazinetri- one, dry; trichloro-s-triazinetri- one, dry.

(a) * * *

(8) Specification 12B (§ 178.205 of this subchapter). Fiberboard boxes with inside polyethylene bottles with a minimum wall thickness of 0.015 inch. Not more than 2 polyethylene bottles may be packed in one box and each bottle shall contain not more than 16 pounds net weight of commodity. Container must be such that it will not react dangerously with or be decomposed by the commodity.

13. In § 173.221 paragraph (a) (9) is revised to read as follows:

§ 173.221 Liquid organic peroxides, n.o.s., and liquid organic peroxide solutions, n.o.s.

(a) * * *

(9) Specification 12P (§ 178.211 of this subchapter). Fiberboard boxes with inside specification 2U (§ 178.24 of this subchapter) polyethylene containers not over 6-gallon capacity each. Wire staples are not authorized for assembly or closure of boxes, except when polyethylene container is completely enclosed in inside boxes free of wire staples or other projections that could cause failures.

14. In § 173.272 paragraph (i) (22) is revised to read as follows:

§ 173.272 Sulfuric acid.

(i) * * *

(22) Specification 103A,¹ 103AW, 103CW, 105A300W, 111A60W2, 111A100W6, or 111A100F2 (§§ 179.100, 179.101, 179.200, 179.201 of this subchapter). Tank cars. Authorized for sulfuric acid of concentrations 65.25 percent or greater, provided the corrosive effect on steel is not greater than that of 65.25 percent sulfuric acid, measured at 100°F. Tank cars used for sulfuric acid, mixed acid (nitric and sulfuric acids) (nitrating acid), and other fuming acids, may be equipped with safety vents incorporating frangible discs having a ½-inch breather hole in their center.

The ½-inch breather hole is not permitted in frangible discs of safety vents on oleum tank cars. Specification 103CW and 111A100W6 tank cars must have tanks constructed of type 304-L stainless steel. Bottom outlets are not authorized.

15. In § 173.306 paragraph (d) (4) is added preceding Note to read as follows:

§ 173.306 Limited quantities of compressed gases.

(d) * * *

(4) A cylinder which is part of a tire inflator system in a motor vehicle, charged with a nonliquefied, nonflammable compressed gas is excepted from the requirements of Parts 170-189 of this subchapter except:

(i) Unless otherwise authorized by the Department, each cylinder must be in compliance with one of the cylinder specifications in Part 178 and authorized for use in § 173.302 for the gas it contains;

(ii) Each cylinder must be in compliance with the filling requirements of § 173.301.

(iii) Each cylinder must be securely installed in the trunk of the motor vehicle and the valve must be protected against accidental discharge.

16. In § 173.346 paragraph (a) (12) is revised to read as follows:

¹ The use of existing tanks authorized but new construction not authorized.

§ 173.346 Poison B liquids not specifically provided for.

(a) * * *

(12) Specifications MC 300, MC 301, MC 302, MC 303, MC 304, MC 305, MC 306, MC 307, MC 310, MC 311 or MC 312 (§§ 178.341, 178.342, 178.343 of this subchapter). Tank motor vehicles. Tank motor vehicles designed and constructed to Specification MC 304 or MC 307 except for bottom outlets equipped with external ball valves may be used only for toluene diisocyanate.

17. In § 173.850 paragraph (a) (7) is added to read as follows:

§ 173.850 Lime, unslaked; quicklime; and calcium oxide.

(a) * * *

(7) Sift-proof bulk freight container with net weight not over 40,000 pounds.

* * *

18. § 173.1025 is amended to read as follows:

§ 173.1025 Metal borings, shavings, turnings or cuttings.

Metal borings, shavings, turnings, or cuttings, when offered for transportation by water, must be prepared for shipment in compliance with § 173.510 and must be packaged in a metal barrel or drum, or, for non-ferrous material only, in compressed bales wrapped in burlap provided the burlap shows no sign of oil, or plastic lined freight containers. Freight containers with open tops must have lading protected from weather and water and the lading must be at or below 150° F. when loaded.

PART 176—CARRIAGE BY VESSEL

19. In § 176.80 paragraph (b) is revised to read as follows:

§ 176.80 Application.

* * *

(b) Hazardous materials in limited quantities when loaded in transport vehicles and freight containers are excepted from the segregation requirements of this subpart and any additional segregation specified in this subchapter for transportation by vessel.

(49 U.S.C. 1803, 1804, 1808; 49 CFR 1.53(e).)

NOTE.—The Materials Transportation Bureau has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821 and OMB Circular A-107.

Issued in Washington, D.C. on October 31, 1977.

JOHN J. FEARNSIDES,

Acting Director,

Materials Transportation Bureau.

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

[4910-13]

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 39]

[Docket No. 77-NW-27-AD]

AIRWORTHINESS DIRECTIVES

Boeing Model 707-100, -100B, and -200 Series Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rule making (NPRM).

SUMMARY: It is proposed to issue an Airworthiness Directive (AD) to require repetitive X-ray inspections of the inboard upper wing structure of Boeing 707-100, -100B, and -200 series airplanes. This proposed AD would supersede AD 77-06-03 which requires a one-time inspection of a similar nature to detect cracks in the inboard upper wing structure.

DATES: Comments must be received on or before December 23, 1977.

ADDRESSES: Send comments on the proposal in duplicate to: Federal Aviation Administration, Northwest Region, Office of the Regional Counsel, Attention: Airworthiness Rules Docket, Docket No. 77-NW-27-AD, 9010 East Marginal Way South, Seattle, Wash. 98108.

FOR FURTHER INFORMATION CONTACT:

Harold N. Wantiez, Airframe Section, ANW-212, Engineering and Manufacturing Branch, FAA Northwest Region, 9010 East Marginal Way South, Seattle, Wash. 98108, telephone, 206-767-2516.

SUPPLEMENTARY INFORMATION: Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the docket number and be submitted in duplicate to the address shown above. All communications received on or before December 23, 1977, will be considered by the Administrator before taking action upon the proposed rule. The proposals contained in this notice may be changed in the light of comments received. All comments will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

Cracks have been found in the upper wing skin near the rear spar and in the

upper rear spar chord horizontal leg inboard of WS 269. The skin cracks initiated from or adjacent to fastener holes directly above the upper rear spar chord and extended forward and aft. The chord crack started in the horizontal leg of the upper chord and extended down into the vertical leg. A metallurgical investigation of the cracked skins of one airplane showed that the cracks initiated in a fretting free region. Propagation was initially by fatigue but culminated in a rapid ductile rupture.

As a result of this investigation, repetitive X-ray inspections are proposed at intervals not to exceed 1,000 flights.

This NPRM has been coordinated with the manufacturer and the Air Transport Association (ATA).

DRAFTING INFORMATION

The principal author of this document are Harold N. Wantiez, Engineering and Manufacturing Branch, Northwest Region, and Jonathan Howe, Regional Counsel, Northwest Region.

THE PROPOSED AMENDMENT

Accordingly, the Federal Aviation Administration proposes to amend Section 39.13 of the Federal Aviation Regulations (14 CFR 39.13) by adding the following new Airworthiness Directive:

BOEING: Applies to all Boeing 707-100/-100B/-200 series airplanes, certificated in all categories upon the accumulation of 20,000 landings.

Accomplish the following:

A. Within the next 500 landings, unless accomplished within the last 500 landings, and thereafter at intervals not to exceed 1,000 landings, X-ray inspect the upper rear spar chord horizontal leg and adjacent wing skin from the side of the body at BBL 70.5 to WS 274 in accordance with Boeing Non-destructive Test (NDT) manual, document D6-7170, or in a manner approved by the Chief, Engineering and Manufacturing Branch, FAA Northwest Region. Wing skins or rear spar chords found cracked are to be repaired prior to further flight in accordance with paragraph B.

B. Repair in accordance with 1 or 2 below as applicable, prior to further flight except that the airplane may be flown in accordance with FAR 21.197 to a base where the repair can be performed:

1. Airplanes with skin cracks near the rear spar which do not extend beyond the fastener pattern of stringer No. 1 may continue in service for a maximum of 750 additional landings, subject to the following conditions:

a. Crack ends must be stop drilled per Boeing Structural Repair Manual, Section 51-2-10.

b. If crack ends in a fastener hole, the hole must be inspected per document D6-7170, Part 6, 51-00-00, Figure 1, to assure there is no crack progression beyond fastener hole,

then an additional $\frac{1}{16}$ " oversize must be made and an oversize fastener installed.

c. Eddy current inspection per document D6-7170, Part 6, 51-00-00, Figure 4, of crack ends must be conducted at intervals not to exceed 50 landings. Any crack progression requires repair in accordance with 2 below prior to further flight.

d. Cracks must be permanently repaired within 750 landings in accordance with 2 below.

2. Repair in a manner approved by the Chief, Engineering and Manufacturing Branch, FAA Northwest Region.

C. For the purpose of complying with this AD, subject to acceptance by the assigned FAA maintenance inspector, the number of landings may be determined by dividing each airplane's hours time-in-service by the operator's fleet average time from takeoff to landing for the airplane type.

This AD supersedes AD 77-06-03.

(Secs. 313(a), 601 and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and of Section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107 is not required.

Issued in Seattle, Washington, on October 27, 1977.

J. H. TANNER,
Acting Director,
Northwest Region.

[Docket No. 17331; Notice No. 77-27]

CIVIL AIRCRAFT

Proposed Discontinuance of Special Identification Numbers

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice proposes amending the Federal Aviation Regulations by removing all references to special identification numbers for civil aircraft. The effect of the proposal would be to discontinue the issuance of these numbers. The FAA believes that the ever-increasing demand for these numbers is making it difficult for Aircraft Registry personnel to complete necessary, safety related tasks.

DATE: Comments must be received on or before January 6, 1978.

ADDRESS: Send comments on the proposals in duplicate to: Federal Aviation

Administration, Office of the Chief Counsel, Attn: Rules Docket (AGC-24), Docket No. 17331, 800 Independence Avenue SW., Washington, D.C. 20591.

FOR FURTHER INFORMATION CONTACT:

Ms. Elizabeth Bowman, Aircraft Registration Branch (AAC-251), Technical Section, Airman and Aircraft Registry, Federal Aviation Administration, Aeronautical Center, P.O. Box 25082, Oklahoma City, Okla. 73125, telephone 405-686-2284.

SUPPLEMENTARY INFORMATION:

COMMENTS INVITED

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the regulatory docket or notice number and be submitted in duplicate to: Federal Aviation Administration, Office of the Chief Counsel, Attention: Rules Docket AGC-24, 800 Independence Avenue SW., Washington, D.C. 20591. All communications received on or before January 6, 1978, will be considered by the Administrator before taking action on the proposed rule. The proposals contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons. A report summarizing each substantive public contact with FAA personnel concerned with this rulemaking will be filed in the docket.

AVAILABILITY OF NPRMs

Any person may obtain a copy of this notice of proposed rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Information Center, APA-430, 800 Independence Avenue SW., Washington, D.C. 20591, or by calling 202-426-8058. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRMs should also request a copy of Advisory Circular No. 11-2 which describes the application procedure.

DISCUSSION OF THE PROPOSAL

Section 47.15(d) of the Federal Aviation Regulations provides that any unassigned U.S. identification number may be assigned as a special identification number, and an applicant desiring such a number may apply for it to the FAA Aircraft Registry. At the present time, special identification numbers are distributed by the Registry upon proper application and payment by the applicant of the ten dollar fee required by § 47.17(a) (4).

The Federal Aviation Act of 1958 does not require the issuance of special identification numbers to the owners of U.S. civil aircraft. Nonetheless, the FAA has provided the public with this service for more than two decades.

In recent years this service has imposed an increasing burden on the Aircraft Registry. Presently, more than two man-years are devoted annually to reserving and assigning special registration numbers. Further, reserving and assigning these numbers does not enhance aviation safety. Rather, the ever-increasing demand for the numbers is making it difficult for registry personnel to complete necessary, safety-related tasks.

Therefore, the FAA proposes to delete the references to special identification numbers as they appear throughout Parts 47 and 91 and to discontinue the issuance of these numbers.

DRAFTING INFORMATION

The principal authors of this document are Elizabeth Bowman, Airman and Aircraft Registry, and Danvers Long, Office of the Chief Counsel.

THE PROPOSED AMENDMENT

Accordingly, the Federal Aviation Administration proposes to amend Parts 47 and 91 of the Federal Aviation Regulations (14 CFR Parts 47 and 91) as follows:

1. By amending the third sentence in § 47.15(a) by deleting the words "a person who applies for a special identification number under paragraphs (d) through (g) of this section";

2. By revising paragraph 47.15(a) (2) and by revoking and reserving §§ 47.15 (d), (f), and (h) as follows:

§ 47.15 Identification number.

(a) * * *

(2) *Aircraft last previously registered in the United States.* The applicant must place the U.S. identification number that is already assigned to the aircraft on his application and on the supporting evidence.

(d) [Reserved]

(f) [Reserved]

(h) [Reserved]

3. By revoking and reserving §§ 47.17 (a) (4) and (a) (5) as follows:

§ 47.17 Fees.

(a) * * *

(4) [Reserved]

(5) [Reserved]

§ 91.27 [Amended]

4. By amending § 91.27(a) (1) by deleting the third and fourth sentences.

(Secs. 313(a), 501, Federal Aviation Act of 1958 49 U.S.C. 1354(a), 1401); sec. 6(c) Department of Transportation Act (49 U.S.C. 1655(c)).)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by

Executive Order 11949, and OMB Circular A-107.

Issued in Oklahoma City, Oklahoma, on October 25, 1977.

CALVIN H. DAVENPORT,
Acting Director,
Aeronautical Center.

TRANSITION AREAS

Proposed Alteration

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rule making (NPRM).

SUMMARY: This notice (NPRM) proposes to realign and redesignate the existing Salt Lake City and Provo, Utah, transition areas to provide additional controlled airspace for the radar vectoring of aircraft and provide controlled airspace for aircraft executing a new NDB approach procedure developed for the Michael Army Airfield, Dugway, Utah. These actions are designed to improve and provide more efficient use of the navigable airspace in and around the Salt Lake City area through more direct routings and increased fuel/time savings.

DATE: Comments must be received on or before December 10, 1977.

ADDRESSES: Send comments on the proposal to: Chief, Air Traffic Division, Attn: ARM-500, Federal Aviation Administration, 10455 East 25th Avenue, Aurora, Colo. 80010. A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, 10455 East 25th Avenue, Aurora, Colo. 80010.

FOR FURTHER INFORMATION CONTACT:

Dave Laschinger, Airspace Specialist, Operations, Procedures and Airspace Branch (ARM-539), Air Traffic Division, Federal Aviation Administration, Rocky Mountain Region, 10455 East 25th Avenue, Aurora, Colo. 80010, telephone 303-837-3937.

SUPPLEMENTARY INFORMATION:

COMMENTS INVITED

Interested persons may participate in the proposed rulemaking by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Division, Federal Aviation Administration, 10455 East 25th Avenue, Aurora, Colo. 80010. All communications received will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the

Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

AVAILABILITY TO NPRM

Any person may obtain a copy of this Notice of Proposed Rulemaking (NPRM) by submitting a request to the Federal Aviation Administration Office of Public Affairs, Attention: Public Information Center, APA-430, 800 Independence Avenue, SW., Washington, D.C. 20591, or by calling (202) 426-8058. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRMs should also request a copy of Advisory Circular No. 11-2 which describes the application procedure.

THE PROPOSAL

The FAA is considering an amendment to Subpart G of Part 71 of the Federal Aviation Regulation (14 CFR Part 71) which will realign and redesignate the existing Salt Lake City and Provo, Utah, transition areas under one transition area. The FAA believes this action will enhance safety and allow greater flexibility in the control of aircraft by providing additional controlled airspace for radar vectoring purposes. This will permit vectoring aircraft to the final approach course to Salt Lake City International Airport sooner, thus conserving fuel. Additional controlled airspace is also required for IFR departures from Provo Airport and for aircraft executing a new NDB approach procedure to Michael Army Air Field, Dugway, Utah. The FAA acknowledges that the proposal will increase the amount of controlled airspace, but believes the benefits gained by expediting the movement of aircraft in and around the Salt Lake City area and the elimination of some chart clutter will offset any additional operating requirements placed on VFR aircraft.

Accordingly, the Federal Aviation Administration proposes to amend Part 71, Subpart G, Section 71.181 of the Federal Aviation Regulations (14 CFR 181) as follows:

1. Redesignate the Salt Lake City, Utah, transition area as follows:

SALT LAKE CITY, UTAH

That airspace extending upward from 700 feet above the surface bounded by a line beginning at latitude 41°00'00" N., longitude 111°45'00" W., thence south along longitude 111°45'00" W. to latitude 40°22'30" N., thence southeast to latitude 40°10'20" N., longitude 111°35'00" W., thence southwest to latitude 40°03'30" N., longitude 111°48'30" W., thence northwest to latitude 40°43'00" N., longitude 112°22'00" W., thence north along longitude 112°22'00" W. to latitude 41°00'00" N.; that airspace extending upward from 1,200 feet above the surface bounded on the north by latitude 41°00'00" N., on the east by longitude 111°25'30" W., on the south by latitude 39°56'30" N., and on the west

by the east edge of R-6402 and longitude 113°00'00" W.; that airspace east of Salt Lake City extending upward from 11,000 feet M.S.L. bounded on the northwest by the southeast edge of V-32, on the southeast by the northwest edge of V-235, on the southwest by the northeast edge of V-101 and on the west by longitude 111°25'30" W.; and that airspace southeast of Salt Lake City extending upward from 13,500 feet M.S.L. bounded on the northeast by the southwest edge of V-484, on the south by the north edge of V-200 and on the west by longitude 11°25'30" W.; excluding the portion within Restricted Area R-6403 and the Bonneville, Utah, transition area.

2. Cancel the Provo, Utah, transition area in its entirety.

DRAFTING INFORMATION

The principal authors of this document are Dave Laschinger, Air Traffic Division, and Daniel J. Peterson, Office of the Regional Counsel, Rocky Mountain Region.

(Sec. 307(a) of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1348(a)), and of Section 6(c) of the Department of Transportation Act (49 U.S.C. 1655 (c)).)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821 and OMB Circular A-107.

Issued in Aurora, Colorado, on October 27, 1977.

ISAAC H. HOOVER,
Deputy Director,
Rocky Mountain Region.

[4910-13]

[14 CFR Part 71]

[Airspace Docket No. 77-GL-26]

TRANSITION AREA

Harrison, Ohio; Proposed Designation

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rule making.

SUMMARY: The nature of this federal action is to designate additional controlled airspace near Harrison, Ohio to accommodate a new instrument approach procedure into the Harrison Ohio Municipal Airport.

DATE: Comments must be received on or before December 1, 1977.

ADDRESSES: Send comments on the proposal to FAA Office of Regional Counsel, AGL-7, Attention: Rules Docket Clerk, Docket No. 77-GL-26, 2300 East Devon Avenue, Des Plaines, Ill. 60018. A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Ill. 60018.

FOR FURTHER INFORMATION CONTACT:

Doyle Hegland, Airspace and Procedures Branch, Air Traffic Division, AGL-530, FAA, Great Lakes Region, 2300 East Devon Avenue, Des Plaines, Ill. 60018, telephone 312-694-4500, extension 456.

SUPPLEMENTARY INFORMATION: The intended effect of this action is to insure segregation of the aircraft using this approach procedure in instrument weather conditions, and other aircraft operating under visual conditions. The floor of the controlled airspace in this area will be lowered from 1200' above ground to 700' above ground. The circumstance which created this action was a request from Harrison Airport officials to provide that facility with instrument approach capability. The development of the proposed instrument procedures necessitates the FAA to lower the floor of the controlled airspace to insure that the procedure will be contained within controlled airspace. The minimum descent altitude for this procedure may be established below the floor of the 700 foot controlled airspace. In addition, aeronautical maps and charts will reflect the area of the instrument procedure which will enable other aircraft to circumnavigate the area in order to comply with applicable visual flight rule requirements.

COMMENTS INVITED

Interested persons may participate in the proposed rulemaking by submitting such written data, views or arguments as they may desire. Communications should be submitted in triplicate to Regional Counsel, AGL-7, Great Lakes Region, Rules Docket No. 77-GL-26, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Ill. 60018. All communications received on or before December 1, 1977, will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

AVAILABILITY OF NPRM

Any person may obtain a copy of this notice of proposed rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Information Center, APA-430, 800 Independence Avenue SW., Washington, D.C. 20591, or by calling 202-426-8058. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRMs should also request a copy of Advisory Circular No. 11-2 which describes the application procedures.

THE PROPOSAL

The FAA is considering an amendment to Subpart C of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) to establish a 700 foot controlled airspace transition area near Harrison,

Ohio. Subpart C of Part 71 was republished in the FEDERAL REGISTER on January 3, 1977 (42 FR 307).

DRAFTING INFORMATION

The principal authors of this document are Doyle W. Hegland, Airspace and Procedures Branch, Air Traffic Division, and Joseph T. Brennan, Office of the Regional Counsel.

THE PROPOSED AMENDMENT

Accordingly, the Federal Aviation Administration proposes to amend Subsection 71.181 of Part 71 of the Federal Aviation Regulations (14 CFR 71.181) as follows:

In Section 71.181 (42 FR 440), the following transition area is added:

HARRISON, OHIO

That airspace extending upward from 700 feet above the surface within a 5 mile radius of the Center (89°15'50"N) (84°47'04"W) of Harrison Airport, Harrison, Ohio, and within 3.6 miles on each side of the 347° bearing from the airport reference point extending from the 5 mile radius to 9.5 miles north of the airport excluding that portion which overlies the Oxford, Ohio, transition area.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); Sec. 11.81 of the Federal Aviation Regulations (14 C.F.R. 11.61).)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Des Plaines, Ill., on October 27, 1977.

LEON C. DAUGHERTY,
Acting Director,
Great Lakes Region.

[Airspace Docket No. 77-RM-13]

TRANSITION AREA

Delta, Utah; Proposed Alteration

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rule making.

SUMMARY: This notice proposes to alter the Delta, Utah, 1200 foot transition area. The proposal is necessary to provide an additional 1200 foot transition area for transitions for the NDB-A and NDB-B approaches to Michael Army Airfield, Dugway Proving Ground, Utah.

DATES: Comments must be received on or before December 7, 1977.

ADDRESSES: Send comments on the proposal to: Chief, Air Traffic Division, Attn: ARM-500, Federal Aviation Administration, 10455 East 25th Avenue, Aurora, Colo. 80010. A public docket will

be available for examination by interested persons in the office of the Regional Counsel, Federal Aviation Administration, 10455 East 25th Avenue, Aurora, Colo. 80010.

FOR FURTHER INFORMATION CONTACT:

David M. Laschinger, Airspace Specialist, Operations, Procedures and Airspace Branch, ARM-539, Air Traffic Division, Federal Aviation Administration, Rocky Mountain Region, 10455 East 25th Avenue, Aurora, Colo. 80010, telephone 303-837-3937.

SUPPLEMENTARY INFORMATION:

COMMENTS INVITED

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Division, Federal Aviation Administration, 10455 East 25th Avenue, Aurora, Colo. 80010. All communications received will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

AVAILABILITY OF NPRM

Any person may obtain a copy of this Notice of Proposed Rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Information Center, APA-430, 800 Independence Avenue, SW., Washington, D.C. 20591, or by calling (202) 426-8058. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRM's should also request a copy of Advisory Circular No. 11-2 which describes the application procedure.

THE PROPOSAL

The Federal Aviation Administration is considering an amendment to Subpart G of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) to alter the 1200 foot transition area at Delta, Utah. The present 1200 foot transition area was found to be inadequate to contain the transition route for the NDB-A and NDB-B approach procedure to Michael Army Airfield, Dugway Proving Ground, Utah. Accordingly, the Federal Aviation Administration proposes to amend Subpart G of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) as follows:

By amending § 71.181 so as to alter the following transition area to read:

DELTA, UTAH

***, and that airspace extending upward from 1200 feet above the surface within 9 miles southeast and 13.5 miles northwest of the Delta VORTAC 203° and 023° radials, extending from 12 miles northeast to 25.5 miles southwest of the VORTAC; and that airspace within 5 miles northeast and 5 miles southwest of the Delta VORTAC 326° radial extending from the VORTAC to the southeast boundary of restricted area R-6402.

DRAFTING INFORMATION

The principal authors of this document are David M. Laschinger, Air Traffic Division, and Daniel J. Peterson, Office of the Regional Counsel, Rocky Mountain Region.

(Section 307(a) of the Federal Aviation Act of 1958, as amended, (49 U.S.C. 1348(a)), and of Section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).)

NOTE.—The Federal Aviation Administration has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821 and OMB Circular A-107.

Issued in Aurora, Colorado, on October 6, 1977.

M. M. MARTIN,
Director, Rocky Mountain Region.

PROPOSED ALTERATION AND DESIGNATION OF FEDERAL AIRWAYS AND JET ROUTES

Denver, Colo.

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rule making.

SUMMARY: This notice proposes to realign and establish several airways and jet routes in the Denver, Colorado, area. Such action will expedite the flow of traffic and reduce communication requirements in the area by designating as airways and jet routes those paths presently being flown as radar vector and Standard Terminal Arrival Routes (STARs). This action will also contribute to a reduction in fuel consumption.

DATES: Comments must be received on or before November 22, 1977.

ADDRESSES: Send comments on the proposal in triplicate to: Director, FAA Rocky Mountain Region, Attention: Chief, Air Traffic Division, Docket No. 77-RM-10, Federal Aviation Administration, Park Hill Station, P.O. Box 7213, Denver, Colo. 80207.

The official docket may be examined at the following location: FAA Office of the Chief Counsel, Rules Docket, (AGC-24), Room 916, 800 Independence Avenue, SW., Washington, D.C. 20591.

An informal docket may be examined at the office of the Regional Air Traffic Division.

FOR FURTHER INFORMATION CONTACT:

Mr. Everett L. McKisson, Airspace Regulations Branch (AAT-230), Airspace and Air Traffic Rules Division, Air Traffic Service, Federal Aviation Administration, 800 Independence Avenue SW., Washington, D.C. 20591; telephone: 202-426-3715.

SUPPLEMENTARY INFORMATION:

COMMENTS INVITED

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Rocky Mountain Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, Park Hill Station, P.O. Box 7213, Denver, Colorado 80207. All communications received on or before November 22, 1977, will be considered before action is taken on the proposed amendments. The proposals contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket Room for examination by interested persons.

AVAILABILITY OF NPRM

Any person may obtain a copy of this notice of proposed rule making (NPRM) by submitting a request to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Information Center, APA-430, 800 Independence Avenue SW., Washington, D.C. 20591, or by calling 202-426-8058. Communications must identify the docket number of this NPRM. Persons interested in being placed on a mailing list for future NPRMs should also request a copy of Advisory Circular No. 11-2 which describes the application procedures.

THE PROPOSAL

The FAA is considering amendments to Part 71 and Part 75 of the Federal Aviation Regulations (14 CFR Part 71 and Part 75) to alter V-80, V-85, V-134, V-172 and establish V-356 and V-361 airways in the vicinity of Denver, Colo., also to alter J10, J17, J24, J44, J56, J130 and establish J157, J163, J170, J171 and J172 Jet Routes in a larger area centered on Denver. More specifically, the proposal is as follows:

1. Alter V-80 to begin at the KEANN intersection (INT) northeast of Denver and go via an INT west of the WIGGI INT, thence via Akron, Colo., to North Platte, Nebr.
2. Alter V-85 to begin at the DRAKO intersection (INT) southwest of Gill, Colo., and go via the EUSTUS INT west of Gill thence to Medicine Bow, Wyo., and as presently described.
3. Alter the segment of V-134 south alternate which is south of the direct airway between Grand Junction, Colo., and Denver to go via the INT of Kremmling, Colo., 142° T (128° M) and Denver 227° T (214° M) radials.
4. Alter V-172 between Denver and North Platte, Nebr., to go via the INT of Denver

059° T (046° M) and Hayes Center, Nebr., 287° T (276° M) radials, and the INT of Hayes Center 287° T (276° M) and North Platte 245° T (234° M) radials.

5. Add a new airway V-356 to extend from Cheyenne, Wyo., and go via Gill, Colo.; the INT of Gill 130° T (117° M) and Denver 059° T (046° M) radials to the INT of Denver 059° T (046° M) and Gill 151° T (138° M) radials.

6. Add a new airway V-361 to go from Kremmling, Colo., to Cheyenne, Wyo., via the INT of Kremmling 059° T (045° M) and Cheyenne 216° T (203° M) radials.

7. Alter Jet Route No. 10 from Gunnison, Colo., to North Platte, Nebr., via the INT of Gunnison 055° T (041° M) and Denver 227° T (214° M) radials; Denver; and the INT of Denver 059° T (046° M) and North Platte 261° T (250° M) radials.

8. Alter Jet Route No. 17 between Amarillo, Tex., and Pueblo, Colo., to go via Tobe, Colo.

9. Alter Jet Route No. 24 to begin at Myton, Utah, and go via Hayden, Colo.; the INT of Hayden 090° T (076° M) and Kiowa, Colo., 318° T (305° M) radials; Kiowa and then as presently described.

10. Alter Jet Route No. 44 by extending it from Farmington, N. Mex., via Alamosa, Colo.; INT Alamosa 004° T (351° M) and Denver 227° T (214° M) radials to the INT of Denver 227° T (214° M) and Kiowa, Colo., 266° T (253° M) radials. (BYSON INT).

11. Alter Jet Route No. 56 to go as presently described to Salt Lake City, Utah, then via Hayden, Colo.; INT Hayden 090° T (076° M) and Kiowa, Colo., 318° T (305° M) radials; to INT Kiowa 318° T (305° M) and Gill 246° T (233° M) radials. (DRAKO INT).

12. Alter Jet Route No. 130 to extend from its present terminal at Grand Junction, Colo., via the INT of Grand Junction 089° T (074° M) and Kiowa, Colo., 258° T (245° M) radials; the INT of Kiowa 258° T (245° M) and Denver 227° T (214° M) radials; to the INT of Denver 227° T (214° M) and Kiowa, Colo., 266° T (253° M) radials. (BYSON INT).

13. Add Jet Route No. 157 to extend from Rapid City, S. Dak., via Scottsbluff, Nebr.; the INT of Scottsbluff 190° T (177° M) and Denver 059° T (046° M) radials to the INT of Denver 059° T (046° M) and Gill, Colo., 151° T (138° M) radials. (KEANN INT).

14. Add Jet Route No. 163 from Rock Springs, Wyo., to Hayden, Colo., the INT of Hayden 090° T (076° M) and Kiowa, Colo., 318° T (305° M) radials; Kiowa; Hugo, Colo.; to Lamar, Colo.

15. Add Jet Route No. 170 from Crazy Woman, Wyo., via Casper, Wyo.; Medicine Bow, Wyo.; the INT of the Medicine Bow 168° T (154° M) and Kiowa, Colo., 318° T (305° M) radials; to the INT of Kiowa 318° T (305° M) and Gill, Colo., 246° T (233° M) radials. (DRAKO).

16. Add Jet Route No. 171 from Tobe, Colo., via Hugo, Colo.; to Kiowa, Colo.

17. Add Jet Route No. 172 from the INT of the Denver 059° T (046° M) and the Gill, Colo., 151° T (138° M) radials, via the INT of the Denver 059° T (046° M) and Sidney, Nebr., 189° T (176° M) radials; to Sidney.

The FAA believes that this action would improve the traffic flow in the Denver area and thereby reduce fuel consumption.

DRAFTING INFORMATION

The principal authors of this document are Mr. Everett L. McKisson, Air Traffic Service, and Mr. Jack P. Zimmerman, Office of the Chief Counsel.

THE PROPOSED AMENDMENT

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration proposes to amend Parts 71 and 75 of the Federal Aviation Regulations (14 CFR Parts 71 and 75) as republished (42 FR 307 and 707) as follows:

§ 71.123 [Amended]

§ 71.123 (42 FR 307, 36247) would be amended as follows:

1. V-80 is amended to read as follows: "From the INT of Denver, Colo., 059° T (046° M) and the Gill, Colo., 151° T (138° M) radials via INT Denver 059° T (046° M) and Akron, Colo., 272° T (259° M) radials; Akron; to North Platte, Nebr."

2. In V-85 "From Medicine Bow, Wyo., via" is deleted and "From the INT of Kiowa, Colo., 318° T (305° M) and Gill, Colo., 246° T (233° M) radials via the INT of Kiowa 318° T (305° M) and Medicine Bow, Wyo., 168° T (154° M) radials; Medicine Bow;" is substituted therefor.

3. In V-134 all after "Denver, Colo.," is deleted and "Including a south alternate from the INT Kremmling, Colo., 142° T (128° M) and Denver 227° T (214° M) radials to Denver via the INT of the Kremmling 142° T (128° M) and Denver 227° T (214° M) radials." is substituted therefor.

4. In V-172 all before "North Platte;" is deleted and "From Denver, Colo., via INT Denver 059° T (046° M) and Hayes Center, Nebr., 287° T (276° M) radials; INT Hayes Center, 287° T (276° M) and North Platte, Nebr., 245° T (234° M) radials;" is substituted therefor.

5. V-356 is added to read as follows: "From Cheyenne, Wyo., via Gill, Colo.; INT Gill 130° T (117° M) and Denver, Colo., 059° T (046° M) radials to INT Denver 059° T (046° M) and Gill 151° T (138° M) radials."

6. V-361 is added to read as follows: "From Kremmling, Colo., via INT Kremmling 059° T (045° M) and Cheyenne, Wyo., 216° T (203° M) radials to Cheyenne."

§ 75.100 [Amended]

§ 75.100 (42 FR 707, 41 FR 48514) would be amended as follows:

1. In Jet Route No. 10 "Denver, Colo.," is deleted and "INT Gunnison, Colo., 055° and Denver, Colo., 227° radials; Denver; INT Denver; 059° and North Platte, Nebr., 261° radials;" is substituted therefor.

2. In Jet Route No. 17 "Amarillo, Tex.," is deleted and "Amarillo, Tex.; Tobe, Colo.," is substituted therefor.

3. In Jet Route No. 24 "Kiowa, Colo.," is deleted and "From Myton, Utah; Hayden, Colo.; INT Hayden 090° and Kiowa, Colo., 318° radials; Kiowa;" is substituted therefor.

4. In Jet Route No. 44 "to Farmington, N. Mex.," is deleted and "Farmington, N. Mex.; Alamosa, Colo.; INT Alamosa 004° and Denver, Colo., 227° radials; to INT Denver 227° and Kiowa, Colo., 266° radials;" is substituted therefor.

5. In Jet Route No. 56 "Meeker, Colo.; to Denver, Colo.," is deleted and "Hayden, Colo.; INT Hayden 090° and Kiowa, Colo., 318° radials; to INT Kiowa 318° and Gill 246° radials;" is substituted therefor.

6. In Jet Route No. 130 "radials to Grand Junction;" is deleted and "radials; Grand Junction; INT Grand Junction 089° and Kiowa, Colo., 258° radials; INT Kiowa 258° and Denver, Colo., 227° radials; to INT Denver 227° and Kiowa 266° radials;" is substituted therefor.

7. Jet Route No. 157 is added as follows: "From the INT of Denver, Colo., 059° and Gill, Colo., 151° radials, via INT Denver 059° and Scottsbluff, Nebr., 190° radials; to Scottsbluff; to Rapid City, S. Dak."

8. Jet Route No. 163 is added as follows: "From Rock Springs, Wyo., via Hayden, Colo.; INT Hayden 090° and Kiowa, Colo., 318° radials; Kiowa; Hugo, Colo.; to Lamar, Colo."

9. Jet Route No. 170 is added as follows: "From Crazy Woman, Wyo., via Casper, Wyo.; Medicine Bow, Wyo.; INT Medicine Bow 168° and Kiowa, Colo., 318° radials; to INT Kiowa 318° and Gill, Colo., 246° radials."

10. Jet Route No. 171 is added as follows: "From Tobe, Colo., via Hugo, Colo.; to Kiowa, Colo."

11. Jet Route No. 172 is added as follows: "From the INT of Denver, Colo., 059° and Gill, Colo., 151° radials, via INT Denver 059° and Sidney, Nebr., 189° radials; to Sidney."

(Secs. 307(a) and 313(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1354(a)); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.65.)

NOTE.—The FAA has determined that this document does not contain a major proposal requiring preparation of an Economic Impact Statement under Executive Order 11821, as amended by Executive Order 11949, and OMB Circular A-107.

Issued in Washington, D.C., on November 2, 1977.

WILLIAM E. BROADWATER,
Chief, Airspace and Air
Traffic Rules Division.

[6750-01]

FEDERAL TRADE COMMISSION

[16 CFR Part 444]

CREDIT PRACTICES

Additional Hearing on Proposed Trade Regulation Rule

AGENCY: Federal Trade Commission.

ACTION: Additional public hearing scheduled in Washington, D.C.

SUMMARY: On June 24, 1977, the Presiding Officer published in the FEDERAL REGISTER (42 FR 32259) a Final Notice of a proposed trade regulation rule proceeding concerning Credit Practices. A hearing in addition to those listed in that notice has been scheduled.

DATES: Public hearing will commence in Washington, D.C. at 9 a.m., January 23, 1978; materials required for oral presentation due by December 12, 1977.

ADDRESSES: Send prepared statements or outlines and exhibits to David H. Williams, Federal Trade Commission, Washington, D.C. 20580. Place of hearing: Room 532, Federal Trade Commission Building, Pennsylvania Avenue at Sixth Street NW., Washington, D.C.

FOR FURTHER INFORMATION CONTACT:

David H. Williams, 202-523-3814, Room 251, Federal Trade Commission, Pennsylvania Avenue at Sixth Street, NW., Washington, D.C. 20580.

SUPPLEMENTARY INFORMATION: On June 24, 1977, the Presiding Officer published in the FEDERAL REGISTER (42 FR 32259) a Final Notice of a proposed trade regulation rule proceeding concerning Credit Practices. The notice included a schedule of dates and places of public hearings to be held in the proceeding.

Representatives of interested groups have requested the Presiding Officer to schedule a second public hearing in Washington, D.C. in addition to the one already scheduled to commence December 5, 1977, for the purpose of allowing certain expert witnesses to present testimony concerning the proposed rule. Commission attorneys and group representatives consider the testimony of these witnesses to be of particular importance to this proceeding. The witnesses were unable to be scheduled to participate in the first hearing to be held in Washington, D.C. because there has been insufficient time for them to prepare their testimony by the established deadline for the submission of prepared statements or outlines.

In view of the above, the Presiding Officer has scheduled an additional public hearing to be held commencing at 9 a.m., January 23, 1978, in Room 532 of the Federal Trade Commission Building, Pennsylvania Avenue at Sixth Street, NW., Washington, D.C. and will confine the hearing to the testimony of those expert witnesses.

Prepared statements or outlines and exhibits of witnesses at the mentioned public hearing will be made available for inspection in the office of David H. Williams, Room 251 of the Federal Trade Commission Building in Washington, D.C. at the above address on and after December 12, 1977.

For additional information, instructions and requirements regarding the proceeding, see the Presiding Officer's Final Notice of June 24, 1977, 42 FR 32259.

Issued: November 3, 1977.

HENRY B. CABELL,
Presiding Officer.

[FR Doc.77-32188 Filed 11-4-77; 8:45 am]

[4810-25]

DEPARTMENT OF THE TREASURY

Office of the Secretary

[31 CFR Subtitle A]

EX PARTE COMMUNICATIONS IN ANTIDUMPING PROCEEDINGS

Intent

AGENCY: U.S. Treasury Department.

ACTION: Notice of intent.

SUMMARY: This notice is to inform the public that the Treasury Department is considering issuing regulations governing specified Treasury Department employees with respect to communications received from and meetings held with persons not employed by the U.S. Gov-

ernment in the course of antidumping proceedings, or where the initiation of such proceedings appears probable. These regulations are designed to assure that decisions by the Secretary of the Treasury in antidumping proceedings: (i) Are made, to the maximum extent possible, on the basis of a public record; (ii) are fair to all interested persons; and (iii) reflect an efficient and timely decision-making process.

DATES: Comments should be submitted before January 1, 1978. The Treasury Department intends to publish a final regulation after receiving public comments. It is anticipated that such regulation will be published on or about February 1, 1978.

ADDRESS: Send comments to Peter D. Ehrenhaft, Deputy Assistant Secretary and Special Counsel (Tariff Affairs), U.S. Treasury Department, 15th and Pennsylvania Avenue NW., Washington, D.C. 20220, 202-566-2806.

FOR FURTHER INFORMATION CONTACT:

Linda F. Potts, Office of Tariff Affairs, U.S. Treasury Department, 15th and Pennsylvania Avenue NW., Washington, D.C. 20220, 202-566-2951.

SUPPLEMENTARY INFORMATION: Since the proposal outlined here relates to procedural rules of the Treasury Department, 5 U.S.C. 553(b) requiring notice of proposed rulemaking is inapplicable. However, in accordance with the spirit of the public policy set forth in 5 U.S.C. 553, interested persons may submit written comments on these proposed regulations. During the period before the proposal outlined here becomes final, or is withdrawn, the Treasury Department will attempt to comply with the terms set forth herein, and requests all interested persons to be similarly guided.

1. Explanation of terms. As used in these Guidelines:

(a) "Interested person" means any person not employed by the United States Government who may be directly affected or who represents any person who may be directly affected by the outcome of a pending or prospective antidumping proceeding. Officials of governments other than the United States may be considered as representing an interested person.

(b) "Antidumping proceeding" means a pending or prospective proceeding in the Treasury Department undertaken pursuant to the Antidumping Act, 1921, as amended. An antidumping proceeding will be considered pending from the date on which the Department first receives information deemed sufficient to initiate an investigation to determine whether merchandise is being or is likely to be imported into the United States under such circumstances as to bring it within the purview of the Antidumping Act until the latest date proceedings (including the collection of special dumping duties) under the Act with respect to merchandise imported from the same

country are required or permitted under the Act. A "prospective" antidumping proceeding is one which an interested person has reason to believe may be initiated within the next three months.

(c) An "Official of the Department at the decision-making level" means the Secretary, Deputy Secretary, General Counsel, Deputy General Counsel, Deputy Assistant Secretary for Tariff Affairs, Director of Office of Tariff Affairs, or any person then acting in such capacity.

(d) "Meeting" means a discussion in person or by telephone between one or more officials of the Department and an interested person at which the substance or precedence of an antidumping proceeding is discussed.

2. *Meeting with Officials of the Department.* (a) Officials of the Department at the decision-making level make their decisions in antidumping proceedings on a record. Except for information properly claimed and treated as confidential pursuant to § 153.22 of the Treasury Regulations (19 CFR 153.22), internal staff opinions and recommendations, and other information exempt from disclosure by law, all information in the record is available to any interested person and the public.

(b) Subject to subparagraph (e), any interested person may at any time request a meeting with an official of the Department at the decision-making level with respect to a pending antidumping proceeding, by making a request in writing. The request should include the identification of the interested person and any individuals who will participate in the meeting on behalf of the interested person, the matters to be discussed, the information in the record (or elsewhere) to which reference will be made, and a summary of information to be furnished at the meeting. A copy of such request shall, at the same time, be furnished by the individual requesting the meeting to every other interested person (or his counsel) then known to the individual requesting the meeting, such recipients to be identified in the submission. The request shall become a part of the record in the proceedings. Except in unusual circumstances, only matters referred to in such request will be considered at the meeting.

(c) Any interested person may at any time request a meeting with an official of the Department at the decision-making level with respect to a prospective antidumping proceeding by making such request in writing. The request should include the identification of the interested person and the individuals who will participate in the matter on behalf of the interested person, the matters to be discussed, and a summary of the information to be furnished at the meeting. The request shall become a part of the record if an antidumping proceeding is initiated affecting the person requesting the meeting.

(d) Except for unusual circumstances or if in the ordinary course of administration of antidumping proceedings the

particular meeting in question is, as a rule, conducted elsewhere, any meeting with an official of the Department at the decision-making level will be held at the offices of the Department, Main Treasury Building, 15th Street and Pennsylvania Avenue NW., Washington, D.C. Unusual circumstances will generally be limited to situations in which a meeting elsewhere would materially assist in the submission or consideration of relevant information and would normally be held at (i) an office of another United States Government agency, (ii) an office of an interested foreign government, or (iii) an office of an interested party.

(e) While it is the policy of the Department to make its officials accessible to interested persons, nothing herein shall obligate any official to agree to a meeting with an interested person. During the period between the publication dates of an Antidumping Proceeding Notice under 19 CFR 153.30 and either a Tentative Determination under 19 CFR 153.33(b) or 153.34(a) or a Withholding of Appraisal Notice under 19 CFR 153.35, a meeting with officials of the Department at the decision-making level will be declined except in special circumstances.

3. *Reports of meetings.* (a) If any interested person who has met with any official of the Department wants information communicated in the meeting to be considered in the decision-making process, he shall, within five working days after such meeting, submit to such official a summary thereof. The summary shall become a part of the record in the pending antidumping proceeding or in any proceeding subsequently initiated affecting the interested party submitting the summary. No information communicated in a meeting covered by these regulations shall be considered in the decision-making process unless it is the subject of such a summary. If at the time of the meeting the initiation of an antidumping proceeding could not have been reasonably foreseen by the person requesting a meeting and an antidumping proceeding relating to the merchandise discussed at such meeting is in fact initiated within three months of the meeting, the provisions of this Section will become applicable to such meeting after publication of the Antidumping Proceeding Notice relating to such merchandise.

(b) Within ten working days after any meeting (or publication of an Antidumping Proceeding Notice, if applicable), an official of the Department who participated in such meeting shall note his agreement or disagreement with the summary (or parts thereof) provided by the interested person and forward such annotated summary for inclusion in the record. If the meeting was with an official of the Department at the decision-making level, such official shall note his agreement or disagreement with the summary (or parts thereof) provided by the interested person and forward such annotated summary for inclusion in the record or, alternatively, shall submit for

the record an independent memorandum stating the date, time and place of, and participants in, the meeting and a summary of the subjects discussed. In exceptional circumstances, stated in writing in the memorandum, the Secretary, Deputy Secretary, or General Counsel may authorize the omission of the summary of the matters discussed.

4. *Submission of written information.* Any written communication from an interested person relating to pending or prospective antidumping proceedings will be received and considered if submitted within the time requirements of the Antidumping Act and regulations or applicable notices published in specific proceedings. Untimely communications may be disregarded. Copies of all written communications, with appropriate deletions of information claimed to be confidential and a non-confidential summary of information so deleted, shall be furnished to every other interested person then known to the individual submitting the writing, such recipient to be identified in the submission, provided however, that material that is excessively bulky or difficult to reproduce may instead be filed for public inspection with appropriate deletion of information claimed to be confidential and a non-confidential summary of information so deleted.

5. *Access to Officials of the Department in Other Than Pending or Prospective Antidumping Proceedings.* Nothing contained herein is intended to limit any person from requesting or submitting information about, or participating in any meeting concerning, the administration of the Antidumping Act in other than pending or prospective antidumping proceedings.

Dated: October 31, 1977.

ROBERT H. MUNDHEIM,
General Counsel.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 73]

[Docket No. 21457; RM-2941]

FM BROADCAST STATION IN BRIDGEPORT, TEX.

Proposed Changes in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Notice of Proposed Rule Making.

SUMMARY: Proposed assignment of a first FM channel to Bridgeport, Tex. Petitioner, Wise Media, Inc., states that the proposed channel would provide the community with its first local aural broadcast service.

DATES: Comments must be received on or before December 12, 1977, and reply comments on or before January 3, 1978.

ADDRESSES: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

Mildred B. Nesterak, Broadcast Bureau, 202-632-7792.

SUPPLEMENTARY INFORMATION: In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations. (Bridgeport, Tex.); Notice of proposed rulemaking.

Adopted: October 28, 1977.

Released: November 2, 1977.

By the Chief, Broadcast Bureau:

1. Petitioner, Proposal, Comments.

(a) Petition for rulemaking,¹ filed August 11, 1977, by Wise Media Inc. ("petitioner"), proposing the assignment of Channel 244A to Bridgeport, Tex., as a first FM assignment to that community. No responses to the petition have been filed.

(b) The channel could be assigned in conformity with the minimum distance separation requirements provided the transmitter site is located approximately 8 kilometers (5 miles) north of the community.

(c) Petitioner states that, if the channel is assigned, it will promptly file an application for a construction permit to utilize the assignment.

2. Community Data.

(a) **Location.** Bridgeport is located in north central Texas approximately 64 kilometers (40 miles) northwest of Fort Worth and approximately 103 kilometers (64 miles) northwest of Dallas.

(b) **Population.** Bridgeport—3,614; Wise County—19,687.²

(c) **Local Broadcast Service.** Bridgeport has no local aural broadcast service.

(d) **Economic Data.** Petitioner states that Bridgeport is the largest incorporated city in Wise County. In support of its proposal, petitioner has submitted population data and a profile of the local economy, which involves oil and gas production, stone and gravel production as well as farming and ranching. It states that the proposed station would provide for a first location aural broadcast service to Bridgeport and Wise County.

3. In view of the apparent need for a local broadcast service in Bridgeport and Wise County, we believe consideration of the proposed FM assignment in a rulemaking proceeding would be in the public interest.

4. Comments are invited on a proposal to amend the FM Table of Assignments, § 73.202(b) of the Commission's Rules, for the community listed below as follows:

¹ Public Notice of the petition was given on August 29, 1977 (Rept. No. 1073).

² Population figures are taken from the 1970 U.S. Census.

City	Channel No.	
	Present	Proposed
Bridgeport, Tex.		244A

5. The Commission's authority to institute rule making proceedings; showings required; cut-off procedures; and filing requirements are contained in the attached Appendix and are incorporated herein.

NOTE.—A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assigned.

6. Interested parties may file comments on or before December 12, 1977, and reply comments on or before January 3, 1978.

FEDERAL COMMUNICATIONS
COMMISSION,
WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

APPENDIX

[Docket No. 21457; RM-2941]

1. Pursuant to authority found in Sections 4(i), 5(d)(1), 303 (g) and (i), and 307(b) of the Communications Act of 1934, as amended, and § 0.281(b) (6) of the Commission's Rules, it is proposed to amend the FM Table of Assignments, Section 73.202(b) of the Commission's Rules and Regulations, as set forth in the Notice of Proposed Rule Making to which this Appendix is attached.

2. Showings required Comments are invited on the proposal(s) discussed in the Notice of Proposed Rule Making to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponents of a proposed assignment is also expected to file comments even if it only re-submits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build the station promptly. Failure to file may lead to denial of the request.

3. **Cut-off procedures.** The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of Commission Rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this Notice, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If filed later than that, they will not be considered in connection with the decision in this docket.

4. **Comments and reply comments; service.** Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's Rules and Regulations, interested parties may file comments and reply comments on or before the dates set forth in the Notice of Proposed Rule Making to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or

other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420 (a), (b) and (c) of the Commission Rules.)

5. **Number of copies.** In accordance with the provisions of § 1.420 of the Commission's Rules and Regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. **Public inspection of filings.** All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street NW., Washington, D.C.

[Docket No. 21425; RM-2942]

**FM BROADCAST STATION IN
CHATOM, ALABAMA**

Proposed Changes in Table of Assignments
AGENCY: Federal Communications Commission.

ACTION: Notice of proposed rule making.

SUMMARY: Assignment of a Class A FM channel is proposed for Chatom, Ala. The channel assignment would provide for a first local aural broadcast station.

DATES: Comments must be received on or before December 12, 1977, and reply comments on or before January 3, 1978.

ADDRESSES: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

Mildred B. Nesterak, Broadcast Bureau 202-632-7792.

SUPPLEMENTARY INFORMATION:

In the matter of amendment of § 73.202 (b), Table of Assignments, FM Broadcast Stations. (Chatom, Ala.); notice of proposed rule making.

Adopted: October 25, 1977.

Released: October 28, 1977.

By Chief, Broadcast Bureau:

1. Petitioner, Proposal, Comments.

(a) Notice of Proposed Rule Making is given concerning amendment of the FM Table of Assignments § 73.202(b) of the Commission's Rules as it relates to Chatom, Ala.

(b) Petition for rule making¹ was filed on behalf of Washington County Broadcasters ("petitioner"), seeking the assignment of Channel 276A to Chatom,

¹ Public Notice of the petition was given on August 29, 1977 (Rept. No. 1073).

APPENDIX

[Docket No. 21456, RM-2909]

Ala., as its first FM assignment. No responses to the petition have been received.

(c) Channel 276A could be assigned to Chatom in conformity with the minimum distance separation requirements provided the transmitter site is located 3.2 kilometers (2 miles) east of the community. Petitioner states that, if the channel is assigned, it will proceed rapidly to apply for a construction permit and, if granted, will move to construct and begin operation with the facilities authorized.

2. Community Data.

(a) *Location.* Chatom, seat of Washington County, is located approximately 84 kilometers (52 miles) north of Mobile, Ala.

(b) *Population.* Chatom—1,059; Washington County—16,241.²

(c) *Local Broadcast Service.* There is no local aural broadcast service in Chatom.

(d) *Economic Data.* Petitioner submitted information from the Utilities Division of Public Service Department, the U.S. Census and the Basic Labor Market Information—Research and Statistics, which indicates a level of manufacturing and other business activity in the county which would appear to provide an adequate base for the proposed station.

4. Petitioner asserts that the proposed assignment would provide Chatom and Washington County with local news, educational programs (especially during evening hours when maximum audience is available), farm programs, public interest issues and many other services.

5. In light of the above information and the fact that the proposed FM station could provide the community with a first full-time local broadcast service, the Commission believes it appropriate to propose amending the FM Table of Assignments, Section 73.202(b) of the Rules, with regard to Chatom, Ala., as follows:

City	Channel No.	
	Present	Proposed
Chatom, Ala.		276A

6. Authority to institute rule making proceedings; showings required; cut-off procedures; and filing requirements are contained in the attached Appendix and are incorporated herein.

NOTE.—A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assigned.

7. Interested parties may file comments on or before December 12, 1977, and reply comments on or before January 3, 1978.

FEDERAL COMMUNICATIONS
COMMISSION,
WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

² Population figures are taken from the 1970 U. S. Census.

[6712-01]

[47 CFR Part 73]

[Docket No. 21428; RM-2883]

FM BROADCAST STATION IN KEARNEY, NEBRASKA

Proposed Changes in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Notice of Proposed Rulemaking.

SUMMARY: Action taken herein proposes the assignment of Channel 290 to Kearney, Nebraska, as a second Class C assignment and the deletion of Channel 272A for which no interest has been shown. Petitioner, Central Nebraska Broadcasting, Inc., states that the proposed station would provide substantial first and second FM service.

DATES: Comments must be received on or before December 12, 1977, and reply comments on or before January 3, 1978.

ADDRESSES: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

Mildred B. Nesterak, Broadcast Bureau, 202-632-7792.

SUPPLEMENTARY INFORMATION:

In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations. (Kearney, Nebraska); notice of proposed rule making.

Adopted: October 26, 1977.

Released: November 1, 1977.

By the Chief, Broadcast Bureau: 1. Petitioner, Proposal, Comments: (a) Notice of proposed rule making is hereby given concerning amendment to the FM Table of Assignments, Section 73.202(b) of the Commission's Rules, regarding the assignment of Class C Channel 290 to Kearney, Nebraska.

(b) The petition was filed by Central Nebraska Broadcasting, Inc. ("petitioner"), licensee of AM Station KGFW (Class IV), Kearney, Nebraska. No responses to the petition were filed.¹

(c) Petitioner states that, if the channel is assigned, it will proceed to establish and operate an FM station as indicated in its petition.

2. *Demographic Data:* (a) *Location.* Kearney, seat of Buffalo County, is located in south central Nebraska, approximately 64 kilometers (40 miles) southwest of Grand Island, Nebraska.

(b) *Population.* Kearney, 19,181; Buffalo County, 31,222.²

(c) *Local Aural Broadcast Service.* Kearney is presently served by Station KRNY-FM, Channel 255; daytime-only AM Station KRNY and full-time AM Station KGFW, which is licensed to pe-

¹ Public Notice was given of the petition on May 17, 1977 (Rept. No. 1047).

² Population figures are taken from the 1970 U.S. Census.

[FR Doc. 77-32225 Filed 11-4-77; 8:45 am]

tion. Channel 272A is assigned to Kearney but there has been no expression of interest in its use.

3. *Economic Data.* Petitioner states that Kearney has had a rapid growth in the last 10-20 years with the city population increasing 21% between 1960-1970. It notes that Kearney is basically an agricultural community but over the years has attracted substantial industry with the county's work force now numbering 16,020 persons. It adds that the assessed valuation of Kearney is \$34,459,100. Petitioner has furnished sufficient information regarding social, governmental and economic factors to warrant considering Kearney's need for a second Class C channel. As indicated below, under these circumstances there appears to be no need to maintain the existing Class A assignment.

4. *Preclusion Studies.* Fifteen communities² with populations greater than 2,000 persons, and which have no local aural broadcast service, would be precluded if Channel 290 were assigned to Kearney. Petitioner shows that alternate channels are available to these communities should the need arise.

5. *Additional Considerations:* Petitioner states that the proposed assignment would allow it not only to remain competitive, but, far more important, it would enable it to properly serve the public and a very substantial audience not adequately reached by any other radio station. In a Roanoke Rapids³ showing, petitioner indicates that a station operating with 100 kilowatts at 305 meters (1,000 feet) HAAT would provide a first FM service to 8,585 persons in an area of 1,549 square kilometers (597 square miles) and a second FM service to 33,646 persons in an area of 4,033 square kilometers (1,550 square miles). However, the petitioner has not indicated what portions of these areas and populations would receive first or second aural service. Petitioner should submit the necessary data concerning such service. (See Anamosa-Iowa City, Iowa, 46 FCC 2d 520 (1974).)

6. In view of the fact that the proposed assignment would provide a first and second FM (and possibly, aural) service to additional and substantial areas, and that present intermixture of channel assignments would be eliminated, we believe that consideration of the proposal is warranted. Accordingly, the Commission proposes to amend the FM Table of Assignments (§ 73.202(b) of the Commission's Rules) with regard to the city listed below, as follows:

² Nebraska. Orleans (pop. 2,439); Red Cloud (2,195); St. Paul (2,026); Minden (2,669); Gothenburg (3,154); Central City (2,813); Kansas. Hill City (2,071); Ellis (2,137); Wakeeney (2,334); Ellsworth (2,080); Smith Center (2,389); Oberlin (2,291); Horton (3,677); Plainville (2,667); Beloit (4,121).

³ Roanoke Rapids-Goldsboro, N.C., 9 F.C.C. 2d 672 (1967).

City	Channel Nos.	
	Present	Proposed
Kearney, Nebr.	255, 272A	255, 290

7. The Commission's authority to institute rule making proceedings; showings required; cut-off procedures; and filing requirements are contained in the attached Appendix and are incorporated herein.

NOTE.—A showing of continuing interest is required by paragraph 2 of the Appendix before a channel will be assigned.

8. Interested parties may file comments on or before December 12, 1977, and reply comments on or before January 3, 1978.

FEDERAL COMMUNICATIONS
COMMISSION,
WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

APPENDIX

[Docket No. 21456 RM-2909]

1. Pursuant to authority found in Sections 4(1), 5(d)(1), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended, and § 0.281(b) (6) of the Commission's Rules, it is proposed to amend the FM Table of Assignments, § 73.202(b) of the Commission's Rules and Regulations, as set forth in the Notice of Proposed Rule Making to which this Appendix is attached.

2. *Showings required.* Comments are invited on the proposal(s) discussed in the Notice of Proposed Rule Making to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only re-submits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build the station promptly. Failure to file may lead to denial of the request.

3. *Cut-off procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of Commission Rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this Notice, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If filed later than that, they will not be considered in connection with the decision in this docket.

4. *Comments and reply comments; service.* Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's Rules and Regulations, interested parties may file comments and reply comments on or before the dates set forth in the Notice of Proposed Rule Making to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be

served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420 (a), (b) and (c) of the Commission Rules.)

5. *Number of copies.* In accordance with the provisions of Section 1.420 of the Commission's Rules and Regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public inspection of filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, NW., Washington, D.C.

[47 CFR Part 73]

[Docket No. 21456; RM-2909]

FM BROADCAST STATION IN WALLA WALLA, WASHINGTON

Proposed Changes in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Notice of proposed rule making.

SUMMARY: Action taken herein proposes the assignment of a third FM channel to Walla Walla, Washington. Petitioner, VBR Broadcasters, states that the proposed station would provide significant first and second FM service as well as first and second aural nighttime service to substantial areas.

DATES: Comments must be received on or before December 12, 1977, reply comments on or before January 3, 1978.

ADDRESSES: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT:

Mildred B. Nesterak, Broadcast Bureau, 202-632-7792.

SUPPLEMENTARY INFORMATION:

In the matter of amendment of § 73.202(b) Table of Assignments, FM Broadcast Stations (Walla Walla, Washington); notice of proposed rule making.

Adopted: October 26, 1977.

Released: November 1, 1977.

By the Chief, Broadcast Bureau: 1. The Commission has before it for consideration the above-captioned petition¹ for rule making filed on March 17, 1977, by VBR Broadcasters ("VBR"), licensee of AM Station KUJ, Walla Walla, Washington, which requests the assignment

¹ Public Notice was given of the petition on June 28, 1977 (Report No. 1058).

of Class C Channel 239 to Walla Walla, Washington. A supplement to the petition was filed on June 15, 1977. Channel 239 could be assigned to Walla Walla in conformity with the minimum separation requirements. An opposition to the petition was filed by STL, Inc. ("STL"), licensee of daytime-only Station KHIT and permittee of FM Station KHXT (Channel 246),² Walla Walla, Washington.

2. Walla Walla (pop. 23,619), seat of Walla Walla County (pop. 42,176,³ is located in the southeastern corner of Washington State, approximately 338 kilometers (210 miles) east of Portland, Oregon. Two FM channels (both Class C and both occupied), are presently assigned to Walla Walla. The community has three AM stations—two full-time, and one daytime-only. The daytime-only AM station (KHIT) operates in conjunction with an FM station (KSXT). VBR, the licensee of one of the two full-time AM stations, states that, if Channel 239 is assigned to Walla Walla, it will apply for its use specifying maximum facilities.

3. VBR states that the populations of Walla Walla and Walla Walla County are growing and it notes that the county's recorded retail sales, which were \$76,951,000 in 1970, had increased to \$102,066,000 by 1973. We are told that Walla Walla is the retail, medical, trade and professional center of southeastern Washington and northeastern Oregon. VBR asserts that the economy of the Walla Walla Valley is continually thriving, with agriculture and related agribusiness creating a sound year-round economic base. It states that, in addition to the world's largest vineyards, cattle, sheep, poultry and dairying contribute to this large and prosperous farming community. VBR claims that from the site once occupied by UHF-TV Station KNBS, the proposed station, operating with maximum power,⁴ would serve an area of approximately 19,684 square kilometers (7,600 square miles) and a population of approximately 180,000. It contends that of this area, approximately 60 percent is unserved by any FM station currently on the air.

4. In its opposition, STL argues that VBR has shown no reason why the Commission's population and other guidelines for assignment of FM channels should be ignored in this particular case. It contends that a showing by VBR that agriculture is very important to the economic health of Walla Walla County and the county's gross income has risen is not enough to support the addition of a third FM channel. Moreover, STL claims that the whole area that VBR proposes to serve has not grown significantly in the past twenty to thirty years and that Walla Walla's growth in that

period was 2%. STL claims that VBR used vague generalities about population in the service area and estimated coverage. It disagrees with VBR's proposed coverage statement, asserting that its AM daytime-only station, KHIT, provides a service to a majority of the population that the Channel 239 would serve. It also asserts that VBR did not fully respond to the Commission's request for a showing of expected coverage and the area and population that would be receiving first and second FM service based upon the assumption of reasonable facilities in claiming that, if all known pending applications are granted, the proposed assignment would provide a second FM service to approximately 20% of the area covered and a first service to 4 or 5%. Rather, STL points out that VBR's engineering statement shows only 433 persons would receive a first FM service and only 6,229 people would receive a second aural service. Assuming that these figures are correct and using VBR's largest number (15,874 persons who would receive a second FM service), STL contends that a second FM service would be provided to only approximately 3.8% of the potential service area; a second aural service would be provided to only 3.46% of VBR's estimated service area and that those persons which would receive a first service would comprise only 0.24% of the estimated service area. STL asserts that these figures are most likely inflated since VBR has not taken into consideration in its calculation Channel 235 which is assigned to Richland.

5. In response, VBR asserts that STL does not like the prospect of a third FM channel in the community. It contends that STL would have the Commission believe that Walla Walla is a disaster area when it is really enjoying substantial business and growth. VBR submits statistical information taken from the Walla Walla Chamber of Commerce January 1977 Report which indicates the economic growth of Walla Walla. It argues that STL has drawn an erroneous set of conclusions as to the engineering presented in the petition and the supplement thereto. VBR points out that the area to receive first FM service is 926 square kilometers (356 square miles), which is 4.58% of the total service area of 20,121 square kilometers (7,765 square miles), and the area anticipated to receive a second FM service is 3,546 square kilometers (1,369 square miles), which is 17.6% of the total area of 20,121 square kilometers (7,765 square miles), which is approximately 20%. VBR contends that STL fails to make a distinction between statements about area and statements about population. It claims that STL is in error when it states that Channel 235 in Richland was not considered, pointing out that its engineering statement clearly establishes that Channel 235 coverage from the only realistically available site would be indistinguishable from Station KONA(FM) in Kennewick, Washington, and thus was not a relevant consideration. It is noted that STL's allegation concerning the Channel 235 station is

based on erroneous interpretation of VBR's exhibit on the preclusion study for Channel 236.

6. *Preclusion Studies.* Preclusion would occur on Channels 237A, 239 and 240A as a result of the proposed assignment. Four communities of over 2,000 population with no commercial FM channel assignments (College Place (pop. 4,510), Pasco (13,902), Grandview (3,605), Wash.; and Milton-Freewater (4,105), Oreg.), would be precluded. College Place and Milton-Freewater are located within the Walla Walla urban area, and Pasco is part of the Pasco-Kennewick-Richland urban area of Washington State. VBR states it believes Channel 265A could be assigned to Grandview with proper siting of the station.

7. *Additional Consideration.* VBR claims that Channel 239 would provide first FM and first nighttime aural service to 433 persons in a 926 square kilometer (356 square miles) area, a second FM service to 15,874 persons in a 3,546 square kilometer (1,369 square miles) area, and a second nighttime aural service to 6,229 persons in a 3,487 square kilometer (1,341 square miles) area. VBR argues that the service to the agricultural and rural areas which are unserved and underserved, takes on compelling significance.

8. The request for a third FM assignment to a community of 23,619 persons exceeds the FM population guidelines. However, in view of VBR's showing that the proposed assignment would serve additional and substantial areas of which some are unserved and underserved, we believe that consideration of the proposal described above is warranted. It should be noted that this proposal is contingent upon the Commission's obtaining approval of the Canadian Government.

9. In light of the foregoing, the Commission proposes to amend the FM Table of Assignments, § 73.202(b) of the Commission's Rules, with regard to Walla Walla, Wash., as follows:

City	Channel Nos.	
	Present	Proposed
Walla Walla, Wash.	227, 246	227, 230, 246

10. The Commission's authority to institute rule making proceedings; showings required; cut-off procedures; and filing requirements are contained in the attached Appendix and are incorporated herein.

NOTE.—A showing of continuing interest is required by paragraph 2 of the attached Appendix before a channel will be assigned.

11. Interested parties may file comments on or before December 12, 1977, and reply comments on or before January 3, 1978.

FEDERAL COMMUNICATIONS
COMMISSION,
WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

APPENDIX

[Docket No. 21456; RM-2909]

1. Pursuant to authority found in Sections 4(o), 5(d)(1), 303 (g) and (r), and 307(b)

² Program test authority was granted on August 17, 1977.

³ Population figures are taken from the 1970 U.S. Census unless otherwise indicated.

⁴ 100 kilowatts and 405 meters (1330 feet) HAAT.

of the Communications Act of 1934, as amended, and § 0.281(b) (6) of the Commission's Rules, it is proposed to amend the FM Table of Assignments, § 73.202(b) of the Commission's Rules and Regulations, as set forth in the Notice of Proposed Rule Making to which this Appendix is attached.

2. *Showings required.* Comments are invited on the proposal(s) discussed in the Notice of Proposed Rule Making to which this Appendix is attached. Proponent(s) will be expected to answer whatever questions are presented in initial comments. The proponent of a proposed assignment is also expected to file comments even if it only re-submits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build the station promptly. Failure to file may lead to denial of the request.

3. *Cut-off procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of Commission Rules.)

(b) With respect to petitions for rule making which conflict with the proposal(s) in this Notice, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as long as they are filed before the date for filing initial comments herein. If filed later than that, they will not be considered in connection with the decision in this docket.

4. *Comments and reply comments; service.* Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's Rules and Regulations, interested parties may file comments and reply comments on or before the dates set forth in the Notice of Proposed Rule Making to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420 (a), (b) and (c) of the Commission Rules.)

5. *Number of copies.* In accordance with the provisions of Section 1.420 of the Commission's Rules and Regulations, an original and four copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public inspection of filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street NW., Washington, D.C.

DEPARTMENT OF TRANSPORTATION

National Highway Traffic Safety
Administration

[49 CFR Parts 575 and 581]

[Docket Nos. 73-19, 74-11; Notices 21, 24]

BUMPER STANDARD

Damageability Requirements and
Consumer Information

AGENCY: National Highway Traffic
Safety Administration, DOT.

ACTION: Termination of Rulemaking
Proceeding.

SUMMARY: This notice withdraws the three proposed alternative amendments to Part 581, Bumper Standard, which would have delayed implementation of the standard's Phase II requirements (42 FR 30655). Two of the alternatives would also have established a consumer information program on bumper damageability. An analysis of the comments presented at a public hearing on the notice and submitted to the docket indicates that a delay in the implementation of Phase II is not justified. Thus, the Phase II requirements of Part 581 will be implemented on September 1, 1979, as is currently prescribed in the rule.

EFFECTIVE DATE: November 7, 1977.

FOR FURTHER INFORMATION CON-
TACT:

Mr. Nelson Gordy, Office of Crash-
worthiness, Motor Vehicle Programs,
NHTSA, 400 Seventh Street, SW.,
Washington, D.C. 20590, 202-426-1740.

SUPPLEMENTARY INFORMATION: On June 16, 1977, the National Highway Traffic Safety Administration (NHTSA) published a notice (42 FR 30655) proposing three alternative amendments to Part 581, Bumper Standard. One of the alternatives was a reissuance of a proposed amendment published on February 24, 1977 (42 FR 10862). That proposal, originally issued by former NHTSA Administrator John Snow, was in response to petitions for reconsideration from Ford and General Motors (GM) concerning the final rule establishing Part 581 (41 FR 9346; March 4, 1976). It suggested delaying implementation of the Phase II bumper requirements for 1 year until September 1, 1980. Ford requested a 1 year delay in order to enable it to accomplish simultaneously the design changes necessary for compliance with the bumper standard and the fuel economy standards issued under the Energy Policy and Conservation Act (Pub. L. 94-163). GM requested a delay in the implementation date in order to alleviate costs relating to research, design, development, and tooling which allegedly would occur by imposing two sets of bumper requirements (Phase I and Phase II) only one year apart.

The second proposed alternative combined the previously proposed 1-year delay in Phase II (Alternative I) with a consumer information program on bumper damageability. The consumer information program, which would have become effective September 1, 1978, and remain in effect until September 1, 1980, would have given consumers information on the level of bumper damage incurred during 5 mph tests and the cost to repair such damage. Insurance information would have been provided beginning with the second year of the program. The purpose behind the proposed consumer information program was to enable consumers to base their car-buying choices on what they perceived to be satisfactory bumper system performance.

The third proposed alternative would have delayed indefinitely implementation of Phase II of the bumper requirements and would have implemented, beginning September 1, 1978, the same consumer information program as proposed in Alternative II. The consumer information program would have remained in effect until such time as the Phase II requirements were implemented. The proposed delay was in acknowledgment of the major requirements with which motor vehicle manufacturers will be required to comply in the early 1980's. The agency considered it advisable to examine the impact of compliance with a cost savings standard on satisfaction of other critical requirements scheduled to become effective in the early 1980's.

Comments were received from representatives of the automobile industry, the insurance industry, several consumer organizations, and a number of private citizens. The insurance industry and all of the consumer groups except Consumers Union urged withdrawal of the proposal and supported implementation of Phase II on its scheduled September 1, 1979, effective date. All of the motor vehicle manufacturers that commented supported at least a 1-year delay in the implementation of Phase II.

The primary reason expressed by manufacturers for requesting a delay in the Phase II effective date was that more than 1 year was preferable between Phase I and Phase II requirements to permit distribution of tooling costs for compliance with Phase I. Some of the manufacturers specifically objected to the 1979 effective date for Phase II because some of their models are to be discontinued in 1980, which would mean those vehicles would have to be equipped with the higher performance Phase II bumper systems for only 1 year.

The agency does not find these objections meritorious. Given that the Part 581 requirements have been final since March 1976, manufacturers have had considerable time to determine the most economical way to comply with the standard's implementation schedule. Although the standard has two performance levels which may be met by a phase-

in approach, there is no requirement that a manufacturer refrain from meeting Phase II until its mandatory effective date.

Having considered the issues covered by the June NPRM, the agency has thoroughly examined all matters relating to the implementation of Part 581. Most of the significant issues concerning the standard were addressed in the notice responding to petitions for reconsideration of the standard (42 FR 24056; May 12, 1977). The few remaining points, which had not previously been closely examined were raised in the June notice. Information submitted in response to that notice has enabled the agency to finally resolve these remaining outstanding matters.

The NHTSA has concluded that any delay in the currently prescribed implementation schedule is not justified. In-

formation gathered by the agency indicates clearly that consumers will benefit from bumper systems that meet the Phase II requirements of the standard. This is precisely what the agency was ordered by Congress to accomplish with a bumper standard. Although manufacturers may be able to reduce slightly the cost of compliance with the Phase II requirements by a delay in the effective date, the costs associated with compliance are so small as to not justify further denial to the public of the benefits available under the standard. Information submitted by the automobile manufacturers indicates that consumers will have to pay on the average of \$6-\$10 more for a vehicle equipped with Phase II bumpers than they will for a vehicle with Phase I bumpers. This cost increase is considered insignificant in light of the benefits that can be expected to accrue

as a result of the implementation of Phase II.

In consideration of the foregoing, the June notice proposing 3 alternative amendments to Part 581 is hereby withdrawn and the currently prescribed September 1, 1979, effective date for Phase II remains intact.

The principal authors of this notice are Nelson Gordy, Motor Vehicle Programs, and Karen Dyson, Office of Chief Counsel.

(Secs. 103, 112, 119, Pub. L. 89-563, 80 Stat. 718 (15 U.S.C. 1392, 1401, 1407); Sec. 201, Pub. L. 92-513, 86 Stat. 947 (15 U.S.C. 1941); delegation of authority at 49 CFR 1.50.)

Issued on November 1, 1977.

CIVIL AERONAUTICS BOARD

[Docket 27573, Agreement C.A.B. 26961; Order 77-10-110]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Order Relating to Specific Commodity Rates

Issued under delegated authority October 27, 1977.

In the matter of the agreement adopted by the Joint Traffic Conferences of the International Air Transport Association relating to specific commodity rates.

An agreement has been filed with the Board pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's Economic Regulations between various air carriers, foreign air carriers, and other carriers embodied in the resolutions of the Joint Traffic Conferences of the International Air Transport Association (IATA), and adopted pursuant to the provisions of Resolution 590 dealing with specific commodity rates.

The agreement would add a specific commodity rate with a new commodity description as set forth below, reflecting a reduction from general cargo rates; and was adopted pursuant to unopposed notice to the carriers and promulgated in an IATA letter dated October 11, 1977.

Agreement CAB	Specific commodity item No.	Description and rate
26961	0701	Roots, spices, and extracts thereof 230 kg, minimum weight 1,000 kgs from Addis Ababa to New York.

Pursuant to authority duly delegated by the Board in the Board's Regulations, 14 CFR 385.14, it is not found that the agreement is adverse to the public interest or in violation of the Act, provided that approval is subject to the conditions ordered.

Accordingly, it is ordered, That Agreement C.A.B. 26961 is approved, provided that (a) approval shall not constitute approval of the specific commodity descriptions contained therein for purposes of tariff publications; (b) tariff filings shall be marked to become effective on not less than 30 days' notice from the date of filing; and (c) where a specific commodity rate is published for a specified minimum weight at a level lower than the general commodity rate applicable for such weight, and where a gen-

eral commodity rate is published for a greater minimum weight at a level lower than such specific commodity rate, the specific commodity rate shall be extended to all such greater minimum weights at the applicable general commodity rate level.

Persons entitled to petition the Board for review of this order, pursuant to the Board's Regulations, 14 CFR 385.50, may file such petitions within ten days after the date of service of this order.

This order shall be effective and become the action of the Civil Aeronautics Board unless within such period a petition for review is filed or the Board gives notice that it will review this order on its own motion.

This order will be published in the FEDERAL REGISTER.

PHYLLIS T. KAYLOR,
Secretary.

ANNUAL SURVEYS IN MANUFACTURING AREA

Notice of Consideration

Notice is hereby given that the Bureau of the Census is considering a proposal to continue or initiate the annual surveys listed below for the year 1977 and for each year thereafter, under the authority of title 13, United States Code, sections 182, 224, and 225. These surveys, most of which have been conducted for many years, are significant in the manufacturing area; and on the basis of information and recommendations received by the Bureau of the Census, the data have significant application to the needs of the public and industry and are not available from nongovernmental or other governmental sources.

The establishments covered by these surveys directly account for the bulk of all manufacturing employment. The information to be developed from these surveys is necessary for an adequate measurement of total industrial production. Government agencies need data on the output of these industries. Manufacturers in the industries involved, as well as their suppliers and customers and the general public, have all requested such data in the interest of business efficiency and stability.

Such surveys, if conducted, shall begin not earlier than December 12, 1977.

Report forms in most instances furnishing data on shipments and/or production and in some instances on stocks, unfilled orders, orders booked, consumption, etc., will be required of all or a sample of establishments engaged in the production of the items covered by the following list of surveys.

The surveys have been arranged under major group headings shown in the Standard Industrial Classification Manual (1972 edition) promulgated by the Office of Management and Budget for the use of Federal statistical agencies.

MAJOR GROUP 22—TEXTILE MILL PRODUCTS
Broadwoven goods finished, Narrow fabrics, Yarn production.

MAJOR GROUP 23—APPAREL AND OTHER FINISHED PRODUCTS MADE FROM FABRICS AND SIMILAR MATERIALS

Gloves and mittens, Apparel, Brassieres, corsets, and allied garments.

MAJOR GROUP 24—LUMBER AND WOOD PRODUCTS, EXCEPT FURNITURE

Hardwood plywood, Softwood plywood, Lumber.

MAJOR GROUP 26—PAPER AND ALLIED PRODUCTS

Pulp, and detailed grades of paper and board.

MAJOR GROUP 28—CHEMICALS AND ALLIED PRODUCTS

Sulfuric acid, Industrial gases, Inorganic chemicals, Pharmaceutical preparations, except biologicals.

MAJOR GROUP 29—PETROLEUM REFINING AND RELATED INDUSTRIES

Asphalt and tar roofing and siding products.

MAJOR GROUP 30—RUBBER AND MISCELLANEOUS PLASTIC PRODUCTS

Rubber, Plastics Products.

MAJOR GROUP 31—LEATHER AND LEATHER PRODUCTS

Shoes and slippers (by method of construction).

MAJOR GROUP 32—STONE, CLAY AND GLASS

Consumer, scientific, technical, and industrial glassware. Fibrous glass.

MAJOR GROUP 33—PRIMARY METAL INDUSTRIES

Steel mill products, Insulated wire and cable, Magnesium mill products.

MAJOR GROUP 34—FABRICATED METAL PRODUCTS EXCEPT ORDNANCE, MACHINERY, AND TRANSPORTATION EQUIPMENT

Commercial steel forgings, Steel power boilers, Heating and cooking equipment, Metal cans.

MAJOR GROUP 35—MACHINERY, EXCEPT ELECTRICAL

Internal combustion engines, Tractors, Farm machines and equipment, Mining machinery and equipment, Refrigeration and air-conditioning equipment, including warm air furnaces, Office, computing, and accounting machines, Pumps and compressors, Selected industrial air pollution control equipment, Construction machinery.

MAJOR GROUP 36—ELECTRICAL MACHINERY, EQUIPMENT, AND SUPPLIES

Radios, Televisions, and phonographs, Motors and generators, Wiring devices and supplies, Switchgear, switchboard apparatus, relays, and industrial controls, Selected electronics and associated products, including telephone and telegraph apparatus, Electric housewares and fans, Electric lighting fixtures, Major household appliances.

MAJOR GROUP 37—TRANSPORTATION EQUIPMENT

Aircraft propellers.

MAJOR GROUP 38—PROFESSIONAL, SCIENTIFIC, AND CONTROLLING INSTRUMENTS; PHOTOGRAPHIC AND OPTICAL GOODS; WATCHES AND CLOCKS

Selected instruments and related products, Atomic energy products and services.

The following list of surveys represents annual supplements of monthly and quarterly surveys and will cover the same establishments canvassed in the monthly or quarterly survey. There will be no duplication of reporting, however, since the type of data collected on the annual supplement will be different from that collected in the more frequent surveys.

MAJOR GROUP 32—STONE, CLAY AND GLASS
Glass containers.

The following list of surveys represents annual counterparts of monthly and quarterly surveys and will cover only those establishments which are not canvassed or do not report in the more frequent surveys. Accordingly, there will be no duplication in reporting. The content of these annual reports will be identical with that of the monthly and quarterly reports.

tical with that of the monthly and quarterly reports.

MAJOR GROUP 20—FOOD AND KINDRED PRODUCTS

Flour milling products.

MAJOR GROUP 22—TEXTILE MILL PRODUCTS

Finishing plant report—broadwoven fabrics, Consumption of wool and other fibers, and production of tops and nolls, Carpet and rugs, Knit fabric production.

MAJOR GROUP 23—APPAREL AND OTHER FINISHED PRODUCTS MADE FROM FABRICS AND SIMILAR MATERIALS

Sheets, pillowcases, and towels.

MAJOR GROUP 25—FURNITURE AND FIXTURES

Mattresses and bedsprings.

MAJOR GROUP 26—PAPER AND ALLIED PRODUCTS

Converted flexible packaging products.

MAJOR GROUP 28—CHEMICALS AND ALLIED PRODUCTS

Phosphatic fertilizer materials, Paint, varnish, and lacquer.

MAJOR GROUP 30—RUBBER AND MISCELLANEOUS PRODUCTS

Plastic bottles.

MAJOR GROUP 32—STONE, CLAY AND GLASS

Flat glass, Glass containers, Refractories, Clay construction products.

MAJOR GROUP 33—PRIMARY METAL INDUSTRIES

Nonferrous castings, Iron and steel foundries, Steel inventories (Consumers and Producers Reports), Copper inventories.

MAJOR GROUP 34—FABRICATED METAL PRODUCTS EXCEPT ORDNANCE, MACHINERY, AND TRANSPORTATION EQUIPMENT

Plumbing fixtures, Steel shipping drums and pails, Closures for Containers.

MAJOR GROUP 35—MACHINERY, EXCEPT ELECTRICAL

Construction machinery.

MAJOR GROUP 36—ELECTRICAL MACHINERY, EQUIPMENT AND SUPPLIES

Fluorescent lamp ballasts.

MAJOR GROUP 37—TRANSPORTATION EQUIPMENT

Aircraft engines, Complete aircraft, Backlog of orders for aircraft, space vehicles, missiles, engines and selected parts, Truck trailers.

The annual survey of manufactures will be conducted jointly with the quinquennial census of manufactures and will call for general statistical data such as employment, payroll, manhours, capital expenditures, cost of materials consumed, gross book value of fixed assets, retirements, depreciation, rental payments, supplemental labor costs, value of products exported, etc., in addition to information on the quantity of fuels used. This survey, while conducted on a sample basis, will cover all manufacturing industries including data on plants

under construction but not in operation.

A supplement to the annual survey of manufactures will collect annual sales and unfilled orders data for multi-establishment companies.

A survey of research and development costs will be conducted also. The major data to be obtained will include total research and development costs of work performed by the company, distributed by source of funds, type of expenditures, product field, and of research and geographic State where the research is performed. Data will also be obtained on the number of scientists and engineers employed and, for comparative purposes, total not sales and receipts, and total employment of the company.

A survey on shipments to, or receipts for work done for, Federal Government agencies and their contractors and suppliers is planned to provide information on the impact of Federal procurement on selected industries and on the economy of States, standard metropolitan statistical areas, and geographic regions.

The annual survey of oil and gas will canvass the industry which provides most of the fuel consumed in the United States, as well as a substantial portion of the raw material requirement of many industries. The survey will collect information on exploration, development, and production costs; sales volumes and revenues; drilling; and assets in the crude petroleum and natural gas industry.

The annual survey on pollution abatement expenditures is designed to collect from the manufacturing area total expenditures made by industry and abate pollutant emissions. The survey covers current operating costs and capital expenditures made by industry to reduce pollution in its air, water or solid forms. It will also obtain the costs recovered from abatement activities and quantities of pollutants abated.

The survey of plant capacity will call for general statistical data such as number of shifts, or the number of production workers for actual, preferred and practical operating rates, as well as direct information on the operation rates, the reasons for operating at less than capacity, and the length of time required to reach and to maintain practical rates. The survey will be done on a sample basis and cover all manufacturing industries.

Copies of the proposed forms are available on request to the Director, Bureau of the Census, Washington, D.C. 20233.

Any suggestions or recommendations concerning the subject matter of these proposed surveys should be submitted in writing to the Director of the Bureau of the Census within 30 days after the date of this publication and will receive consideration.

Dated: November 1, 1977.

MANUEL D. PLOTKIN,
Director, Bureau of the Census.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

ADJUSTING IMPORT RESTRAINT LEVELS FOR CERTAIN COTTON, WOOL AND MAN-MADE FIBER TEXTILE PRODUCTS FROM THE REPUBLIC OF KOREA

NOVEMBER 2, 1977.

AGENCY: Committee for the Implementation of Textile Agreements.

ACTION: (1) Granting increases for flexibility in Categories 9/10, 18/19 and part of 26 (printcloth), 22/23, 45/46/47, 48, 49, 50/51, 52, 116/117, 120, 121, 124, 219, 221, part of 224 (suits), 228, 229, 234, 235, 237, and 238 for the agreement year which began on October 1, 1976 and extends through December 31, 1977. (2) Reducing the levels of restraint for Categories 116/117, 120, 121, 219, 221, part of 224 (suits), 229, 235, 237, 238, to account for carryforward used during the twelve-month period which began on October 1, 1975.

SUMMARY: Paragraphs 5(b) and 7(a) (1) of the Bilateral Cotton, Wool and Man-Made Fiber Textile Agreement of June 26, 1975, as amended and extended, between the Governments of the United States and the Republic of Korea provide, respectively, for percentage increases in certain specific category ceilings for flexibility during an agreement year and for the borrowing of yardage from the succeeding year's levels, such amounts to be deducted from the affected category limits in the succeeding year. Pursuant to the foregoing paragraphs of the bilateral agreement, the import restraint levels for Categories 9/10, 18/19 and part of 26 (printcloth), 22/23, 45/46/47, 48, 49, 50/51, 52, 116/117, 120, 121, 124, 219, 221, 224 part (suits), 228, 229, 234, 235, 237, and 238 are being adjusted for the fifteen-month period which began on October 1, 1976 and extends through December 31, 1977.

EFFECTIVE DATE: November 2, 1977.

FOR FURTHER INFORMATION CONTACT:

Robert C. Woods, International Trade Specialist, Office of Textiles, U.S. Department of Commerce, Washington, D.C. 20230, 202-377-5423.

SUPPLEMENTARY INFORMATION: On October 1, 1976 and October 3, 1977 letters from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs were published in the *FEDERAL REGISTER* (41 FR 43440 and 42 FR 53652), which established import restraint levels for certain specified categories of cotton, wool and man-made fiber textile products, produced or manufactured in the Republic of Korea and exported to the United States during the twelve-month period which began on October 1, 1976 and was subsequently extended three months, through December 31, 1977.

In the letter published below the Commissioner of Customs is directed, in accordance with the provisions of the bilateral agreement to adjust the fifteen-month levels of restraint previously established for Categories 9/10, 18/19 and part of 26 (printcloth), 22/23, 45/46/47, 48, 49, 50/51, 52, 116/117, 120, 121, 124, 219, 221, part of 224 (suits), 228, 229, 234, 235, 237, and 238 to the designated amounts.

ROBERT E. SHEPHERD,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources and Trade Assistance, U.S. Department of Commerce.

COMMISSIONER OF CUSTOMS,
Department of the Treasury,
Washington, D.C.

NOVEMBER 2, 1977.

DEAR MR. COMMISSIONER: On September 29, 1976, the Chairman, Committee for the Implementation of Textile Agreements, directed you to prohibit entry for consumption or withdrawal from warehouse for consumption during the twelve-month period beginning on October 1, 1976 and extending through September 30, 1977 of cotton, wool and man-made fiber textile products in certain specified categories, produced or manufactured in Korea, in excess of designated levels of restraint. The Chairman further advised you that the levels of restraint are subject to adjustment.¹ The directive of September 29, 1976 was amended on September 28, 1977 to adjust the levels of restraint to reflect a three-month extension of the agreement from October 1, 1977 through December 31, 1977.

Under the terms of the Arrangement Regarding International Trade in Textiles done at Geneva on December 20, 1973, pursuant to paragraphs 5(b) and 7(a)(1) of the Bilateral Cotton, Wool and Man-Made Fiber Textile Agreement of June 26, 1975, as amended and extended, between the Governments of the United States and the Republic of Korea, and in accordance with the provisions of Executive Order 11651 of March 3, 1972, you are directed to amend, effective on November 2, 1977, the fifteen-month levels of restraint previously established for Categories 9/10, 18/19/26 (printcloth), 22/23, 45/46/47, 48, 49, 50/51, 52, 116/117, 120, 121, 124, 219, 221, part of 224, 228, 229, 234, 235, 237, and 238 to the following amounts:

¹ The term "adjustment" refers to those provisions of the Bilateral Cotton, Wool and Man-Made Fiber Textile Agreement of June 26, 1975, as amended and extended, between the Governments of the United States and the Republic of Korea, which provide, in part, that (1) within the aggregate and applicable group limits, specific levels of restraint may be exceeded by designated percentages; (2) these same levels may be increased for carryover and carryforward up to 11 percent of the applicable category limit; (3) consultation levels may be increased within the aggregate and applicable group limits upon agreement between the two governments; and (4) administration arrangements or adjustments may be made to resolve minor problems arising in the implementation of the agreement.

Category	Amended 15-month levels of restraint ¹
9/10	9,173,856 yd ² .
18/19/26 (printcloth) ²	7,296,172 yd ²
22/23	5,022,881 yd ²
45/46/47	4,292,178 yd ² equivalent.
48	30,436 doz.
49	69,186 doz.
50/51	261,374 doz (of which not more than 138,516 doz shall be in category 50 and not more than 187,485 doz shall be in category 51).
52	95,874 doz.
116/117	609,623 lb.
120	401,361 numbers.
121	252,363 numbers.
124	1,328,276 numbers.
219	5,281,061 doz.
221	3,623,864 doz.
Pt. 224 (only T.S.U.S.A. Nos. 380.0420 and 380.8143).	47,531 doz.
228	1,194,946 doz.
229	977,702 doz.
234	5,194,664 doz.
235	1,906,593 doz.
237	198,722 numbers.
238	283,275 doz.

¹ The levels of restraint have not been adjusted to reflect any imports after Sept. 30, 1976.

² In category 26, the T.S.U.S.A. numbers for printcloth are:

320.—34	322.—34	327.—34
321.—34	326.—34	328.—34

The actions taken with respect to the Government of the Republic of Korea and with respect to imports of cotton, wool and man-made fiber textile products from Korea have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs, being necessary to the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the *FEDERAL REGISTER*.

Sincerely,

ROBERT E. SHEPHERD,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources and Trade Assistance.

DEPARTMENT OF DEFENSE

Department of the Air Force

USAF SCIENTIFIC ADVISORY BOARD

Meeting

OCTOBER 28, 1977.

The USAF Scientific Advisory Board Division Advisory Group, Aeronautical Systems Division, will hold a meeting on December 12-13, 1977, at the Lockheed-Georgia Co., Marietta, Ga.

The Division Advisory Group will receive unclassified briefings on design aspects of the C-5A Wing. These briefings will be open to the public.

For further information contact the Scientific Advisory Board Secretariat at 202-697-8845.

FRANKIE S. ESTEP,
Air Force Federal Register Liaison Officer, Directorate of Administration.

[6560-01]

ENVIRONMENTAL PROTECTION AGENCY

[FRL 812-5; OTS-082001]

TOXIC SUBSTANCES CONTROL ACT Submission of Confidential Business Information

AGENCY: Environmental Protection Agency.

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) will be collecting substantial amounts of information from industry under the Toxic Substances Control Act (TSCA) (15 U.S.C. 2601 et seq.). Some of the information will be claimed as confidential by the businesses submitting it to EPA. EPA is in the process of reviewing its internal security procedures to protect confidential business information against unauthorized disclosure. EPA will adopt procedures for security of confidential business information submitted under TSCA. As part of this process, EPA will be examining data security procedures used by other Federal agencies and by private businesses. EPA would like to receive public comment concerning the issues it will be addressing in this process. EPA will hold a

public meeting on November 18 to discuss the issues raised by this notice with interested members of the public.

DATES: Comments by December 31, 1977. Public meeting on November 18, 1977.

ADDRESSES: Comments to: Federal Register Section, Office of Toxic Substances (WH-557), Attention: Joan Urquhart, Environmental Protection Agency, 401 M Street SW., Washington, D.C. 20460. Comments should bear the identifying notation OTS-082001.

The public meeting on November 18 will be in room 2117, Waterside Mall, 401 M Street SW., Washington, D.C. 9:30 to 3:30. Seating is for 100 people. Space may be reserved by calling Ms. Joan Urquhart at 202-755-2890. Remaining space will be on a first come, first served basis. The lunch break will be for 1½ hours.

FOR FURTHER INFORMATION CONTACT:

Mr. Kenneth Olsen, 202-755-2890.

SUPPLEMENTARY INFORMATION: On March 9, 1977, EPA published in the *FEDERAL REGISTER* (42 FR 13130) proposed inventory regulations to govern reporting of chemical substances for inclusion on an inventory of chemical substances required by section 8(b) of TSCA. On August 2, 1977, EPA re-proposed these regulations (42 FR 39182) expanding the scope of the information that would be collected by EPA. In written comments submitted to EPA and in oral comments presented at a public meeting held on August 24, 1977, in Washington, D.C., representatives of companies that would be reporting information under the proposed inventory regulations expressed concern that there might not be adequate safeguards within EPA to protect against disclosure of confidential business information.

EPA has set up a TSCA Data Security Task Force to examine the non-computer security procedures to be used in protecting confidential business information submitted to EPA under TSCA. The mandate of the Task Force is to look at security procedures for confidential data that has been reduced to hard copy. The work of the Task Force begins when information is received by EPA in hard copy form or when information is removed from the computer for use within EPA. This Task Force will not address computer security. However, EPA is well-aware of the concerns of industry regarding computer security and is taking measures to ensure the security of computer processable data. Specifically, measures are being taken by EPA through the Chemical Abstracts Service (CAS) to ensure the security of computer-processed data during the compilation of the initial inventory. Additional information on these procedures will be made available later.

The Task Force has been and will be examining existing security procedures and security procedures used by other Federal agencies and by private businesses. The mandate of the Task Force is to make recommendations concerning what additional security procedures should be adopted to deal with confidential business information submitted under TSCA.

The procedures are expected to be made final by May 1, 1977, which will be sufficiently in advance of the projected completion date of the processing period for the inventory.

In the period following, employees will be trained in the procedures and the systems will be set up and tested before any large-scale flow of information from CAS to EPA occurs. The information received under the inventory reporting regulations will go directly to an EPA office at CAS. CAS will process the hard copy data at a predetermined rate. Current estimates are that the processing will take six to eight months after the end of the initial reporting period. EPA will not begin to obtain routine access to all the inventory data until the end of the processing period. However, EPA is considering the possibility of providing access to a portion of the information as it is processed to search for specific information about specific chemicals or specific companies. However, given the processing rates at CAS, EPA anticipates that the security procedures will be final before this begins. Should any other TSCA information be obtained in the interim, procedures will be specified for its handling.

The Task Force has not made specific decisions concerning security procedures. At this preliminary stage, the Task Force has outlined the issues that it will address in its recommended procedures. The issues are set out below. Because the question of data security is important, the Task Force would like the public to have an opportunity to comment upon those procedures. At this time, the Task Force would like to receive comments concerning the issues outlined below that will be addressed by the Task Force. Are these issues complete? Has the Task Force overlooked any issues? Any comments submitted should address whether the issues are properly stated rather than detailed suggestions for security procedures. At a later date, the Task Force anticipates that it will solicit further comment upon actual proposed procedures. However, at this time, the Task Force is concerned only with the general approach it will take in its work. Written comments should be submitted by December 31, 1977.

The Task Force will also hold a public meeting to discuss the general approach it will take in studying the problem of data security under TSCA and in making recommendations. The public meeting will be held on November 18, 9:30-3:30 room 2117, Waterside Mall. At this public meeting, the Task Force will accept oral comments upon the issues it should address and the approach it should take.

ISSUES UNDER CONSIDERATION BY TASK FORCE

The outline which follows represents the major issues that will be addressed by the Task Force in its study of the problem of data security under TSCA. The Task Force will consider the problems raised by each of these issues and the possible solutions. The Task Force will consider the interests of data security and EPA's TSCA program and TSCA enforcement.

In examining these issues, the Task Force will consider the experiences of other Federal agencies as well as those of private businesses. In particular, the Task Force will examine the security procedures used by other agencies, including the Consumer Product Safety Commission, the Food and Drug Administration, and the Occupational Safety and Health Administration. The Task Force will consider industry criticisms of these procedures, in particular the issues raised in the suit between the Consumer Product Safety Commission and the Chemical Specialties Manufacturers Association.

The following outline of issues is necessarily general, but includes points of concern the Task Force will address. These issues, once resolved by the Task Force, will be the basis for proposed security regulations.

A. PHYSICAL SECURITY

1. How should access to a building that contains confidential business information be controlled?
2. Should the type of building security depend upon the amount of information contained in the building?
3. How should access to a particular office or room that contains confidential business information be controlled?
4. How should information be stored within a room or office?
5. Should the type of security in a particular office vary according to the amount of information stored in the office, the time for which the information is stored, and the use to which the information is put?
6. How should physical security be monitored and enforced?

B. RESPONSIBLE OFFICIALS

1. Who should have the responsibility for implementing the procedures?
2. Should document control officers be appointed? How many? At what level?
3. What qualifications should document control officers have? What authority? What duties?

C. DOCUMENT CONTROL

1. How should copies of confidential business information be controlled?
2. How will employee access and use of confidential documents be controlled?
3. How will copying of confidential documents be controlled?
4. How will destruction of confidential documents be controlled and monitored?
5. Will confidential documents be numbered or coded in some form to facilitate logging?

6. What type of label should be placed on confidential business information to identify it to employees who will handle it?

D. EMPLOYEE CONTROLS

1. What training procedures and/or manuals should be used to train employees in the use of proper security procedures?
2. Should employees be required to execute some form of confidentiality affidavit before they are allowed access to confidential TSCA data?
3. How should the Agency handle the problem of employees who have had access to confidential information and who are leaving the Agency for jobs in other agencies, private industry, or as consultants or for retirement?

E. TRANSMISSION OF DATA

1. How should EPA transmit confidential data from one EPA installation to another?
2. Who should have responsibility to control and monitor transmission of information?
3. How should field office access be controlled?

F. ACCESS AND DISTRIBUTION PROCEDURES

1. Where should TSCA data be stored?
2. How do EPA employees and offices with a need to know gain access to the information?
3. Who makes final decisions concerning access and need to know?
4. Once one employee or office has obtained copies of confidential information, how does the Agency control further dissemination of that information by the employee either by way of copies or by way of inclusion of confidential information in new documents created by the employee?
5. What restrictions should be imposed on the discussion of confidential information in public places, at meetings, or over the telephone?

G. FURNISHING INFORMATION TO OTHER FEDERAL AGENCIES

1. What constraints, if any, should EPA impose on other agencies receiving TSCA data as far as security procedures?
2. What officers in EPA should control the furnishing of information to other Federal agencies?

H. FURNISHING INFORMATION TO CONTRACTORS

1. What physical security arrangements should be required for EPA contractors using TSCA data?
2. What offices in EPA should control followed by contractors?
3. What affidavits or agreements should contractors and their employees be required to sign?

I. TREATMENT OF VIOLATIONS OF PROCEDURES

1. What remedies should EPA pursue if an employee violates procedures but the violation does not result in disclosure of confidential information?
2. What remedies should EPA pursue if an employee violates the procedures

and the violation results in disclosure of confidential information?

3. What remedies should EPA pursue if an employee of another Federal agency discloses confidential TSCA information?

4. What remedies should EPA pursue if an EPA contractor or its employees discloses confidential TSCA information?

5. Should there be surprise audits?

J. SECURITY RISK ASSESSMENT

EPA intends to take all reasonable measures to ensure the security of con-

fidential information. EPA has a finite amount of money, personnel, and other resources to devote to this task. How shall EPA use available resources to ensure the highest possible degree of security consistent with its mandate to implement TSCA?

Dated: November 1, 1977.

STEVEN D. JELLINEK,
Assistant Administrator,
for Toxic Substances.

AMERICAN TELEPHONE & TELEGRAPH CO.

Wide Area Telecommunications Service

Adopted: October 27, 1977.

Released: October 31, 1977.

In the matter of American Telephone & Telegraph Co. (long lines department) (Transmittal No. 12745), revisions to tariff FCC No. 259, wide area telecommunications service (WATS).

In the matter of American Telephone & Telegraph Co. (long lines department) (Docket No. 21402), wide area telecommunications service (WATS).

1. In a Memorandum Opinion and Order (Order) released August 12, 1977, FCC 77-529, the Commission rejected in part AT&T's proposed WATS tariffs filed under Transmittal No. 12745 and directed AT&T to file certain time schedules, methodologies and other study proposals relating to WATS services, within 30 days after a conference with the Bureau staff. See Order, FCC 77-529 at paras. 126, 127, and 129. Such a conference was held on September 8, 1977. In view of the fact that it has filed a petition for clarification and modification of certain aspects of the Order, which it alleges may bear on the need for and content of future staff conferences and the time necessary to make the required WATS filings, AT&T re-

quests in a motion filed October 12, 1977, that the filing requirements of paras. 126, 127, and 129 of the Order be deferred pending further order of the Commission on reconsideration petitions.

2. With respect to the Notice of Inquiry in Docket No. 21402, FCC 77-653, released September 26, 1977, wherein the Commission is considering the legal issue of whether or not WATS services are "like services" to Message Telecommunications Service (MTS) within the meaning of section 202(a) of the Act, AT&T requests in a motion filed October 12, 1977, that the time for filing comments and reply comments (November 4 and 25, 1977, respectively) be extended until such time as the Commission has acted on AT&T's October 12, 1977, Petition for Modification of Procedures in Docket No. 21402. Further, it contends that in no event should such comments and reply comments be required to be filed earlier than August 4, 1978, and August 25, 1978, respectively. With respect to the need for establishing the August 1978 filing dates, AT&T asserts that it must undertake "comprehensive empirical studies which will require the gathering, analysis, and synthesis of massive amounts of raw data" bearing on the issues designated for hearing in Docket No. 21402. In support of its motion, AT&T also relies on certain arguments made in its Petition for Modification of Procedures. In such Petition it asserts basically that a single,

full evidentiary hearing should be conducted as to the appropriateness of the tariff filing to be made pursuant to the Commission's rejection Order, which should include the consideration of the "like service" issues. This is preferable, AT&T claims, to setting the "like service" issues for separate hearing under the notice and comment procedures in Docket No. 21402.

3. Turning first to AT&T's motion requesting deferral of certain filing dates specified in our Order, FCC 77-529 at paras. 126, 127, and 129, we shall grant the requested relief. Pending Commission action on AT&T's petition for clarification or modification of the Order, which may impact the need for and content of Bureau-AT&T meetings and affect tariff filing dates, it is reasonable to defer the aforementioned filing requirements. As to AT&T's motion for deferral of the filing dates for comments and reply comments in Docket No. 21402, we think good cause has been shown for a temporary deferral to permit the Commission an opportunity to rule on AT&T's Petition for Modification of Procedures in Docket No. 21402. For this limited purpose a deferral shall be granted from November 4, 1977, to December 23, 1977, for the filing of comments, and from November 25, 1977, to January 27, 1978, for the filing of reply comments. This deferral should not be construed as relieving AT&T or any interested parties of their

obligation to respond fully to the designated issues on the revised filing dates in the event the Commission subsequently denies AT&T's Petition for Modification of Procedures.

4. Accordingly, it is ordered, That pursuant to sections 0.291 and 0.303 (c), (f), and (g) of the Commission's Rules, 47 CFR §§ 0.291 and 0.303 (c), (f), and (g), the filing requirements in paras. 126, 127, and 129 of the Commission's Order, FCC 77-529, are hereby deferred pending further Commission order.

5. It is further ordered, That pursuant to the sections of the Commission's Rules cited at para. 4 above, the dates specified for filing comments and reply comments in Docket No. 21402, FCC 77-653 at para. 8, are extended from November 4 and 25, 1977, respectively, to December 23, 1977, and January 27, 1978, respectively.

WALTER R. HINCHMAN,
Chief, Common Carrier Bureau.

[6712-01]

[Docket No. 21422]

AUXIER CABLEVISION

Order To Show Cause

Adopted: October 21, 1977.

Released: November 2, 1977.

1. This is a matter which originated with the Cable Television Bureau's Cable Complaint Service. During the past two years the Commission has received numerous subscriber complaints regarding the service rendered by Auxier Cablevision, a cable television system at Auxier, Ky.

2. James H. Daniels, owner, described the cable television system in a letter to the Commission dated December 15, 1975 as serving 300 subscribers in Floyd County, Ky. Mr. Daniels obtained full ownership of the system at a court auction in July, 1975. He had owned an interest in the facility since 1966, although he states he was excluded from participating in its operation. He stated then his belief that the system must be rebuilt in order to comply with the Commission's technical standards, and that reconstruction had begun.

3. Having no record of the cable system, the Commission's staff made further inquiry by letter of March 22, 1976. Mr. Daniel's letter of response dated April 8, 1976 indicated, in part, that the cable system serves subscribers from one headend and has a capacity of five channels. Further, he stated his belief that the cable system was grandfathered, that the FCC annual reports were in the process of being prepared, but that reconstruction efforts had been delayed. The letter also requested relief from compliance with the Commission's technical standards until rebuilding was completed. Another letter from the staff in July of 1976 requested information about signal carriage and advised the cable system that the Commission had

received numerous complaints from subscribers regarding the quality of reception and maintenance.

4. Thereafter, by letter dated May 24, 1977, the staff of the Commission requested that Auxier Cablevision show that its cable television system complies with the Commission's technical standards, in accordance with Section 76.601 of the Commission's Rules. Further, Auxier Cablevision was requested to file annual reports as required by Subpart I of Part 76 of the Rules. The staff advised Auxier Cablevision that subscriber complaints regarding the technical standards of the cable system continued to be received. Further, the letter outlined and included copies of the Commission's technical standards as they apply to cable systems serving fewer than 500 subscribers. Copies of the data from performance tests were requested, as were copies of the annual reports.

5. On June 24, 1977, Auxier Cablevision requested an extension of time for making performance tests until an unspecified time when rebuilding of the distribution facilities would be completed. By letter dated July 20, 1977, the request was denied, and the cable system was again requested to submit copies of the data from performance tests and its annual reports. The letter stated in part:

Even if circumstances were to justify a waiver of the Rules to permit the cable system additional time to comply with the technical standards, the process of reconstruction is not sufficient reason to delay performance measurements on the existing system to determine whether the cable system may currently comply with the technical standards.

6. The denial of the request for an extension of time was not for an extension of time in which to comply with the technical standards, but only for an extension of time in which to submit data from the technical measurements. The Commission has not yet been presented information showing the fact or degree of non-compliance, and thus as yet the extent of any waiver request is not known. In any event, at this point Auxier Cablevision has not made the showing required by Section 76.7 of the Rules to justify a waiver.

7. Auxier Cablevision has not responded to the staff's request. Further, its delay in filing not only the requested technical information but also the annual reports amid assurances that such reports were being prepared casts doubt on the cable system's good faith. The Commission appears to be left with no alternative but to issue an order to show cause. Therefore, this matter will be designated for hearing. In the Bureau's judgment, the hearing should consider not only Auxier Cablevision's apparent failure to provide the information as required by Sections 76.10, 76.403, and 76.601 of the Rules, but also, if information is forthcoming during the hearing which shows non-compliance with the Commission's technical standards, the presiding officer may consider whether

any type of a waiver of those requirements may be appropriate.

8. Auxier Cablevision, who has not been represented by counsel, is reminded that Section 1.221(c) of the Rules provides that, to avail itself of the opportunity of a hearing, a written notice stating an intention to appear at the hearing must be filed with the Commission within a specified period of 20 days from the mailing of the notice of designation for hearing by the Secretary. Further, in accordance with Section 1.92 of the Rules, if the hearing is waived, a written statement may be submitted within the time specified above which may deny or seek to mitigate or justify the circumstances or conduct complained of in the order to show cause.

In view of the above, the issuance of an order to show cause would be in the public interest.

Accordingly, it is ordered, That pursuant to Section 0.288(v) of the Rules, and pursuant to Sections 312 (b) and (c) of the Communications Act of 1934, as amended, 47 U.S.C. § 312 (b) and (c), Auxier Cablevision is directed to show cause why it should not be ordered to cease and desist from further violation of Part 76 of the Commission's Rules and Regulations on its cable television system at Auxier, Ky.

It is further ordered, That Auxier Cablevision is directed to appear and give evidence at a hearing to be held before an Administrative Law Judge at a time and place to be specified by a subsequent order, unless the hearing is waived, consistent with paragraph 8, above.

It is further ordered, That the Secretary, Federal Communications Commission, shall send a copy of this Order by certified mail to Auxier Cablevision.

FEDERAL COMMUNICATIONS
COMMISSION,

JAMES R. HOBSON,
Chief, Cable Television Bureau.

EMERGENCY BROADCAST SYSTEM

Closed Circuit Test

NOVEMBER 2, 1977.

A test of the Emergency Broadcast System (EBS) has been scheduled for Wednesday, November 9, 1977 between 2:03:30 and 2:09:00 p.m., Washington, D.C. time. Only ABC, CBS, NBC, IMN, MBS, and NPR radio network affiliates and UPI-Audio clients will participate. Television networks are not participating in this test.

Network affiliates will be notified of the test procedures via their network beginning four days in advance of the test. Test messages will also be run by AP and UPI radio press wire services for four days in advance of the test to insure wide dissemination of the test announcement and schedule.

Final evaluation of the November test is scheduled to be made by the end of December 1977.

This is a closed circuit test and will not be broadcast over the air.

Action by the Commission November 1, 1977, Commissioners Ferris (Chairman), Lee, Quello, Washburn, Fogarty, and White.

FEDERAL COMMUNICATIONS
COMMISSION,
WILLIAM J. TIRCARICO,
Acting Secretary.

[6712-01]

[Docket No. 21421]

**UNITED CABLE CO.
Order To Show Cause**

Adopted: October 20, 1977.

Released: November 2, 1977.

1. The Commission has received a complaint from a resident of Craigsville, W. Va., who identified himself as a prospective subscriber of United Cable Co., purported operator of a cable television system at Craigsville (Nicholas County), W. Va. Since the Commission had no record of the system, an investigation was conducted by the Cable Television Bureau's staff, wherein it was determined that the system did indeed exist and was co-owned by E. V. Hall and Joseph Young of Webster Springs, W. Va. In conversation with Bureau staff, Mr. Young advised that the system commenced cable television operations in November 1973, without first securing a certificate of compliance as required by section 76.11 (a) of the Commission's Rules. Mr. Young also advised (a) that the system served more than 50 paying subscribers, (b) that the owners neither applied for nor received a franchise, or other appropriate authorization from the State of West Virginia or any subdivision thereof; and, (c) that the system had not filed any annual reports or forms required by the Commission's Rules. Mr. Young was advised that the system appeared to be operating in violation of the Commission's Rules.

2. The Commission, by its Cable Television Bureau, wrote to counsel for the system requesting a response within 20 days concerning the nature and extent of cable operations. Counsel responded to the inquiry and said he would attempt to have corporation officers respond more fully. He asked that the Commission forward the various reporting forms which were required to be filed. Bureau staff sent the forms and requested that counsel file the annual reports and forms within 30 days. Counsel was cautioned that a failure to respond within the prescribed time may result in the issuance of an order to show cause why United Cable Co. should not be ordered to cease and desist from operating in violation of the Commission's Rules. Subsequently, counsel ad-

vised the Cable Television Bureau that efforts toward compliance with the Rules (including the filing of an application for a certificate of compliance) would follow forthwith. A 30 day extension of time was requested and granted. The extension of time requested has long since expired and to date, the application for a certificate of compliance, an application for interim operating authority or the requisite annual reports have not been filed.

3. By its own admissions and those of its counsel, the cable television system at Craigsville, W. Va., commenced and continues operation in contravention of the Commission's Rules. Section 76.11 of our rules, at the time of all but our most recent letter, required all proposed cable television systems to obtain a certificate of compliance before initiating cable service. Although we have recently acted to exempt systems of fewer than 500 subscribers from our certification requirement, we have been unable to determine the number of subscribers being served from the Craigsville system. And, even assuming the system has fewer than 500 subscribers, it has not complied with section 76.10 of the Rules (registration). It is equally clear that the reporting forms required by Subpart I of the Rules (section 76.403) have not been filed. While the Commission has shown flexibility relative to inadvertent violations and welcomes good faith efforts to bring unauthorized operations into compliance with the Rules, such does not appear to be the case here. The Commission cannot condone what appears to be an intentional disregard of its cable television rules or, as appears here, a dilatory approach by an operator in bringing the system into compliance. Other attempts by the staff to obtain the proper filings from counsel or the cable systems have been unavailing. On August 30, 1977, a letter was directed to counsel via certified mail requesting a response within 15 days of its date. A certified receipt was returned to the Commission evidencing acceptance of the letter by an authorized agent for counsel on September 1, 1977. To date no response to that letter has been received by the Commission. Given United's failure to reply, coupled with its admitted and apparent violations of our Rules, we believe the issuance of this Order to Show Cause is warranted. The officer at the hearing should consider not only United Cable Co.'s apparent failure to provide the information required by sections 76.10, 76.11, and 76.403 of the Rules, but also any other information which may be forthcoming during the hearing which shows noncompliance with other Commission Rules.

Accordingly, it is ordered, That pursuant to sections 312 (b) and (c) and 409(a) of the Communications Act of 1934, as amended (47 U.S.C. 312 (b), (c), and 409(a)), and section 0.288(v) of the Commission's Rules, United Cable Co. is directed to show cause why it should not be ordered to cease and desist from further violations of Part 76 of the Com-

mission's Rules and Regulations on its cable television system at Craigsville, W. Va.

It is further ordered, That United Cable Co. is directed to appear and give evidence at a hearing to be held at a time and place to be specified by subsequent order before an Administrative Law Judge unless the hearing is waived in which event a written statement may be submitted.

It is further ordered, That the Secretary of the Commission shall send copies of this Order via certified mail to United Cable Co. and to its legal representative, William C. Garrett, Esq.

FEDERAL COMMUNICATIONS
COMMISSION,
JAMES R. HOBSON,
Chief, Cable Television Bureau.

[6712-01]

WHW ENTERPRISES, INC., ET AL.

**Designating Applications for Consolidated
Hearing on Stated Issues**

Adopted: October 25, 1977.

Released: November 4, 1977.

In the matter of applications of: WHW Enterprises, Inc., Kalamazoo, Mich. (Docket No. 21374; File No. BPH-9878), Req: 107.7 MHz, Channel No. 299B; 50 kW (H&V); 500 feet (H&V); Radio Portage, Inc., Portage, Mich. (Docket No. 21375; File No. BPH-10,211), Req: 107.7 MHz, Channel No. 299B; 50 kW (H&V); 480 feet (H&V); The Air-Borne Group, Ltd., Portage, Mich. (Docket No. 21376; File No. BPH-10,239), Req: 107.7 MHz, Channel No. 299B; 50 kW (H&V); 500 feet (H&V); James R. Searer, James M. Searer, and Susan L. Homan d.b.a. Sear Broadcasting Co., Portage, Mich. (Docket No. 21377; File No. BPH-10,241), Req: 107.7 MHz, Ch. No. 299B; 50 kW (H&V); 500 feet (H&V); for construction permits.

1. The Commission, by the Chief, Broadcast Bureau, has before it: (i) the above-captioned applications of WHW Enterprises, Inc. ("WHW"), Radio Portage, Inc. ("Radio Portage"), The Air-Borne Group, Ltd. ("Air-Borne"), James R. Searer, James M. Searer, and Susan L. Homan, d.b.a. Sear Broadcasting Co. ("SBC"), which are mutually exclusive in that they seek the same FM broadcast channel; (ii) informal comments regarding WHW's application filed by Air-Borne; and (iii) pleadings responsive thereto.

2. Turning first to Air-Borne's comments, before we consider them on the merits, a brief statement of the facts giving rise to the controversy will be helpful. On April 27, 1976, WHW submitted an application for a construction permit for a new FM station to be located at Kalamazoo, Mich. An amendment to its application was prepared and signed by Walter Hall, its president, on April 27, 1977, and, on the following day, the amendment was tendered for filing with

the Commission. However, prior to the filing of the amendment, on April 12, 1977, Alonzo Cady, a director and shareholder of WHW, was indicted for tax evasion. Cady received notice of the indictment on April 28, 1977, but apparently did not report the indictment to the president of WHW until May 10, 1977. In a letter dated May 2, 1977, the Commission requested WHW to amend its application to correct financial and ascertainment deficiencies. WHW complied with the Commission's request on June 1, 1977, and also announced at that time the withdrawal of Alonzo and Donna Cady from any involvement with WHW as a result of Cady's indictment. Based upon the foregoing facts, Air-Borne requests the Commission to designate character, section 1.65, and misrepresentation issues against WHW.

3. *Character qualifications issue.* As Air-Borne correctly argues, an applicant's removal of a principal indicted for a crime does not automatically eliminate all questions as to the effect of the principal's conduct on the applicant's qualifications to be a Commission licensee. *TV 9 Inc. v. FCC*, 161 U.S. App. D.C. 349 495 F.2d 929, 29 RR 2d 1115 (1973). We are convinced, however, that under the facts and circumstances presented here, Cady's indictment could not reasonably be expected to reflect adversely on WHW's qualifications. In this regard we find it significant: (a) that Cady's conduct was unknown to WHW's other principals at the time its application and subsequent pre-June, 1977 amendments were filed; (b) that WHW took immediate steps to effectuate Mr. and Mrs. Cady's withdrawal from WHW as soon as the conduct was revealed; (c) that Cady's conduct did not involve broadcasting or any application before the Commission; and (d) that Cady had not, as yet, assumed an active role in WHW's affairs. See *Gilbert Broadcasting Corp.*, 55 FCC 2d 579, 34 RR 2d 1673 (Rev. Bd. 1975). These considerations, we believe, warrant a conclusion that Cady's conduct could have no substantial impact on WHW's application and a further inquiry into the matter is therefore unnecessary.

4. *Section 1.65 issue.*³ Although WHW did not technically comply with the requirements of section 1.65 of the Rules, in that it did not report Cady's indictment

within the required thirty days, we believe that its infraction must be considered harmless error. Thus, we note that WHW reported Cady's indictment within a few days after the period specified by section 1.65 had expired, that the applicant reported the information voluntarily and before Air-Borne filed its informal objection, and that WHW's delay appears to have been inadvertent and without any intent to mislead or deceive the Commission. Under these circumstances, as the Commission has held in the past, an issue is not warranted. *Gainesville Media, Inc.*, 59 FCC 2d 382, 37 RR 2d 178 (Rev. Bd. 1976).

5. *Misrepresentation or lack of candor issues.* While Air-Borne argues that WHW filed an amendment to its application with constructive knowledge that Cady was indicated for tax evasion, our understanding of the relevant facts indicates that the filing of the amendment and Cady's receipt of the indictment notice occurred at essentially the same time. Thus, we cannot conclude that Cady or WHW's other principals were aware of the indictment at the time the amendment was prepared, making a misrepresentation issue inappropriate.

6. Finally, although one of the proposals is for a different community, it would serve substantially the same areas as the other three proposals. Consequently, in addition to determining, pursuant to section 307(b) of the Communications Act of 1934, as amended, which of the proposals would best provide a fair, efficient and equitable distribution of radio service, a contingent comparative issue will be specified.

7. Except as indicated above, the applicants are qualified to construct and operate as proposed. However, because the proposals are mutually exclusive, they must be designated for hearing in a consolidated proceeding on the issues specified below.

8. Accordingly, it is ordered, That, pursuant to section 309(e) of the Communications Act of 1934, as amended, the applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent Order, upon the following issues:

1. To determine, in light of section 307(b) of the Communications Act of 1934, as amended, which of the proposals would best provide a fair, efficient and equitable distribution of radio service.

2. To determine, in the event it is concluded that a choice between the applications should not be based solely on considerations relating to section 307(b), which of the applications would best serve the public interest.

3. To determine, in light of the evidence adduced pursuant to the foregoing issues, which, if any, of the applications should be granted.

9. It is further ordered, That, to avail themselves of the opportunity to be heard, the applicants herein, pursuant to

section 1.221(c) of the Commission's Rules, in person or by attorney, shall, within twenty (20) days of the mailing of this Order, file with the Commission, in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in the Order.

10. It is further ordered, That, the applicants herein shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and section 1.594 of the Commission's Rules, give notice of the hearing either individually or, if feasible and consistent with the Rules, jointly, within the time and in the manner prescribed in such Rule, and shall advise the Commission of the publication of such notice as required by section 1.594(g) of the Rules.

FEDERAL COMMUNICATIONS
COMMISSION,
WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

[4110-12]

FEDERAL COUNCIL ON THE AGING MEETING

The Federal Council on the Aging was established by the 1973 amendments to the Older Americans Act of 1965 (Pub. L. 93-29) for the purpose of advising the President, the Secretary of Health, Education, and Welfare, the Commissioner on Aging, and the Congress on matters relating to the special needs of older Americans.

Notice is hereby given pursuant to Pub. L. 92-463 that the Federal Council on the Aging will meet on November 30, and December 1, 1977, Wednesday, and Thursday, from 9:30 a.m. to 5 p.m. each day in the Snow Room 5051, HEW—North Building, 330 Independence Avenue SW., Washington, D.C. 20201. The meeting will be open to the public. The agenda will consist of: Approval of Council Position on Asset Testing in Determining Eligibility for Government Benefit Programs, Status of Health Manpower and other FCA Manpower Activities, Review of Impact of Energy/Weather Crisis on Elderly, Review of Issues in Community Service Employment Programs for the Elderly (Title IX), Status of Minority Elderly Project, Review of Social Security Financing Issues, Review of Frail Elderly Project, and Approval of 1978 Council Agenda and Schedule.

Further information on the Council may be obtained from: Cleonice Tavani, Executive Director, Federal Council on the Aging, Washington, D.C. 20201, telephone 202-245-0441.

CLEONICE TAVANI,
Executive Director,
Federal Council on the Aging.

OCTOBER 31, 1977.

FEDERAL MARITIME COMMISSION AGREEMENTS FILED

The Federal Maritime Commission hereby gives notice that the following agreements have been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of each of the agreements and the justifications offered therefor at the Washington Office of the Federal Maritime Commission, 1100 L Street NW., Room 10126; or may inspect the agreements at the Field Offices located at New York, N.Y.; New Orleans, La.; San Francisco, Calif.; and San Juan, P.R. Interested parties may submit comments on each agreement, including requests for hearing, to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, by November 28, 1977. Comments should include facts and arguments concerning the approval, modification, or disapproval of the proposed agreement. Comments shall discuss with particularity allegations that the agreement is unjustly discriminatory or unfair as between carriers, shippers, exporters, importers, or ports, or between exporters from the United States and their foreign competitors, or operates to the detriment of the commerce of the United States, or is contrary to the public interest, or is in violation of the Act.

A copy of any comments should also be forwarded to the party filing the agreements and the statement should indicate that this has been done.

AGREEMENT No. 10314.

FILING PARTY: R. J. Finnan, Pricing, Lykes Bros. Steamship Co., Inc., 300 Poydras Street, New Orleans, La. 70130.

SUMMARY: Agreement No. 10314, an agency agreement, covers an arrangement whereby Lykes Bros. Steamship Co., Inc. (Lykes), appoints John A. Merritt & Co. (sub-agent) of Pensacola, Fla., to act as a sub-agent at the port of Pensacola, Fla., to handle Lykes' interests in connection with calls on vessels owned and chartered by Compagnie Nationale Algerienne de Navigation (CNAN). The sub-agent shall perform all acts and functions customarily performed by steamship agents in accordance with the terms and conditions set forth in the agreement.

AGREEMENT No. T-590-9.

FILING PARTY: Joe H. Hamner, Jr., Attorney, Board of Commissioners of the Port of New Orleans, Post Office Box 60046, New Orleans, La. 70160.

SUMMARY: Agreement No. T-590-9, between the Board of Commissioners of the Port of New Orleans and the Public Grain Elevator of New Orleans, Inc. (PGE), modifies the basic lease agreement between the parties. Section 28 of the current lease includes a requirement that

PGE give preference to liner vessels desiring to berth for the loading of grain. The purpose of the modification is to delete section 28 from the agreement.

AGREEMENT No. T-3538.

FILING PARTY: J. Robert Bray, Counsel, Virginia Port Authority, 1600 Maritime Tower, Norfolk, Va. 23510.

SUMMARY: Agreement No. T-3538, between Seaboard Coast Line Railroad Co. (Seaboard) and Virginia Port Authority (VPA), provides for the lease to VPA of 6.5 acres at Pinners Port, Portsmouth, Va. As compensation, Seaboard will receive \$8,287.50 per annum. The premise will be subleased by VPA to Portsmouth Terminal, Inc., in Agreement No. T-3539.

AGREEMENT No. T-3539.

FILING PARTY: J. Robert Bray, Counsel, Virginia Port Authority, 1600 Maritime Tower, Norfolk, Va. 23510.

SUMMARY: Agreement No. T-3539, between Virginia Port Authority (VPA) and Portsmouth Terminals, Inc. (PTI), provides for the lease to PTI of 6.5 acres at Pinners Point, Portsmouth, Va. As compensation, PTI will pay basic rental of \$8,237.50 per annum plus a percentage of rental it receives after recovery of certain costs. The premises were leased to VPA by Seaboard Coast Line Railroad Co. under Agreement No. T-3538.

AGREEMENT No. T-3540.

FILING PARTY: H. H. Wittren, Manager, Waterfront Real Estate, Port of Seattle, P.O. Box 1209, Seattle, Wash. 98111.

SUMMARY: Agreement No. T-3540, between Port of Seattle (Port) and Pacific Alaska Line, Inc. (Pacific), provides for the five-year renewable lease to Pacific of approximately 6,179 square feet of land area together with a building area of 11,100 square feet located at Terminal 105, Seattle, Wash. As compensation, Pacific will pay Port \$1,486.48 per month as rent. In addition, Pacific agrees to pay all applicable Port tariff charges. The leased facilities will be used by Pacific in connection with its maritime commerce activities.

AGREEMENT No. T-3541.

FILING PARTY: Albert Dearden, Deputy Chief, Leases and Operating Agreements Division, The Port Authority of New York and New Jersey, One World Trade Center, New York, N.Y. 10048.

SUMMARY: Agreement No. T-3541, between the Port Authority of New York and New Jersey (Port) and John W. McGrath Corp. (McGrath), provides for the month-to-month lease of Pier 10 at the Brooklyn-Port Authority Marine Terminal, New York, N.Y., for use by McGrath as a public marine terminal facility. As compensation, McGrath shall pay the Port the greater of \$2 multiplied by revenue tons handled at the facility or \$516,000 per annum, with a minimum annual payment of \$258,000. McGrath shall be subject to all Port rules and reg-

ulations, including tariffs, and shall have the exclusive right to collect dockage and wharfage from all vessels calling at the facility per the agreement.

By order of the Federal Maritime Commission.

Dated: November 2, 1977.

FRANCIS C. HURNEY,
Secretary.

**GENERAL ACCOUNTING OFFICE
REGULATORY REPORTS REVIEW
Notice of Receipt of Report Proposal**

The following request for clearance of a report intended for use in collecting information from the public was received by the Regulatory Reports Review Staff, GAO, on November 1, 1977. See 44 U.S.C. 3512 (c) and (d). The purpose of publishing this notice in the FEDERAL REGISTER is to inform the public of such receipt.

The notice includes the title of the request received; the name of the agency sponsoring the proposed collection of information; the agency form number, if applicable; and the frequency with which the information is proposed to be collected.

Written comments on the proposed CAB request are invited from all interested persons, organizations, public interest groups, and affected businesses. Because of the limited amount of time GAO has to review the proposed request, comments (in triplicate) must be received on or before November 25, 1977, and should be addressed to Mr. John M. Lovelady, Acting Assistant Director, Regulatory Reports Review, U.S. General Accounting Office, Room 5033, 441 G Street NW., Washington, D.C. 20548.

Further information may be obtained from Patsy J. Stuart of the Regulatory Reports Review Staff, 202-275-3532.

CIVIL AERONAUTICS BOARD

The CAB requests clearance of new reporting requirements for Free and Reduced Rate Transportation for Travel Agents contained in sections 371.50(c), 378.32(b), and 378a.50(d) of the Board's Special Regulations. Submission of the data called for in these sections is mandatory under section 407 of the Federal Aviation Act, as amended, by tour operators who transport travel agents at free or reduced rates on Advance Booking Charters, Inclusive Tour Charters, and One-Stop-Inclusive Tour Charters. Each tour operator and foreign tour operator shall file with CAB a report identifying each tour (including the CAB identification) on which one or more travel agents were so transported. The report shall show for each such tour, the name of each agent transported, the price which each agent paid, and the percentage relationship between the price which each agent paid, and the The report may be in letter form. The initial reports are required to be filed on or before July 1, 1978, and 30 days after the end of each six-month period thereafter. The CAB estimates respondents are approximately 400 tour operators and that reporting time for each semi-annual report will average two hours.

**PRESIDENT'S COMMITTEE ON MENTAL
RETARDATION**

Meeting

The President's Committee on Mental Retardation was established by Executive Order to provide advice and assist-

ance in the area of mental retardation to the President including evaluation of the adequacy of the national effort to combat mental retardation; coordination of activities of Federal agencies; provision of adequate liaison between foundations and other private organizations; and development of information designed for dissemination to the general public.

The Committee will meet on Monday, December 12, 1977, 9 a.m. to 5 p.m. and on Tuesday, December 13, 1977, 9 a.m. to 5 p.m., in the South Portal Building, Room 727A, 200 Independence Avenue SW., Washington, D.C. 20202. At the meeting, the Committee will discuss full citizenship rights, humane service systems, trends in residential facilities, public awareness, and prevention of mental retardation.

These meetings are open to the public. Further information on the President's Committee on Mental Retardation may be obtained from Mr. Fred J. Krause, Executive Director, Room 2614, ROB No. 3, 7th and D Streets SW., Washington, D.C. 20201, telephone: area code 202-245-7634.

Dated: October 31, 1977.

National Institute of Education

**PROGRAM OF RESEARCH GRANTS ON
ORGANIZATIONAL PROCESSES IN EDU-
CATION**

Closing Dates for Receipt of Applications

Notice is hereby given that pursuant to the authority contained in section 405 of the General Education Provisions Act, as amended (20 U.S.C. 1221e), applications are being accepted for grants under the Program of Research Grants on Organization Processes in Education.

A. *Types of awards.* The program funds two types of grants. Small grants may be made for projects of up to twelve months' duration in amounts not to exceed \$7,500 in direct costs. Grants (other than small grants) may be made in any amount for projects of up to three years' duration.

B. *Application procedures.* The application process for a grant (other than a small grant) requires a preliminary proposal, which is reviewed by the National Institute of Education (NIE). NIE returns to the applicant an indication of the relative standing of the preliminary proposal among those received in the same cycle, and information on any major strengths or weaknesses found in the review. A full proposal for a grant (other than a small grant) may be submitted only after the applicant has received the review of the preliminary proposal.

The application process for a small grant requires only a full proposal, not a preliminary proposal.

C. *Review cycles.* NIE will consider applications received at any time between

the date of this notice and September 30, 1978. (NIE intends to continue this program in future fiscal years, depending upon availability of funds and other factors. Dates for review cycles after September 30, 1978, will be published at a later time.)

Applications are reviewed in batches at intervals. Closing dates for applications of all kinds are:

December 15, 1977

April 13, 1978

August 15, 1978

An application not received by the deadline date will be held for review in the next cycle.

D. Program information. A program announcement may be obtained from the Research Staff, Group on School Capacity for Problem Solving, National Institute of Education, 1200 19th Street NW. (Mail Stop 4), Washington, D.C. 20208, telephone 202-254-6090. The announcement includes copies of all rules governing the program, as well as information on availability of funds, expected number of awards, eligibility, and review criteria, and instructions on how to apply. Anyone interested in applying for research support under this program is strongly urged to obtain the program announcement.

E. Estimated distribution of program funds. Approximately \$1 million will be available for initial funding of new awards made by this program in response to applications filed against fiscal year 1978 deadlines. Initial projections call for awarding 20-30 grants in fiscal year 1978 of which about 15 will be small grants. Approximately \$100,000 of the \$1 million is reserved for small grants.

Only projects of the highest quality will be supported, whether or not the resources of the program are exhausted. Further, nothing in this announcement should be construed as committing NIE to award any specific amount. The actual total of funds awarded may change because of a need to reserve funds for continuation of projects begun in earlier years, for contract or in-house research, or because of budget or staffing restrictions.

F. Applications sent by mail. An application sent by mail should be addressed as follows: National Institute of Education, Proposal Clearinghouse, Washington, D.C. 20208, Attention: Organization Research. The outside of the package should be marked to show whether it contains a preliminary, small grant or full proposal. To be considered in a review cycle, applications must be received at the Clearinghouse by 4:30 p.m. on the deadline dates. Materials must be received by the closing date; a pre-deadline postmark date will not be a criterion for acceptance.

G. Hand-delivered applications. A hand-delivered application must be brought to the Proposals Clearinghouse, Room 708, 1832 M Street NW., Washington, D.C. Hand-delivered applications will be accepted daily between the hours

of 9 a.m. and 4:30 p.m., Washington, D.C., time, except Saturdays, Sundays, and Federal holidays. The Clearinghouse will close promptly on deadline dates.

H. Applicable regulations. The regulations applicable to this program include the NIE General Provisions Regulations (45 CFR Part 1400) published in the FEDERAL REGISTER on November 4, 1974, at 39 FR 38992, and the proposed regulations for the Program of Research Grants on Organizational Processes in Education published in the FEDERAL REGISTER on January 5, 1977, at 42 FR 1045. (Catalog of Federal Domestic Assistance Number 13.950, Educational Research and Development.)

Dated: October 31, 1977.

PATRICIA ALBJERG GRAHAM,

Director,

National Institute of Education.

[4310-55]

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

ENDANGERED SPECIES PERMIT

Receipt of Application

The U.S. Fish and Wildlife Service has been publishing much of the information submitted with applications for endangered species permits. This has been done to provide the public an opportunity to review and comment on these applications as required by the Endangered Species Act of 1973 (87 Stat. 896, Section 10(c), Notice and Review).

It has been determined that this notice does not require the publication of the application itself and all or part of the accompanying data. It is sufficient to publish the notice, invite response and comment, and make the application available (subject to Privacy Act provisions) for public scrutiny.

Because of a need to avoid unnecessary expenditures and to reduce the workload in the Federal Wildlife Permit Office, all endangered species permit applications for which public comments are invited will be published in the brief format that is demonstrated in the following application number PRT 2-1481, National Zoological Park.

The public is invited to comment on this new procedure. Comments should be sent to the Director, U.S. Fish and Wildlife Service (WFO), Washington, D.C. 20240.

Notice is hereby given that the following application for a permit has been received under Section 10 of the Endangered Species Act of 1973.

Applicant: National Zoological Park, Washington, D.C. 20008.

The purpose of the application is to export two male Eld's deer (*Cervus eldi thamin*) to Thailand. These animals were born in captivity at the National Zoo (September 1976) and are to be used by the Thailand Wildlife Conservation Division in a breeding program with females already in captivity in Thailand

with the goal of eventual reintroduction of the species into suitable habitat within its former range. Humane shipment and care in transit is assured.

Documents and other information submitted with this application are available to the public during normal business hours in Room 534, 1717 H Street NW., Washington, D.C., or by writing to the Director, U.S. Fish and Wildlife Service (WFO), Washington, D.C. 20240.

This application has been assigned file number PRT 2-1481. Interested persons may comment on this application by submitting written data, views, or arguments to the Director at the above address on or before December 7, 1977. Please refer to the file number when submitting comments.

Dated: November 1, 1977.

DONALD G. DONAHOO,

Chief, Permit Branch, Federal

Wildlife Permit Office, U.S.

Fish and Wildlife Service.

ENDANGERED SPECIES PERMIT

Receipt of Application

Notice is hereby given that the following application for a permit has been received under section 10 of the Endangered Species Act of 1973.

Applicant: Wildlife Safari, Inc., Winston, Oregon, William York, Vice President, Director of Zoology.

Purpose of application is for the export and re-import of two captive born cheetahs (*Acinonyx jubatus*). These animals will be taken to Southwest Africa to determine if they can be taught to hunt. The eventual goal of the research is reestablishment of the cheetah into its original range. The animals will be kept in a 10 acre compound in Africa and returned to the U.S. at the completion of the experiment. Activities will be filmed. Humane transport, feeding and care are assured.

Documents and other information submitted with this application are available to the public during normal business hours in Room 534, 1717 H Street NW., Washington, D.C., or by writing to the Director, U.S. Fish and Wildlife Service (WFO), Washington, D.C. 20240.

This application has been assigned file number PRT 2-1582. Interested persons may comment on this application by submitting written data, views, or arguments to the Director at the above address on or before December 7, 1977. Please refer to the file number when submitting comments.

Dated: November 2, 1977.

DONALD G. DONAHOO,

Chief, Permit Branch, Federal

Wildlife Permit Office, U.S.

Fish and Wildlife Service.

[4310-68]

Office of Surface Mining Reclamation and Enforcement

USE OF MINING ENFORCEMENT AND SAFETY ADMINISTRATION INSPECTORS BY THE OFFICE OF SURFACE MINING RECLAMATION AND ENFORCEMENT

Section 201(d) of the Surface Mining Control and Reclamation Act of 1977 (Pub. L. 95-87, 91 Stat. 445) prohibits the Director from using any person charged with the responsibility of inspecting coal mines under the Federal Coal Mine Health and Safety Act of 1969, unless it is found that such activities would not interfere with inspections under the 1969 Act. Such findings must be published in the FEDERAL REGISTER.

Section 413 of the Surface Mining Control and Reclamation Act of 1977 provides that all agencies of the United States are to cooperate with the Secretary of the Interior by providing technical expertise and personnel to implement and administer the provisions of Title IV. Similarly, section 702(c) of the Act requires that to the greatest extent practicable, each Federal Agency is to cooperate with the Secretary of the Interior in carrying out the provisions of the Act.

It has been determined that it may be necessary to use inspection personnel of the Mining Enforcement and Safety Administration for limited inspection purposes under the Surface Mining Control and Reclamation Act of 1977. In accordance with the requirements of section 201 (d) of that Act, this notice is published determining that the use of such inspection personnel would not interfere with activities under the Federal Coal Mine Health and Safety Act of 1969.

Both the Coal Mine Health and Safety Act of 1969 and the Surface Mining Control and Reclamation Act of 1977 have "imminent danger" provisions. Under the Surface Act of 1977, the term "imminent danger" refers to an imminent danger to the health and safety of the public, or to the environment. Under the Coal Act of 1969 the term refers to imminent dangers in coal mines to a miner.

The use of these inspectors by the Office of Surface Mining Reclamation and Enforcement will be on a temporary basis until such time that that office is adequately staffed. These inspectors will be used on a limited as-needed basis only. Their function will be to investigate reported violations and "imminent dangers" to the Office of Surface Mining Reclamation and Enforcement. MESA inspectors will be used when the existence of an imminent danger to the public or the environment is alleged. Where such dangers under the Surface Act of 1977 are also imminent dangers under the Coal Act of 1969 there will clearly be no diminution of effort under the Coal Act. Where the distinction is less clear, investigations under the Surface Act shall be scheduled so that there will be no interference with inspections scheduled or required under the Coal Act. The use of MESA inspectors will not interfere with the effective performance of MESA

inspectors under the Coal Mine Health and Safety Act of 1969.

This finding of fact shall be effective upon publication until February 3, 1978, unless otherwise terminated or extended.

Dated: October 27, 1977.

JOAN M. DAVENPORT,
Assistant Secretary—
Energy and Minerals.

DEPARTMENT OF JUSTICE

Office of the Attorney General

NPDES PERMIT

Consent Decree in Action To Enforce Compliance With Terms and To Impose Penalties for Violation of That Permit

In accordance with Departmental Policy, 28 CFR § 50.7, 38 FR 19029, notice is hereby given that on June 6, 1977 a consent decree in *United States v. Arco/Polymers, Inc.* was entered by the United States District Court for the Southern District of Texas. The decree requires defendant to comply with the terms of its NPDES permit by July 1, 1979, and would impose a civil penalty of \$60 per day from July 1, 1977 until defendant installs and makes operational a control system which will allow it to comply with the terms of its NPDES permit.

The Department of Justice will receive for a period of thirty (30) days from the date of the notice written comments relating to the consent decree. Comments should be addressed to the Assistant Attorney General of the Land and Natural Resources Division, Department of Justice, Washington, D.C. 20530, and should refer to *United States v. Arco/Polymers, Inc.*, D.J. Ref. 90-5-1-1-780.

The consent decree may be examined at the office of the United States Attorney, at the Region VI Office of the Environmental Protection Agency, Enforcement Division, International Building, 1201 Elm Street, Dallas, Tex. 75270; and at the Pollution Control Section, Land and Natural Resources Division of the Department of Justice, Room 2625, Ninth Street and Pennsylvania Avenue NW., Washington, D.C. 20530. A copy of the consent decree may be obtained in person or by mail from the Pollution Control Section, Land and Natural Resources Division of the Department of Justice.

JAMES W. MOORMAN,
Assistant Attorney General,
Land and Natural Resources
Division.

SECURITIES AND EXCHANGE COMMISSION

[SR-AMEX-77-22; Release No. 14111]

AMERICAN STOCK EXCHANGE, INC.

Order Approving Proposed Rule Change

OCTOBER 28, 1977.

In the matter of American Stock Exchange, Inc., 86 Trinity Place, New York, N.Y. 10006.

On September 8, 1977, the American Stock Exchange, Inc., filed with the Commission, pursuant to section 19(b) of the Securities Exchange Act of 1934 (the "Act"), as amended by the Securities Acts Amendments of 1975, and Rule 19b-4 thereunder, copies of a proposed rule change. The proposed rule change amends Rule 341 to provide that the 60 day period, during which Amex retains disciplinary jurisdiction over officers and registered employees of member firms, will commence on termination of employment or on receipt of notice of such termination, whichever occurs later.

Notice of the proposed rule change together with the terms of substance of the proposed rule change was given by publication of a Commission Release (Securities Exchange Act Release No. 13961, (September 15, 1977)) and by publication in the FEDERAL REGISTER (42 FR 47600 (September 21, 1977)).

The Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder.

It is therefore ordered, Pursuant to section 19(b)(2) of the Act, that the proposed rule change filed with the Commission on September 8, 1977, be, and it hereby is, approved.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

AMERICAN STOCK EXCHANGE, INC.

Order Approving Proposed Rule Change

OCTOBER 28, 1977.

In the matter of American Stock Exchange, Inc., 86 Trinity Place, New York, N.Y. 10006.

On September 8, 1977, the American Stock Exchange, Inc., filed with the Commission, pursuant to section 19(b) of the Securities Exchange Act of 1934 (the "Act"), as amended by the Securities Acts Amendments of 1975, and Rule 19b-4 thereunder, copies of a proposed rule change. The proposed rule change amends Rule 341 to provide that the 60 day period, during which Amex retains disciplinary jurisdiction over former members, will commence on termination of employment or on receipt of notice of such termination, whichever occurs later.

Notice of the proposed rule change together with the terms of substance of the proposed rule change was given by publication of a Commission Release (Securities Exchange Act Release No. 13960, (September 15, 1977)) and by publication in the FEDERAL REGISTER (42 FR 47599 (September 21, 1977)).

The Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to national securities exchanges, and in particular, the requirements of section 6 and the rules and regulations thereunder.

It is therefore ordered, Pursuant to section 19(b) (2) of the Act, that the proposed rule change filed with the Commission on September 8, 1977, be, and it hereby is, approved.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[Release No. 9978; 811-2089]

INTERFUND INC.

Notice of Filing of Application Pursuant to Section 8(f) of the Act for an Order Declaring That Company Has Ceased To Be An Investment Company

OCTOBER 28, 1977.

In the matter of Interfund, Inc., P.O. Box 550, Bellevue, Wash. 98009.

Notice is hereby given that Interfund, Inc. ("Applicant"), registered under the Investment Company Act of 1940 ("Act") as an open-end, non-diversified management investment company, filed an application on April 15, 1977, and amendments thereto on June 24, 1977, and October 12, 1977, for an order of the Commission, pursuant to Section 8(f) of the Act, declaring that Applicant has ceased to be an investment company as defined in the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

Applicant represents (1) that it is a corporation organized under the laws of the state of Washington; (2) that it has been registered under the Act since May 28, 1970; and (3) that its shares are ef-

fectively registered pursuant to a registration statement under the Securities Act of 1933.

According to the application, Applicant has been managed internally (rather than pursuant to an advisory contract) since May 6, 1974. Applicant states that its total net assets have decreased from \$1,198,000 on December 31, 1972, to \$622,000 on October 11, 1976. Applicant states further that on September 8, 1976, its Board of Directors determined that it was in the best interests of Applicant's shareholders to recommend a merger of Applicant into First Multifund of America, Inc. ("Multifund"), registered under the Act as an open-end, diversified management investment company. Applicant states further that the shareholders approved the merger on December 27, 1976, by a vote in excess of that required by state law, and that on February 8, 1977, articles of merger were filed with the Secretary of State of the State of Washington.

According to the application, Applicant's total net assets prior to the merger were \$571,782, and there were 47,308 shares outstanding at the date of the merger. Applicant represents that on December 28, 1976, pursuant to the Plan of Merger between Applicant and Multifund, Applicant transferred all, except as described below, of its assets, consisting of cash and shares of mutual funds, at net asset value, in exchange for shares of Multifund, the aggregate net asset value of which was equal to the net asset value of Applicant's assets. Applicant represents further that the shares of Multifund are so received were distributed to Applicant's shareholders pro rata, based on the number of shares held of record by each shareholder of Applicant at the close of business on the day preceding the closing date.

Applicant also represents that at the time of the transfer of its assets to Multifund, Applicant withheld the sum of \$10,000 to cover a sizable contingent liability and to defray legal and accounting costs, taxes and other miscellaneous expenses in connection with the winding up of Applicant's affairs. According to the application, \$8,658.73 had been expended as of September 30, 1977, to cover the aforementioned costs, including (1) the settlement of the contingent claim for legal services, which settlement was in the amount of \$3,863.35, and (2) a final accounting report furnished by Applicant's accountants at a cost of \$1,000. Applicant states in addition that legal and administrative expenses incurred in connection with the filing of this application and Applicant's final annual report to be filed with the Commission on Form N-1R will exhaust the remaining \$1,341.27 of the \$10,000 withheld by Applicant in connection with the winding up of its affairs.

Section 8(f) of the Act provides, in part, that when the Commission, upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order, and that upon the taking effect

of such order, the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than November 23, 1977, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail upon Applicant at the address stated above. Proof of such service (by affidavit or, in the case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0-5 of the Rules and Regulations promulgated under the Act, an order disposing of the application will be issued as of course following said date unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

[8010-01]

[Release No. 34-14107; File No. SR-DTC-77-9]

DEPOSITORY TRUST CO.

Proposed Rule Change

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), as amended by Pub. L. No. 94-29, 16 (June 4, 1975), notice is hereby given that on October 5, 1977, the above mentioned self-regulatory organization filed with the Securities and Exchange Commission a proposed rule change as follows:

STATEMENT OF THE TERMS OF SUBSTANCE OF THE PROPOSED RULE CHANGE

The proposed rule change would enable participants to borrow securities conditionally to meet settlement obligations, with automatic return to the lender of those securities which are not needed to complete deliveries on settlement day.

The proposed rule change is attached as Exhibit 2 to DTC's filing on Form 19b-4A, File No. SR-DTC-77-9.

STATEMENT OF BASIS AND PURPOSE

The basis and purpose of the foregoing proposed rule change are as follows:

The purpose of the proposed rule change is to reduce the number of fails-

to-deliver within the Institutional Delivery (ID) system by encouraging DTC participants to borrow securities in order to complete all or most of their institutional deliveries on settlement day. The Conditional Deliver Order (CDO) service would provide an incentive to borrowing by reducing loan processing costs.

Currently, if a broker/dealer does not have a deliverable position on T+4 (trade date plus four days) it may elect to borrow securities in order to meet its T+5 (settlement day) obligation to its institutional customer. However, hindsight may reveal that deliveries received by the broker/dealer on T+5 would have been adequate to satisfy the ID obligation. In such a case, the borrowing and its costs turn out to have been unnecessary. Certain broker/dealers avoid these costs by electing not to borrow, but this of course increases the likelihood that there will be a fail-to-deliver on settlement day.

The CDO Service would reduce loan processing costs as follows. Costs attributable to unnecessary borrowing under the present procedure include the \$1.48 DTC fee for the delivery from lender to borrower, the cost to the borrower of checking the status of its securities positions on the morning of T+5 to determine whether it has received sufficient securities during the DTC night processing cycle to make the loan unnecessary, the cost to the borrower of preparing the delivery instructions returning the unneeded securities to the lender, the \$1.48 DTC fee for return of the unneeded securities from the borrower to the lender, and the opportunity cost to the lender if the unneeded securities are returned too late for the lender to lend them to someone else the same day. By automating the determination of whether the loan is necessary, and by returning unneeded securities automatically, the CDO service would eliminate all of the above costs but the \$1.48 delivery fee for the original delivery from lender to borrower.

The CDO service would carry out the purposes of Section 17A of the Securities Exchange Act of 1934 by reducing unnecessary costs to persons facilitating transactions by and acting on behalf of investors. It will also facilitate the prompt and accurate clearance and settlement of transactions in securities by decreasing the number of fails-to-deliver between broker/dealers and their institutional customers.

Conditional Deliver Orders were discussed in articles in DTC Newsletters of March 1977, April 1977, and June 1977. An outline of procedures for the proposed service was sent to some Participants including all Participants who requested it. Written comments were received from a Participant and the Securities Operations Division of the Securities Industry Association and are attached as Exhibit 3 to DTC's filing.

DTC believes that no burden will be placed on competition by the proposed rule change.

On or before December 12, 1977, or within such longer period (i) as the

Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the above-mentioned self-regulatory organization consents, the Commission will:

(A) by order approve such proposed rule change, or (B) institute proceedings to determine whether the proposed rule change should be disapproved.

Interested persons are invited to submit written data, views, and arguments concerning the foregoing. Persons desiring to make written submissions should file 6 copies thereof with the Secretary of the Commission Securities and Exchange Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing and of all written submissions will be available for inspection and copying in the public reference room, 1100 L Street NW., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should be submitted on or before November 28, 1977.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

OCTOBER 27, 1977.

[812-4191; Release No. 9990]

MASSACHUSETTS TAX EXEMPT UNIT TRUST, SERIES 1 (AND SUBSEQUENT SERIES) AND MOSELEY, HALLGARTEN & ESTABROOK, INC.

Notice of Filing of Application Pursuant to Section 6(c) of the Act for an Order of Exemption From the Provisions of Section 14(a) of the Act and Rules 19b-1 and 22c-1 Thereunder

NOVEMBER 4, 1977.

In the matter of Massachusetts Tax Exempt Unit Trust Series 1 and subsequent series, and Moseley Hallgarten & Estabrook, Inc., Boston, Mass. 02109.

Notice is hereby given that Massachusetts Tax Exempt Unit Trust, Series 1 ("First Trust"), a unit investment trust registered under the Investment Company Act of 1940 ("Act"), and its sponsor, Moseley Hallgarten & Estabrook, Inc. ("Sponsor"; hereinafter the Sponsor and the First Trust are referred to collectively as "Applicants"), have filed an application on September 20, 1977 and an amendment thereto on October 31, 1977, pursuant to Section 6(c) of the Act for an order of the Commission (1) exempting the First Trust and subsequent Series (hereinafter referred to collectively as "Trust(s)") from the provisions of Section 14(a) of the Act, and (2) exempting the frequency of capital gains distributions of the Trusts and the secondary market operations of the

Sponsor from the provisions of Rule 19b-1 and Rule 22c-1, respectively, under the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

The exemptive orders are requested for the First Trust and subsequent Trusts. The Sponsor has filed a Form S-6 Registration Statement under the Securities Act of 1933 ("1933 Act") covering a maximum of 10,000 units ("Units") of fractional undivided interests in the First Trust, to be offered to investors at a public offering price set forth in the prospectus included in the S-6 Registration Statement (including 2,500 Units registered for secondary market purposes).

According to the application, each Trust will be governed by a trust agreement for that Trust (hereinafter called the "Agreement"), which will be executed prior to the time the registration statement under the 1933 Act for such Trust becomes effective. For each Trust, New England Merchants National Bank will act as Trustee, and Standard & Poor's Corporation will act as Evaluator. The Agreement for each Trust will contain standard terms and conditions of trust common to all Trusts.

Pursuant to the Agreement, the Sponsor will deposit with the Trustee bonds which the Sponsor shall have accumulated for such purpose in an amount at least equal to the aggregate principal amount of the Units to be offered. Simultaneously with the deposit, the Trustee will deliver to the Sponsor registered certificates for the Units which will represent the entire ownership of the respective Trust. These Units will in turn be offered for sale to the public by the Sponsor. In the case of the First Trust, bonds in a principal amount of at least \$7,500,000 will be deposited with the Trustee, in exchange for 7,500 Units in the First Trust.

Applicants state that such bonds will not be pledged or be in any other way subjected to any debt at any time after the bonds are deposited in the Trusts except for the lien of the Trustee as security for certain liabilities as set forth in the Agreement. All of such bonds will be interest-bearing obligations of States and territories of the United States, and political subdivisions and authorities thereof, the interest on which is exempt from federal income taxation.

The assets of each Trust will consist of the bonds initially deposited, such other bonds as may continue to be held from time to time in exchange or substitution of any of the bonds upon certain refunds, accrued and undistributed interest, and undistributed cash. In selecting bonds, Applicants state that the following factors will normally be considered: (i) Standard & Poor's Corporation's or Moody's Investors Service, Inc.'s rating of A or better; (ii) the price of the bonds relative to other bonds of similar quality and maturity; (iii) diversification of the bonds as to the purpose of issue; and (iv) income to the

Unitholders. According to the application, certain of the bonds may from time to time be sold under the special circumstances set forth in the Agreement with respect to such Trust or may be redeemed or may mature in accordance with their terms; the proceeds from such disposition will be distributed to Unitholders and not reinvested. There is no provision in the Agreement for the sale and reinvestment of the bonds, and Applicants represent that such activity will not take place.

Applicants assert that in the opinion of counsel, none of the Trusts will be associations taxable as corporations under the Internal Revenue Code and, to the extent that income of any of the Trusts consists of interest excludable from gross income under the Internal Revenue Code, such income is excludable from the gross income of the Unitholders when distributed to them.

Each Unit of each Trust will represent a fractional undivided interest in that Trust and will be redeemable. Units will remain outstanding until redeemed or until the termination of the Agreement with respect to such Trust. The Agreement may be terminated with respect to any of the Trusts upon approval by 66 2/3 percent of the Unitholders of such Trust or, in the event that the value of the bonds in such Trust shall fall below 33 1/2 percent of the principal amount of the bonds initially deposited in such Trust, upon direction of the Sponsor to the Trustee. There is no provision in the Agreement for the issuance of any Units after the initial offering of Units (except to the extent that the secondary trading by the Sponsor in the Units is deemed the issuance of Units under the Act), and Applicants represent that such activity will not take place.

Following the deposit of bonds for a Trust by the Sponsor with the Trustee, and following the declaration of effectiveness of that Trust's registration statement under the 1933 Act and clearances by the securities authorities of various States, the Sponsor will offer the Units to the public. As stated in the prospectus, public offering price per Unit is computed by adding to the aggregate offering price of the underlying bonds in the Trust divided by the number of Units outstanding, an amount equal to 4.712 percent thereof. In addition, a proportionate share of accrued bond interest to the date of delivery of the Units to the purchasers is added to the public offering price.

While the Sponsor undertakes no obligation to do so, it is its stated intention to maintain a market for Units of each of the Trusts and continuously to offer to purchase such Units at prices in excess of the redemption prices as set forth in the Agreement. In the absence of such a market, Unitholders may be able to dispose of their Units only by redemption.

SECTION 14(a)

Section 14(a) of the Act requires that a registered investment company, prior to making a public offering of its securi-

ties: (a) have a net worth of \$100,000, (b) have previously made a public offering and at that time have had a net worth of \$100,000, or (c) have made arrangements for at least \$100,000 to be paid in by 25 or fewer persons before acceptance of public subscriptions.

Applicants seek an exemption from the provisions of Section 14(a) in order that a public offering of Units of the Trusts as described above may be made. In connection with the requested exemption from Section 14(a), the Sponsor agrees: (i) to refund, on demand and without deduction, the sales load to purchasers of Units of any Trust, and to liquidate the bonds held by such Trust and distribute the proceeds if, within 90 days after the registration of such Trust under the 1933 Act becomes effective, the net worth of such Trust shall be reduced to less than \$100,000 or if such Trust is terminated; (ii) to instruct the Trustee on the date the bonds are deposited in each Trust that if such Trust shall at any time have a net worth of less than 33 1/3 percent of the principal amount of bonds initially deposited in such Trust as a result of redemption by the Sponsor of Units constituting a part of the unsold Units, the Trustee shall terminate such Trust in the manner provided in the Agreement and distribute any bonds or other assets deposited with the Trustee pursuant to the Agreement; and (iii) in the event of termination for the reasons described in (ii) above, to refund any sales load to any purchasers of Units purchased from the Sponsor on demand and without any deduction.

In connection with the Sponsor's obligations above, Applicants state that the Sponsor is a wholly-owned subsidiary of Moseley, Hallgarten & Estabrook Holding Corporation, both of which are Delaware corporations formed in 1975. They state further that, at January 28, 1977, the net worth of the Sponsor was \$4,996,424.

The Applicants assert that Section 14(a) of the Act is intended to limit the formation of under-capitalized investment companies. Applicants state that it is intended that each Trust, at the date of deposit and before any Unit is offered to the public, will have a net worth far in excess of \$100,000; that the Sponsor intends to sell all Units to the public at an offering price disclosed in the prospectus; that it is intended that a secondary market for the Units be maintained; and that interest rates and other applicable information concerning the underlying bonds will be discussed in the prospectus. The Applicants contend that the course of conduct of the Sponsor outlined above, as well as the history of the Sponsor in the securities industry, demonstrates that the creation of each Trust will be managed in a responsible way by responsible persons. The Applicants further assert in their proposed notice that the danger of an undercapitalized fund is not present in this case. Additionally, the Applicants argue that requiring the

Sponsor, for example, to invest in \$100,000 or more of the Units under letter of investment intent would increase the cost of marketing the Units without any significant increase in the protection of the Unitholders.

RULE 19b-1

Rule 19b-1(a) promulgated under the Act provides in substance that no registered investment company which is a "regulated investment company" as defined in Section 851 of the Internal Revenue Code shall distribute more than one capital gain dividend in any one taxable year. Paragraph (b) of said Rule contains a similar prohibition for a company not a "regulated investment company" but permits a unit investment trust to distribute capital gain dividends received from a "regulated investment company" within a reasonable time after receipt.

Applicants propose that distributions of principal and interest to Unitholders of each Trust shall be made semi-annually or monthly. Distributions of principal constituting capital gains to Unitholders may arise, according to Applicants, in two instances: (1) If an issuing authority calls or redeems an issue held in the portfolio, the sums received by the Trust will be distributed to a Unitholder on the next distribution date; and (2) if Units are redeemed by the Trustee and bonds from the portfolio are sold to provide the funds necessary for such redemption, each Unitholder will receive his pro rata portion of the proceeds from the bonds sold over the amount required to satisfy such redemption distribution. In such instances, a Unitholder may receive in his distribution funds which constitute capital gains, since in many cases the value of portfolio bonds redeemed or sold may have increased since the date of initial deposit.

In support of the requested exemption, the application states that the dangers against which Rule 19b-1 is intended to guard do not exist in the situation at hand since neither the Sponsor nor any of the Trusts has control over events which might trigger capital gains, i.e., the tendering of Units for redemption and the prepayment of portfolio bonds by the issuing authorities. In addition, it is alleged that the amounts involved in a regular distribution of principal (that is, a distribution of principal not in respect of a redemption) are relatively small in comparison to the regular interest distribution, and such distributions are clearly indicated in accompanying reports to Unitholders as a return of principal.

RULE 22c-1

Applicants state that during the initial public offering it is intended that there will be an evaluation made each day the New York Stock Exchange is open for trading. The first evaluation after receipt of an order for sale, purchase or redemption of Units is the evaluation which will govern the terms of such transaction. Following the initial offering period, the

Sponsor, while not obligated to do so, states that it intends to offer to purchase the Units in a secondary market at prices on the offering side evaluation of the bonds in the Trust (the offering side evaluation is the price at which bonds can be purchased), determined on the last business day of each week, effective for all sales made during the following week.

In the event that the Sponsor repurchases any Units at a price below the offering side evaluation of the bonds in the Trust, the Sponsor has undertaken not to resell any such Units on the Secondary market. Applicants state that this undertaking is made to avoid the Sponsor receiving more than the specified sales charge on the resale of Units.

As regards both repurchases from Unitholders and resales in the secondary market, the Sponsor has undertaken to adopt a procedure whereby the Evaluator, without a formal evaluation, will provide estimated evaluations on trading days. Applicants state that these estimated evaluations will be used in two ways. In the case of a repurchase from Unitholders, if the Evaluator cannot state in its judgment that the previous Friday's computed repurchase price is at least equal to or greater than the current bid price (the price at which bonds can be sold), the Sponsor will order a full evaluation, in which event the repurchase price will be recomputed on the basis of the full evaluation and the transaction will be consummated based on the then current offering side prices.

Applicants state further that, as regards the resale of Units in the secondary market, if the Evaluator cannot state that the previous Friday's computed repurchase price is not more than one-half point (\$5.00 on a unit representing \$1,000.00 principal amount of underlying bonds) greater than the current offering price, a full evaluation will be ordered. Applicants contend that this will have the effect of limiting the Sponsor to a one-half point gain in the case of a decline in the offering price of the Bonds during the week of the estimated evaluations.

Applicants assert that as a result of the aforementioned procedure, (1) a Unitholder wishing to sell Units will not receive less from the Sponsor, upon its repurchase of those Units, than might be received from the Trust upon redemption, and (2) a purchaser of such Units from the Sponsor will not pay more for a Unit than approximately its current net asset value, plus sales charge.

The Sponsor, under the Trust Agreement, has the right to purchase from Unitholders all Units tendered to the Trustee by Unitholders for redemption; so long as the Sponsor is maintaining a bid in the secondary market in excess of the redemption price, the Sponsor states that it will repurchase any Units so tendered.

Under these circumstances, the Applicants contend that their proposal respecting the Sponsor's secondary market operations will in no way affect the

operations of the Trust and will benefit the Unitholders by providing a repurchase price for their Units which is in excess of the current net asset value of such Units as computed for redemption purposes.

Rule 22c-1 under the Act provides, in part, that redeemable securities issued by registered investment companies may not be sold, redeemed, or repurchased except at a price based on their current net asset value (computed on each day during which the New York Stock Exchange is open for trading, not less frequently than once daily as the time of the close of trading on such Exchange) which is next computed after receipt of a tender of such security for redemption or of an order to purchase or sell such security.

Applicants state that the Rule has two purposes: (1) to eliminate or to reduce any dilution of the value of outstanding redeemable securities of registered investment companies which might occur through the sale redemption or repurchase of such securities at prices other than their current net asset values; and (2) to minimize speculative trading practices in the securities of registered investment companies. Applicants contend that the purposes of Rule 22c-1 will not be offended by the Sponsor's secondary market activities. Applicants assert that the pricing of Units by the Sponsor in the secondary market will in no way dilute the assets of the Trust, and that Unit-holders will benefit from the Sponsor's pricing procedure in the secondary market since they will normally receive a higher repurchase price for their Units than they could by redeeming their Units at the current net asset value, and that this will be accomplished without the cost burden to the Trusts of daily evaluations of the Unit redemption value. Applicants also contend that speculation in Units of any Trust is unlikely because price changes are limited in respect to the kind of bonds which will be held by such Trust.

Applicants therefore request an exemption from the provisions of Rule 22c-1 for the First Trust and for all subsequently created Trusts insofar as the Rule may apply after completion of the primary distribution of Units of such Trust.

Section 6(c) of the Act provides, in part, that the Commission may, upon application, conditionally or unconditionally exempt any person, security, or transaction, or any class or classes of persons, securities, or transactions from any provisions of the Act or of any rule or regulation thereunder, if and to the extent such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than November 22, 1977, at 12:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his

interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail upon Applicants at the address stated above. Proof of such service (by affidavit or, in the case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0-5 of the Rules and Regulations promulgated under the Act, an order disposing of the application will be issued as of course following said date unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

SMALL BUSINESS ADMINISTRATION

[License No. 06/06-0181]

DIMAN FINANCIAL CORP.

Notice of Filing of Application for Approval of Conflict of Interest Transactions Between Associates

Notice is hereby given that Diman Financial Corp. (Diman), 13601 Preston Road, Suite 717 Carillon Tower East, Dallas, Tex. 75240, a Federal Licensee under the Small Business Investment Act of 1958, as amended (the Act), has filed with the Small Business Administration (SBA) an application pursuant to Section 107.1004 of the Regulations governing small business investment companies (13 CFR Section 107.1004 (1977), for approval of these conflict of interest transactions.

Diman was licensed by SBA on June 17, 1976, and is wholly owned by The Domino Investment Group, Inc., 13601 Preston Road, Dallas, Tex. 75240. The common stock of the parent company is held by Don R. Dixon and Don Mann as trustees for their children, and the preferred stock of the parent company is owned by Dixon-Mann Associates, Inc.

It is proposed that two small home-building concerns, which have been provided financial assistance by Diman, each purchase eight (8) lots from Forum Residential Communities (Forum). These lots are located in a planned residential community "Forum Village on the Creek", which consists of 84 lots

in Grand Prairie, Tarrant County, Tex.

Mr. Don R. Dixon is the president and beneficial owner of 10 percent or more of the issued and outstanding stock of Diman and is also the president and sole owner of Dondi Development Corp., which in turn is the 50 percent General Partner in Forum. As such, Forum is deemed to be an Associate of Diman as defined by Section 107.3(f)(2) of the SBA Rules and Regulations. Therefore, these proposed transactions are subject to Section 107.1004(b)(5) of the Regulations, which requires an exemption for their validity. SBA is considering a request for such exemption.

(1) Regional Development Corp., 3813 Surrey Circle, Grand Prairie, Tex. 75050, will purchase eight (8) lots for \$78,700 from Forum. The president and 51 percent shareholder of this small concern is Mr. Reginald Crump. Diman owns the remaining 49 percent.

(2) Vintage Builders, Inc., 1701 Oak Meadow, Irving, Tex. 75061, will purchase eight (8) lots for \$78,550 from Forum. Mr. John Veno is the president and 51 percent owner of this small concern. Diman owns the remaining 49 percent.

Notice is further given that any person may, not later than November 22, 1977, submit to SBA, in writing, comments on these transactions. Any such comments should be addressed to: Associate Administrator for Finance and Investment, Small Business Administration, 1441 "L" Street NW., Washington, D.C. 20416.

A copy of this notice shall be published by Diman in a newspaper of general circulation in Dallas, Irving, and Grand Prairie, Tex.

(Catalog of Federal Domestic Assistance Program No. 59.011, Small Business Investment Companies.)

PETER F. MCNEISH,
Deputy Associate Administrator
for Investment.

[Proposed License No. 02/02-0339]

SPROUT CAPITAL CORP.

Notice of Application for a License To Operate as a Small Business Investment Company

An application for a license to operate as a Small Business Investment Company under the Small Business Investment Act of 1958, as amended (Act) (15 U.S.C. 661 et seq.), has been filed by Sprout Capital Corp. (the Applicant) with the Small Business Administration (SBA) pursuant to 13 CFR 107.102.

The Applicant, with its principal place of business at 140 Broadway, New York, N.Y. 10005, will begin operations with \$1,000,000 of paid-in capital and surplus which will be owned 66 percent by Sprout Capital III, and 34 percent by Donaldson Lufkin and Jenrette, Inc. (DLJ). Applicant has committed to increase private paid-in capital by at least \$2,000,000 before January 31, 1978. There will be no more than thirty beneficial owners.

The officers and directors of the Applicant will be as follows:

Name and Title

John K. Castle, Chairman, Director, 830 Fifth Avenue, New York, N.Y. 10021.
Robert B. Goergen, President, Director, 11 Rockridge Avenue, Greenwich, Conn. 06830.
Dean E. Fenton, Director, 9 Morley Lane, Darien, Conn. 06820.
L. Robert Johnson, Director, 7 West 81st Street, New York, N.Y. 10024.
Edward P. Sager, Jr., Secretary, Treasurer, 123 Fennerton Road, Paoli, Pa. 19301.

DLJ, by itself or through its wholly owned subsidiaries provides Asset Management services to institutional corporate and individual investors. One of these subsidiaries, DLJ Capital Corp., provides equity-type capital for growing companies. All of the officers and directors of the Applicant are principals of DLJ Capital Corp.

It is contemplated that officers and directors of the Applicant will purchase from DLJ warrants to purchase up to 20 percent of DLJ's shares in the License Applicant.

Sprout Capital III, a closed-end private, equity lender organized as a limited partnership, is also affiliated with DLJ and invests in public and private companies.

The Applicant intends to render management consulting services as needed to small business concerns. Such services

will be provided by Officers and Directors of the Applicant. The Applicant will not use an investment advisor but will rely on the advice of its officers and directors.

The Applicant will conduct its operations principally in New York and will establish a broad financing policy which will emphasize equity investments. It will invest in growth situations which will include growth capital for dynamic operations, investing in turnaround businesses and investing in buyouts of divisions of multi-industry companies.

Matters involved in SBA's consideration of the Applicant include the general business reputation and character of the proposed owners and management, and the probability of successful operation of the applicant under their management, including adequate profitability and financial soundness, in accordance with the Act and the SBA Rules and Regulations.

Any person, may, on or before November 22, 1977 submit to SBA written comments on the proposed License.

Any such communications should be addressed to the Deputy Associate Administrator for Investment, Small Business Administration, 1441 "L" Street NW., Washington, D.C. 20416.

A copy of this Notice shall be published in a newspaper of general circulation in New York, N.Y.

(Catalog of Federal Domestic Assistance Program No. 59.011, Small Business Investment Companies.)

Dated: October 31, 1977.

PETER F. MCNEISH,
Deputy Associate Administrator
for Investment.

DEPARTMENT OF TRANSPORTATION

Coast Guard

DRAWBRIDGE REGULATIONS

Public Meeting

A Public Meeting has been scheduled for 10:00 a.m., November 17, 1977, at Great Hall, New York Chamber of Commerce Building, 65 Liberty Street, New York, N.Y., by Commander, Third Coast Guard District for the purpose of accepting and discussing recommendations concerning the need for revisions to the regulations contained in Part 117, Code of Federal Regulations relating to drawbridges over Newark Bay and its tributaries, in order to be responsive to the competing needs of marine and land transportation.

Three thousand copies of a written notice of the Public Meeting were distributed to potentially interested parties in the local area on October 14, 1977. This notice is to provide wider dissemination so as to further the Department of Transportation's policy of encouraging public participation at the earliest possible stage of potential rulemaking.

Any member of the public unable to attend the meeting may submit their comments and recommendations in writing to Commander (oan), Third Coast Guard District, Governors Island, New York, N.Y. 10004.

Dated: November 2, 1977.

A. F. FUGARO,
Rear Admiral, U.S. Coast Guard, Chief, Office of Marine Environment, and Systems.

[4910-14]

[CGD 77-206]

VESSEL TRAFFIC SERVICE, NEW ORLEANS Meeting

Notice is hereby given that a public hearing will be held on Thursday morn-

ing, December 8, 1977 at 9 A.M., in Room 6, Rivergate Center, 4 Canal Street, New Orleans, La.

The purpose of the hearing is to receive public comment concerning a proposal from a segment of the maritime industry that vessel bridge-to-bridge radio communications, presently on Channel 13, be integrated into the sector frequency channels (Channel 11, 12 and 14) of Vessel Traffic Service, New Orleans. The result would be that both Vessel Traffic Service, New Orleans radio communications and bridge-to-bridge radio communications between vessels in the Vessel Traffic Service would share the same frequency in each of the Vessel Traffic Service sectors.

The Coast Guard desires to ascertain if adequate user support exists to justify a period of operational evaluation of this proposal. The proposed exemption would apply only to vessels participating in the voluntary Vessel Traffic Service. Comments are particularly desired on the effect this proposal would have on vessels not participating in the Vessel Traffic Service. A period of evaluation would entail temporary exemption from, or modification of, the existing regulatory requirements of Title 33, Part 26 of the Code of Federal Regulations in order to authorize transmission of navigational information and vessel intentions on the Vessel Traffic Service sector frequencies rather than on Channel 13, the presently designated frequency for vessel bridge-to-bridge radio communications. It is anticipated that during the evaluation period the interests of maritime safety would still require a Channel 13 listening watch and transmission capability for emergency alternative use.

The hearing is open to the public. To the extent time permits, members of the public may present oral statements. Written statements received prior to or at the hearing may be discussed. Written comments received by December 23, 1977, will be considered in deciding what further action will be taken. For further information contact Cdr. T. L. Seaman, Port Safety Branch, Office of the Commander, Eighth Coast Guard District, Room 1341, Hale Boggs Federal Building, 500 Camp Street, New Orleans, La. 70130; telephone 504-589-6901.

(85 Stat. 164 (33 U.S.C. 1201-1208); 86 Stat. 424 (33 U.S.C. 1224; 49 CFR 1.46(o).)

OCTOBER 31, 1977.

F. P. SCHUBERT,
Captain, U.S. Coast Guard, Acting Chief, Office of Marine Environment Systems.

National Highway Traffic Safety Administration

[Docket No. EX74-5; Notice 4]

ASTON MARTIN LAGONDA (1975) LTD. Petition for Temporary Exemption From Federal Motor Vehicle Safety Standard

This notice grants the petition by Aston Martin Lagonda (1975) Ltd. of

Newport Pagnell, England, for an extension of the temporary exemption granted its predecessor corporation, Aston Martin Lagonda Ltd. That exemption, from 49 CFR 571.215 Motor Vehicle Safety Standard No. 215, Exterior Protection, expires October 1, 1977. The basis of the petition was that compliance would cause substantial economic hardship.

Notice of the petition was published on July 28, 1977, (42 FR 38463) and an opportunity afforded for comment.

In 1974 Aston Martin Lagonda petitioned for (39 FR 30374) and received (39 FR 36630) a 3-year exemption from Standard No. 215. Its petition indicated its intent to conform with the standard by October 1, 1977. However, the company went into voluntary liquidation in December 1974, and its assets were transferred by the receiver to Aston Martin Lagonda (1975) Ltd. in June 1975. Production resumed in December 1975, reaching the break-even point of six units a week in March 1976. Aston Martin lost a year's production and sales due to its financial difficulties and as of May 1977, had shipped only 105 cars to the United States under its temporary exemption. It produced 215 vehicles in the 12-month period ending February 28, 1977. Since resuming operations its primary concern has been to develop an all-new car, the Lagonda "designed with all known current and future European and U.S.A. regulations in mind". The bumper system on the Lagonda is not yet finalized but could be adapted to the presently-exempted Aston Martin. However, to conform by October 1, 1977, would reduce Aston Martin's profit margin by over \$46,000. Petitioner sustained a net loss of \$106,000 from June 1975 to March 31, 1977 and anticipated investing any profits in fixed assets connected with its manufacturing operations. Aston Martin argued that an extension of its exemption would be in the public interest and consistent with the objectives of the National Traffic and Motor Vehicle Safety Act because (with the exception of Standard No. 215) it "conforms to all current world safety standards." It believes that its standard bumper "fitted with overriders gives adequate protection to the safety equipment in low speed accidents and prevents override and underide at high speeds."

No comments were received on the petition.

The past financial problems of Aston Martin are well known and have been reported extensively in the press. Nevertheless the company has carried forward its attempts to comply with Standard No. 215, notwithstanding the loss of a year's production. The expenditures required for compliance by October 1, 1977, from the manufacturers' standpoint, might be better invested in capital improvements intended to enhance its future operating ability. Because Standard No. 215 is revoked effective September 1, 1978, and authority is currently lacking to grant an exemption from Part 581 Bumper Standard, Aston Martin will

nevertheless have to meet Federal bumper requirements only 11 months after its current exemption expires. To extend its exemption from that period should have no discernible effect upon safety, considering the design of the present system with its bumper guards, and the limited number of vehicles involved. The Administrator therefore finds that compliance by October 1, 1977, would cause the petitioner substantial economic hardship, and that the petitioner has in good faith, attempted to comply with Standard No. 215. The Administrator further finds that an extension of the exemption would be consistent with the public interest and the objectives of the National Traffic and Motor Vehicle Safety Act.

In consideration of the foregoing, NHTSA Exemption No. 74-5 from 49 CFR 571.215 Motor Vehicle Safety Standard No. 215 is hereby extended, expiring September 1, 1978.

(Sec. 3, Pub L. 92-548, 86 Stat. 1159 (15 U.S.C. 1410); delegations of authority at 49 CFR 1.50.)

Issued on October 31, 1977.

JOAN CLAYBROOK,
Administrator.

[7035-01]

[Notice No. 248]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

The following publications include motor carrier, water carrier, broker, and freight forwarder transfer applications filed under section 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act.

Each application (except as otherwise specifically noted) contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application.

Protests against approval of the application, which may include a request for oral hearing, must be filed with the Commission on or before December 7, 1977. Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest must be served upon applicants' representative(s), or applicants (if no such representative is named), and the protestant must certify that such service has been made.

Unless otherwise specified, the signed original and six copies of the protest shall be filed with the Commission. All protests must specify with particularity the factual basis, and the section of the

Act, or the applicable rule governing the proposed transfer which protestant believes would preclude approval of the application. If the protest contains a request for oral hearing, the request shall be supported by an explanation as to why the evidence sought to be presented cannot reasonably be submitted through the use of affidavits.

The operating rights set forth below are in synopsis form, but are deemed sufficient to place interested persons on notice of the proposed transfer.

No. MC-FC-77367, filed October 14, 1977. Transferee: MOLDE TRUCKING CO., 2014 14th Street NW., Rochester, Minn. 55901. Transferor: Sherman Molde, doing business as Molde Trucking, 2014 14th Street NW., Rochester, Minn. 55901. Applicant's representative: Andrew R. Clark, 1000 First National Bank Building, Minneapolis, Minn. 55402. Authority sought for purchase by transferee of the operating rights of transferor as set forth in permit No. MC 125045 and subs thereafter as follows: Dairy products, ice cream, frozen ice cream novelty, within the States of Minnesota, North Dakota, South Dakota, Nebraska, Wisconsin, and Iowa, limited to transportation under contract or contracts with Marigold Foods, and malt beverages from Milwaukee, Wis., to Rochester, Minn., under contract with Mathews Distributing Co. and Hamm's Rochester Distributing Co., Inc. Transferee presently holds no authority from this Commission. The transfer involves the incorporation of a sole proprietorship with transferor, Sherman Molde, owning 100 percent of transferee. Application has not been filed for temporary authority under section 210a(b).

No. MC-FC-77369, filed October 18, 1977. Transferee: LYNN TRANSPORTATION CO., INC., Oskaloosa, Iowa. Transferor: Lynns Poultry, Inc., Askaloosa, Iowa. Applicant's representative: Robert V. Dwyer, Jr., 300 Continental Building, Omaha, Nebr. 68102. Authority sought for purchase by transferee of the operating rights of transferor, as set forth in Certificates Nos. MC 133604 and Subs-Nos. 2 and 3, issued October 17, 1969, May 18, 1973, and March 24, 1977, respectively, as follows: Lumber, from Moravia, Iowa, to Jonesboro and Bearden, Ark.; machined castings, from Oskaloosa, Iowa, to Bay Minette and Mobile, Ala.; (1) meats, meat products, meat byproducts and articles distributed by meat packinghouses as described in sections A and C of Appendix I to the report in Descriptions in Motor Carrier Certificates, 61 M.C.C. 209 and 766, and foodstuffs, from the plantsite of Geo. A. Hormel & Co., at or near Ottumwa, Iowa, to points in Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, and Tennessee; and (2) meats, meat products articles distributed by meat packinghouses, and such commodities as are used by meat packers in the conduct of their business when destined to and for use by meat packers,

as described in Descriptions in Motor Carrier Certificates, 61 M.C.C. 209 and 766, and foodstuffs, from the points specified in (1) above to the plantsite of Geo. A. Hormel & Co., at or near Ottumwa, Iowa. Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under section 210a(b).

No. MC-FC-77370, filed October 17, 1977. Transferee: DALEY MOVING & STORAGE, INC., of Torrington, 561 South Main Street, Torrington, Conn. 06790. Transferor: Massood Transfer &

Storage, Inc., 50 Madrid Lane, Davie, Fla. 33324. Applicants' representative: Ronald I. Shapss, Esq., 450 Seventh Avenue, New York, N.Y. 10001. Authority sought for purchase by transferee of the remaining portion of the operating rights of transferor, as set forth in Certificate No. MC 95180 as follows: *Household goods*, as defined by the Commission, between points in New York, on the one hand, and, on the other, points in West Virginia, Kentucky, Tennessee, Alabama, Wisconsin, Iowa, and Missouri. The remaining portion of the operating

rights in Certificate No. MC 95180 were transferred pursuant to MC-FC-76969 by order dated September 30, 1977. Transferee presently holds operating authority from this Commission under Certificate No. MC 127052. This proceeding is directly related to a gateway elimination application filed under MC 127052. Application has not been filed for temporary authority under section 210a(b).

H. G. HOMME, Jr.,
Acting Secretary.

1

FEDERAL COMMUNICATIONS COMMISSION.

TIME AND PLACE: 9:30 a.m., Wednesday, November 9, 1977.

PLACE: Room 856, 1919 M Street NW., Washington, D.C.

STATUS: Open Commission meeting.

MATTERS TO BE CONSIDERED:

Agenda, Item No., and Subject

- General—1—Amendment of environmental regulations to take cognizance of Executive Orders 11988 (Floodplain Management) and 11990 (Protection of Wetlands).
- General—2—January 1, 1978 deadline for the sale of certain Citizens Band (CB) radios.
- General—3—Amendment of parts 2, 91, and 93 of the Commission's rules for the allocation of the frequencies 152.465 and 157.725 MHz to the Taxicab Radio Service (Docket No. 20685).
- Common Carrier—1—Final report of the Task Force on Docket 18128 Implementation.
- Common Carrier—2—Petitions to reject and suspend RCA Americom's revision to Tariff FCC No. 1, Domestic Satellite Service.
- Cable Television—1—Notice of Proposed Rulemaking to amend Part 76 of the Commission's rules with respect to "saturated" cable television systems.
- Cable Television—2—Petition for special relief, filed by Springfield Television Broadcasting Inc., licensee of television broadcast station WRLP, Greenfield, Mass. (CSR-680).
- Cable Television—3—Request for Tax Certificate, filed by Rahall Communications Corp., former owner of proscribed interests in a television-cable combination.
- Cable Television—4—Petition for reconsideration, filed by Rust Craft Broadcasting Co., licensee of Station WSTV-TV (CBS/ABC, Channel 9), Steubenville, Ohio.
- Cable Television—5—Petition for partial reconsideration, filed jointly by Television Wisconsin, Inc., licensee of Station WISCTV, Madison, Wis. and Evening Telegram Co., Superior, Wis.
- Cable Television—6—Petition for order to show cause (CSC-168), filed by William B. Kane and directed against Telesystems Corp., operator of a cable television system at Williamsport, Pa.
- Renewal—1—Nashville Chapter of NAACP's petition to deny renewal applications of WSM-AM-FM-TV, Nashville, Tenn.

Renewal—2—Application for renewal of license for station WGTB-FM, Washington, D.C., filed by Georgetown University and a petition to deny that application filed by the Committee to Save Alternative Radio (File No. BRED-196).

Television—1—Application of Margaret S. Downey for a Construction Permit for a new 100-watt UHF translator in Springfield, Mass. and petitions to deny that application filed by 3 cable television systems (BPTT3079).

Broadcast—1—Proposal to the Commission's rules governing the conversion of radiation patterns for standard broadcast stations.

Broadcast—2—Petitions for reconsideration of temporary waivers of the AM-FM non-duplication rule granted to KDWB-FM, Richfield, Minn., and to KUPD AM/FM, Tempe, Ariz.

Broadcast—3—Petition for Rulemaking filed by Dr. John Abel, Ms. Judith Saxon and the American Federation of Television and Radio Artists for revision of the Annual Employment Report (FCC Form 395) filed by all broadcast licensees (RM 1968, RM 2810).

Complaints and Compliance—1—Violations by KMOX, St. Louis, Mo., of Commission's rules by failing to log the actual duration of commercial announcements and exceeding the commercial limitations represented to the Commission in the license renewal applications.

Complaints and Compliance—2—Application for review, filed by Anthony R. Martin-Trigona, of the Broadcast Bureau's August 31, 1977 ruling denying his complaint against radio station WGN, Chicago, Ill. for failure to grant him "reasonable access" under Section 312(a)(7) of the Communications Act.

Special—1—Briefing by Commissioner Lee on the Final Report of the National Commission on Electronic Fund Transfers.

CONTACT PERSON FOR MORE INFORMATION:

Samuel M. Sharkey, FCC Public Information Officer, telephone 202-632-7260.

Issued: November 2, 1977, November 3, 1977.

2

FEDERAL ELECTION COMMISSION.

DATE AND TIME: Thursday, November 10, 1977 at 10 a.m.

PLACE: 1325 K Street NW., Washington, D.C.

STATUS: Portions of this meeting will be open to the public and portions will be closed to the public.

MATTERS TO BE CONSIDERED:

Portions open to the public.

I. Future meetings.

II. Correction and approval of minutes.

III. Advisory opinions: AO 1977-47, AO 1977-48, AO 1977-51, and review of AOR status chart.

IV. Appropriations and budget (budget execution report).

V. Pending legislation.

VI. Classification actions.

VII. Liaison with other Federal agencies.

VIII. Procedures on nonfilers.

IX. Report on pending litigation (review of status chart).

X. Routine administrative matters.

Portions closed to the public (executive session).

Audit matters; compliance; personnel.

PERSON TO CONTACT FOR INFORMATION:

Mr. David Fiske, press officer, telephone: 202-523-4065.

[6740-02]

3

FEDERAL ENERGY REGULATORY COMMISSION.

FEDERAL REGISTER CITATION OF PREVIOUS ANNOUNCEMENT: Pub. October 31, 1977, 42 FR 57004.

PREVIOUSLY ANNOUNCED TIME AND DATE OF MEETING: November 2, 1977, 10 a.m.; November 3, 1977, 10 a.m.

CHANGE IN THE MEETING: The following item has been added:

Item No., Docket No., and Company

G-51.—RP71-29, et al., (Phase II), United Gas Pipe Line Co.

[S-1768-77 Filed 11-3-77; 9:40 am]

[6740-02]

4

FEDERAL ENERGY REGULATORY COMMISSION.

NOVEMBER 2, 1977.

The following notice of meeting is published pursuant to section 3(a) of the Government in the Sunshine Act (Pub. L. 94-409), 5 U.S.C. 552b.

FEDERAL ENERGY REGULATORY COMMISSION.

TIME AND DATE: November 9, 1977, 10 a.m.

STATUS: Open.

MATTERS TO BE CONSIDERED:

(Agenda) *Note—Items listed on the agenda may be deleted without further notice.

CONTACT PERSON FOR MORE INFORMATION:

Kenneth F. Plumb, Secretary, telephone 202-275-4166.

This is a list of matters to be considered by the Commission. It does not include a listing of all papers relevant to the items on the agenda. However, all public documents may be examined in the Office of Public Information, room 1000.

POWER AGENDA, 8TH MEETING—NOVEMBER 9, 1977, REGULAR MEETING

- P-1—Docket No. ER77-474, Wisconsin Public Service Corp.
- P-2—Docket No. ER77-584, New England Power Co.
- P-3—Docket No. ER77-354, Missouri Utilities Co.
- P-4—Docket No. ER77-546, Dayton Power and Light Co.
- P-5—Docket No. ER77-545, Gulf Power Co.
- P-6—Docket Nos. ER76-799 and ER76-800, Appalachian Power Co.
- P-7—Docket No. ER77-532, Gulf Power Co.
- P-8—Docket No. ER76-709, Cincinnati Gas and Electric Co.
- P-9—Docket Nos. E-9068, E-9118 and E-9497, Ohio Edison Co.
- P-10—Docket No. E-6730, Reeves Bros., Inc.
- P-11—Docket No. ES77-60, Louisville Gas and Electric Co.
- P-12—Project No. 2615, Central Maine Power Co., Kennebec River Pulp and Papers Co., Inc., Milstar Manufacturing Corp., Scott Paper Co.
- CP-1—Docket No. ERE76-615, Missouri Utilities Co.
- CP-2—Docket No. ER76-629, Tampa Electric Co.
- CP-3—Docket Nos. ER76-319, ER76-811 and ER77-544, Pacific Gas and Electric Co.
- CP-4—Docket No. ER77-520, Arizona Public Service Co.
- CP-5—Docket No. ER77-565, Columbus and Southern Ohio Electric Co.

(E) *Maine Public Service Co. v. F.E.R.C.*, 1st Cir. No. 77-1438.

MISCELLANEOUS AGENDA 8TH MEETING—NOVEMBER 9, 1977 REGULAR MEETING

- M-1—Docket No. RM76-17, Research, development and demonstrations; accounting advanced approval of rate treatment.
- CM-1—North Penn Gas Co.
- CM-2—Upper Peninsula Power Co.

GAS AGENDA, 8TH MEETING—NOVEMBER 9, 1977 REGULAR MEETING

- G-1—Docket No. CP75-362, El Paso Natural Gas Co.
- G-2—Docket Nos. RP73-14 and RP76-50 (PGA77-3 and DCA77-1), Michigan Wisconsin Pipe Line Co.
- G-3—Docket No. RP73-97, Kentucky West Virginia Gas Co.
- G-4—Docket Nos. RP73-107 and RP74-90, Consolidated Gas Supply Corp.
- G-5—Docket Nos. RP74-20 and RP74-83, United Gas Pipe Line Co.
- G-6—Docket No. RP72-133 (PGA77-2),

United Gas Pipe Line Co.

- G-7—Docket No. RP77-110, Alabama-Tennessee Natural Gas Co.
- G-8—Docket No. RP77-108, Transcontinental Gas Pipe Line Corp.
- G-9—Docket No. RP72-6, El Paso Natural Gas Co.
- G-10—Docket No. RP75-35, *Consolidated Edison Co. of New York, Inc.*, complainant v. *Tennessee Gas Pipeline Co., a division of Tenneco, Inc.*, respondent, Docket No. RP75-36, *Orange and Rockland Utilities, Inc.*, complainant v. *Tennessee Gas Pipeline Co., a division of Tenneco, Inc.*, respondent.
- G-11—Docket Nos. RP74-6 and RP72-74, et al., Southern Natural Gas Co., et al.
- G-12—Docket Nos. RP71-130, RP72-58 and RP75-111, Texas Eastern Transmission Corp.
- G-13—Docket No. RP72-89, Columbia Gas Transmission Corp.
- G-14—Docket No. RP72-99, Transcontinental Gas Pipe Line Corp.
- G-15—Docket No. RP75-62, Cities Service Gas Co.
- G-16—Docket No. RP77-136-1, Southern Natural Gas Co.
- G-17—Docket No. RP77-129-2, United Gas Pipe Line Co. (Georgia-Pacific Corp.)
- G-18—Docket No. RI76-22, Damson Oil Corp. (operator), et al.
- G-19—Docket No. RI-77-43 and RI77-61, T.E.L. Oil & Gas et al.
- G-20—Docket No. RI77-107, El Ran, Inc.
- G-21—Pennzoil Co., FPC Gas Rate Schedule No. 10.
- G-22—Docket No. CI77-329, Texaco Inc. Docket No. CP77-304 and Docket No. CP64-97, Sabine Pipe Line Co.
- G-23—Docket No. CI77-497, Mesa Petroleum Co. Docket No. RP77-82, Tennessee Gas Pipeline Co.
- G-24—Docket No. CI77-641, *Arkansas Louisiana Gas Company v. Dyco Petroleum Corp.*
- G-25—Docket No. CI76-432, Cabot Corp. Docket No. CP76-19, Columbia Gas Transmission Corp. and the Sylvania Corp. Docket No. CP76-361, Columbia Gas Transmission Corp.
- G-26—Docket No. CP77-140, Delhi Gas Pipeline Corp. Docket No. CP77-307, Northern Natural Gas Co. Docket No. CP77-328, Natural Gas Pipeline Co. of America.
- G-27—Docket No. CP77-368, Lone Star Gas Co. (a division of Enserch Corp.)
- G-28—Docket No. CP77-363, Columbia Gas Transmission Corp. and National Fuel Gas Supply Corp.
- G-29—Docket No. CP77-38, Tennessee Gas Pipeline Co. a division of Tenneco Inc. and National Fuel Gas Supply Corp.
- G-30—Docket No. CP77-581, El Paso Natural Gas Co.
- G-31—Docket No. CP75-221, El Paso Natural Gas Co.
- CG-1—Docket No. RP-72-134 (PGA77-10a), Eastern Shore Natural Gas Co.
- CG-2—Docket No. RP73-8 (PGA78-1), North Penn Gas Co.
- CG-3—Docket No. RP72-110 (PGA78-1), Algonquin Gas Transmission Co.
- CG-4—Docket No. RP71-11 (PGA78-1 and 78-1a), Tennessee Natural Gas Lines, Inc.
- CG-5—Docket No. CP73-329 (PGA78-1), Chattanooga Gas Co.
- CG-6—Docket No. CP73-329 (PGA77-5a and 77-5b), Chattanooga Gas Co.
- CG-7—Northern Michigan Exploration Co., Gas Rate Schedule No. 1.
- CG-8—Docket Nos. CS71-337, et al., Expando Production Co., Expando Oil Co., and its partners individually, Chas. P. McGaha, M. E. McCullough, Minnie Rhea Wood, Roger E. Lewis and M. Thacker, Jr., et al.
- CG-9—Docket No. CI74-528, Exxon, Corp., Docket No. CI76-508, Mobil Oil Corp., Docket

No. CI76-702, J. M. Huber Corp., Docket No. CI77-224, Exxon Corp., Docket No. CI77-437, Phillips Petroleum Co.

CG-10—Docket No. CP77-269, Cumberland Valley Pipe Line Co.

CG-11—Docket No. CP77-527, Transcontinental Gas Pipe Line Corp.

CG-12—Docket No. CP70-56, Natural Gas Pipeline Co. of America, Docket No. CP70-57, Tennessee Gas Pipeline Co., a Division of Tenneco Inc.

CG-13—Docket No. CP77-643, Natural Gas Pipeline Co. of America and Columbia Gulf Transmission Co.

CG-14—Docket No. CP77-577, Michigan Wisconsin Pipe Line Co.

CG-15—Docket No. CP77-582, El Paso Natural Gas Co.

CG-16—Docket No. CP77-583, El Paso Natural Gas Co.

CG-17—Docket No. CP77-510, Northern Natural Gas Co.

CG-18—Docket No. CP77-551, Cities Service Gas Co.

CG-19—Docket No. CP77-552, Cities Service Gas Co.

CG-20—(A) *Consolidated Gas Supply Corp. v. F.E.R.C.*, D.C. Cir. No. 77-1893.

(B) *James M. Forgoison, Operator for Gulf Coast Venture v. F.E.R.C.*, 5th Cir. No. 77-3026.

(C) *The Sebring Utilities Commission v. F.E.R.C.*, 5th Cir. No. 77-2972.

Title 24—Housing and Urban Development

CHAPTER X—FEDERAL INSURANCE ADMINISTRATION, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

[Docket No. FI-3165]

PART 1917—APPEALS FROM FLOOD ELEVATION DETERMINATIONS AND JUDICIAL REVIEW

Final Flood Elevation Determinations for Door County, Wis.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Final rule.

SUMMARY: Final base (100-year) flood elevations are listed below for selected locations in Door County, Wis. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

EFFECTIVE DATE: The date of issuance of the Flood Insurance Rate Map (FIRM), showing base (100-year) flood elevations, for Door County, Wis.

ADDRESSES: Maps and other information showing the detailed outlines of the flood-prone areas and the final elevations for Door County, are available for review at Door County Courthouse, 138 South Fourth Avenue, Sturgeon Bay, Wisconsin.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, 202-755-5581 or toll free line 800-424-8872, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of his final determinations of flood elevations for Door County, Wisconsin.

This final rule is issued in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR Part 1917.4(a)). An opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided. No appeals of the proposed base flood elevations were received from the community or from individuals within the community.

The Administrator has developed criteria for flood plain management in flood-prone areas in accordance with 24 CFR Part 1910.

The final base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Ahnapee River	County trunk Highway X	587
	County trunk Highway J	589
	Forestville Dam	594
Stony Creek	County trunk Highway J	662
	North Carnot Rd.	663
	Carnot Rd.	664
Maple Creek	County trunk Highway T	588
	Field Road Bridge	600
	Haberli Rd.	604
Fish Creek	State trunk Highway 42	592
Keyes Creek	County trunk Highway C	593
	Pickeral Rd.	604
	Fox Lane	606

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended (39 FR 2787, January 24, 1974).)

Issued: October 4, 1977.

PATRICIA ROBERTS HARRIS,
Secretary.

[Docket No. FI-3029]

PART 1917—APPEALS FROM FLOOD ELEVATION DETERMINATIONS AND JUDICIAL REVIEW

Final Flood Elevation Determinations for the Town of North Carrollton, Carroll County, Miss.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Final rule.

SUMMARY: Final base (100-year) flood elevations are listed below for selected locations in the Town of North Carrollton, Carroll County, Miss. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

EFFECTIVE DATE: The date of issuance of the Flood Insurance Rate Map (FIRM), showing base (100-year) flood elevations, for the Town of North Carrollton, Miss.

ADDRESSES: Maps and other information showing the detailed outlines of the flood-prone areas and the final elevations for the Town of North Carrollton, are available for review at Town Hall, Main Street, North Carrollton, Miss.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, 202-755-5581 or toll free line 800-424-8872, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of his final determinations of flood elevations for the Town of North Carrollton, Miss.

This final rule is issued in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR Part 1917.4(a)). An opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided. No appeals of the proposed base flood elevations were received from the community or from individuals within the community.

The Administrator has developed criteria for flood plain management in flood-prone areas in accordance with 24 CFR Part 1910.

The final base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Beasley Creek	Mississippi Highway 35	222
	Columbus and Greenville RR.	222
Big Sand Creek	George St.	227

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended (39 FR 2787, January 24, 1974).)

Issued: October 4, 1977.

PATRICIA ROBERTS HARRIS,
Secretary.

PART 1917—APPEALS FROM FLOOD ELEVATION DETERMINATIONS AND JUDICIAL REVIEW

Final Flood Elevation Determination for the Village of Pender, Nebr.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Final rule.

SUMMARY: Final base flood elevations (100-year flood) are listed below for selected locations in the Village of Pender, Nebr. These base flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

EFFECTIVE DATE: On publication of the Flood Insurance Rate Map for the Village of Pender, Nebr.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, 202-755-5581 or toll free line 800-424-8872, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of his final determinations of flood elevations for the Village of Pender.

This final rule is issued in accordance with Section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added Section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR Part 1917).

An opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided. No appeals of the proposed base flood elevations were received from the community or from individuals within the community.

The Administrator, to whom the Secretary has delegated the statutory authority, has developed criteria for flood plain management in flood-prone areas in accordance with 24 CFR Part 1910.

Maps and other information showing the detailed outlines of the flood-prone areas and the final elevations for the Village of Pender are available for review at Village Office, Pender, Nebraska.

The final 100-year flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Logan Creek	Highway 94	1,328
Unnamed tributary	Highway 9	1,331

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended (39 FR 2787, January 24, 1974).)

Issued: June 24, 1977.

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, 202-755-5581 or toll free line 800-424-8872, Room 5270, 451 Seventh Street, SW., Washington, D.C. 20410.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of his final determinations of flood elevations for the City of Shelby, North Carolina.

This final rule is issued in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR Part 1917.4(a)). An opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided. No appeals of the proposed base flood elevations were received from the community or from individuals within the community.

The Administrator has developed criteria for flood plain management in flood-prone areas in accordance with 24 CFR Part 1910.

The final base (100-year) flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet, national geodetic vertical datum
Hickory Creek.....	Gildney St.....	740
	Kings Rd.....	749
	Montrose Dr.....	751
	Forest Hill Dr.....	762
	U.S. Highway 74-A.....	778
	Wyke Rd.....	803
Tributary H-2.....	East Warren St.....	793
Tributary H-3.....	Winsor Dr.....	749
	Pinecone Lane.....	750
Tributary H-4.....	Seaboard RR.....	829
	Wyke Rd.....	835
Tributary B-2.....	Kingsberry St.....	751

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator, 34 FR 2680, February 27, 1969, as amended (39 FR 2787, January 24, 1974).)

Issued: September 13, 1977.

PATRICIA ROBERTS HARRIS,
Secretary.

PART 1917—APPEALS FROM FLOOD ELEVATION DETERMINATIONS AND JUDICIAL REVIEW

Final Flood Elevation Determination for the Village of Gates Mills, Cuyahoga County, Ohio

AGENCY: Federal Insurance Administration, HUD.

ACTION: Final rule.

SUMMARY: Final base flood elevations (100-year flood) are listed below for selected locations in the Village of Gates Mills, Cuyahoga County, Ohio. These base flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

EFFECTIVE DATE: On publication of the Flood Insurance Rate Map for the Village of Gates Mills, Cuyahoga County, Ohio.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, 202-755-5581 or toll free line 800-424-8872, Room 5270, 451 Seventh Street, SW., Washington, D.C. 20410.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of his final determinations of flood elevations for the Village of Gates Mills, Cuyahoga County, Ohio.

This final rule is issued in accordance with Section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added Section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR Part 1917). An opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided. No appeals of the proposed base flood elevations were received from the community or from individuals within the community.

The Administrator, to whom the Secretary has delegated the statutory authority, has developed criteria for flood plain management in flood-prone areas in accordance with 24 CFR Part 1910.

Maps and other information showing the detailed outlines of the flood-prone areas and the final elevations for the Village of Gates Mills, Cuyahoga County, Ohio, are available for review at the Town Hall, Gates Mills, Ohio.

The final 100-year flood elevations for selected locations are:

Source of flooding	Location	Elevation in feet above mean sea level
Chagrin River.....	North corporate limits (Rogers Rd.).	680
	Chagrin River Rd. (extended).	703
	Mayfield Rd. (U.S. 322).	712
	Old Mill Rd. (extended).	716
	Deerfield Rd. (extended).	733
	South corporate limits.	738
		743

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended (39 FR 2787, January 24, 1974).)

**ENDANGERED
SPECIES SCIENTIFIC
AUTHORITY**

**EXPORT OF BOBCAT,
LYNX, RIVER OTTER, AND
AMERICAN GINSENG**

Extension of Export Deadline

REPORT OF THE

COMMISSIONER OF THE

LAND OFFICE

FOR THE YEAR

ENDING DECEMBER

THIRTY-NINE

1900

[4310-55]

**ENDANGERED SPECIES
SCIENTIFIC AUTHORITY****EXPORT OF BOBCAT, LYNX, RIVER OTTER,
AND AMERICAN GINSENG****Extension of Export Deadline**

AGENCY: Endangered Species Scientific Authority.

ACTION: Notice.

TEXT: Previous findings of the Endangered Species Scientific Authority (see 42 FR 43729-43767) are amended to allow through November 30, 1977, export under permit of bobcat, lynx, river otter, and American ginseng inventories. Previously, export of these inventories was generally authorized only through October 31, 1977. Export of these inventories also may continue under permit after

November 30, 1977, if evidence is submitted leaving no reasonable doubt that the furs or roots were in inventory on that date. Inventory statements will be accepted as such evidence if verified by certified public accountants and filed with the Fish and Wildlife Service by November 30, 1977. Inventory statements must show the location and quantity of furs or roots by scientific names of species, and the location of records. The inventory statements must be filed with the Federal Wildlife Permit Office, U.S. Fish and Wildlife Service, Washington, D.C. 20240.

The November 30 deadline does not apply to export under permit from those States and for those species for which export is authorized from the 1977-78 season's harvest. Current findings on such export are summarized in the notice of August 30, 1977 (42 FR 43729-

42767), and revised findings will be published in late November or early December.

These and other findings of the Endangered Species Scientific Authority do not ensure issuance of export permits, because of additional and unrelated findings required of the Federal Wildlife Permit Office.

FOR FURTHER INFORMATION CONTACT:

Dr. William Y. Brown, Executive Secretary, Endangered Species Scientific Authority, 18th and C Streets NW., Washington, D.C. 20240, 202-343-5687.
Dated: November 2, 1977.

WILLIAM Y. BROWN,
*Executive Secretary, Endangered
Species Scientific Authority.*

**DEPARTMENT OF
STATE**

**FISHERY CONSERVATION
AND MANAGEMENT
ACT OF 1976**

**Applications for Permits To Fish Off the
Coasts of the United States**

**Register
of
Federal**

[4710-01]

DEPARTMENT OF STATE

[Public Notice 575]

FISHERY CONSERVATION AND
MANAGEMENT ACT OF 1976Applications for Permits to Fish Off the
Coasts of the United States

The Fishery Conservation and Management Act of 1976 (Pub. L. 94-265) (the "Act") provides that no fishing shall be conducted by foreign fishing vessels in the Fishery Conservation Zone of the United States after February 28, 1977, except in accordance with a valid and applicable permit issued pursuant to Section 204 of the Act.

The Act also requires that all applications for such permits be published in the FEDERAL REGISTER.

Applications for fishing during 1978 have been received from the Government of Japan, and are published herewith.

Dated: October 28, 1977.

LARRY L. SNEAD,
Acting Director,
Office of Fisheries Affairs.

APPLICATION FOR VESSEL PERMITS TO FISH WITHIN THE
FISHERY CONSERVATION ZONE OF THE UNITED STATES

No. _____

In accordance with the provisions of the Agreement between the Government of the United States of America and the Government of Japan concerning Fisheries off the Coasts of the United States of America signed in Washington, D.C. on March 18, 1977 and expect to enter into force this year, the Government of Japan hereby submits this application for permits for vessels under its jurisdiction to engage in fishing for living resources off the coasts of the United States, as defined in the said Agreement, during the year 1978.

Fishing Vessel Identification Forms will be submitted in support of this application. The fishery plans, species, and catch contemplated for vessels of the Japanese flag are as follows:

Fishery Plans	Target Species	Total Tonnage Requested for Each Species (MT)
Bering Sea and Aleutian Islands Trawl and Herring Gillnet	Pollock	792,300
	Pacific Ocean Perch	9,300
	Yellowfin Sole	62,100
	Other Plounders	111,500
	Pacific Cod	38,100
Gulf of Alaska Trawl	Herring	5,800
	Squid	10,000
	Others	63,500
	Pollock	44,100
	Pacific Ocean Perch	19,800
	Other Rockfishes	3,800
	Flounders	22,100
	Pacific Cod	17,500
	Atka Mackerel	2,000
	Squid	2,000
Sablefish	Others	4,200
	Sablefish	19,300
Crabs	Tanner Crab	12,500
Snails	Snail	2,700
Seamount Groundfish	Seamount Groundfish	1,500
Atlantic Squids	Long-finned Squid	21,000
Other Finfish-Atlantic	Short-finned Squid	17,300
	Butterfish	17,100
	Other finfish	7,000

No. JA-78-0497

1. Name of Vessel TENYU MARU No. 3 2. Visual Identifier (Call Sign) JQRR
 3. Type of Vessel STEM TRAWLER 4. Length 51
 5. Gross Tonnage 349 6. Net Tonnage 144 7. Speed (knots) 14
 8. Owner's Name and Address OGATA GYODO CO., LTD.
1-15-16, CHUO, ISHINOMAKI MIYAGI, JAPAN
 9. Types of Processing Equipment FLASH FREEZER

10. Fisheries for Which Permit is Requested:

Fishery Plans	Target Species	Gear To Be Used	Catching	Processing	Other Support
BSA	YELLOWFIN SOLE	BOTTOM TRAWL	X	X	
	OTHER FLOUNDER	BOTTOM TRAWL	X	X	
	PACIFIC OCEAN PERCH	BOTTOM TRAWL	X	X	
	PACIFIC HERRING	BOTTOM TRAWL	X	X	
	PACIFIC COD	BOTTOM TRAWL	X	X	
	SABLEFISH	BOTTOM TRAWL	X	X	
	POLLOCK	BOTTOM TRAWL	X	X	
	SQUID	BOTTOM TRAWL	X	X	
	OTHER GROUND FISH	BOTTOM TRAWL	X	X	
	SABLEFISH	BOTTOM TRAWL	X	X	

11. Are Fishing Activities Requested in Support of Vessels of a Different Flag:

☒ No ☐ Yes (If yes, attach supplemental sheet showing flag of other vessels, fishery, species, quantities, dates, locations and specific activities requested.)

FISHING VESSEL IDENTIFICATION FORM (FOREIGN)

No. JA-78-0498

1. Name of Vessel TENYU MARU No. 38 2. Visual Identifier (Call Sign) JPCY
 3. Type of Vessel STEM TRAWLER 4. Length 52
 5. Gross Tonnage 350 6. Net Tonnage 142 7. Speed (knots) 14
 8. Owner's Name and Address OGATA GYODO CO., LTD.
1-15-16, CHUO, ISHINOMAKI MIYAGI, JAPAN
 9. Types of Processing Equipment FLASH FREEZER

DEPARTMENT OF AGRICULTURE

Office of the Secretary

■

PRIVACY ACT OF 1974

Systems of Records

[3410-01]

DEPARTMENT OF AGRICULTURE

OFFICE OF THE SECRETARY

Privacy Act of 1974
Additional Systems of Records

Notice is hereby given of three additional records systems (which were inadvertently omitted from the group of notices published on August 27, 1975, 40 FR 38897) maintained by the Office of Operations within the Department of Agriculture (USDA), and required to be published in the Federal Register and in annual compilation form pursuant to the provisions of the Privacy Act of 1974 (P.L. 93-579).

Although this Act required only that the portion of each system which describes the "routine uses" of that system be published for public comment, USDA invites such comment on all portions of each notice.

Interested persons may submit written comments on this proposed notice to: Director, Research and Operations Divisions, Office of the General Counsel, U.S. Department of Agriculture, Washington, D.C. 20250, on or before December 7, 1977. All comments submitted will be available for public inspection during regular business hours in Room 2321 of the South Building, USDA, 12th Street and Independence Avenue, S.W., Washington, D.C. 20250.

Dated: October 31, 1977.

Bob Bergland
Secretary.

would you like to know

if any changes have been made in certain titles of the **CODE OF FEDERAL REGULATIONS** without reading the Federal Register every day? If so, you may wish to subscribe to the "Cumulative List of CFR Sections Affected," the "Federal Register Index," or both.

Cumulative List of CFR Sections Affected
\$10.00
per year

The "Cumulative List of CFR Sections Affected" is designed to lead users of the Code of Federal Regulations to amendatory actions published in the Federal Register, and is issued monthly in cumulative form. Entries indicate the nature of the changes.

Federal Register Index **\$8.00**
per year

Indexes covering the contents of the daily Federal Register are issued monthly, quarterly, and annually. Entries are carried primarily under the names of the issuing agencies. Significant subjects are carried as cross-references.

A finding aid is included in each publication which lists Federal Register page numbers with the date of publication in the Federal Register.

Note to FR Subscribers: FR Indexes and the "Cumulative List of CFR Sections Affected" will continue to be mailed free of charge to regular FR subscribers.

Mail order form to:
